The Jacksonville board of trade wants samples of clay from all sections of Rogue River Valley. Samples should be of five pounds or more and should be labeled giving estimate of depth of deposit, if overlaid with other material to what depth, and the extent of the deposit. Where located and distance from railroad. Tests of samples will be made free of charge to the owners and they will be given the results. A good deposit of clay, if the clay working industry can be established in this valley, will be worth money.

A convention to nominate candidates for the several county offices to be filled at the June election and to select members of the Republican county central committee for the ensuing two years will be held at Gold Hill, Friday, May 6, 1904, at 10 o'clock a. m., with the same apportionment of delegates thereto from the various precincts as above, with precinct primaries on April 30th. It is the sense of the County Committee that in the discretion of precinct committeemen one primary meeting may be called to elect delegates to both conventions to be held on the first primary day mentioned, viz, April 2d.
