The crowd that gathered at the ball park last Sunday to witness the contest between the Medford and Jacksonville teams was the most badly disappointed crowd that has assembled there for many moons, owing to the poor showing made by the local team, even tho' they outclassed the visitors in every respect. Our team went up into the air right from the jump off and remained there during the entire contest, nor did they have a "look-in" during the entire game. Some think it was all due to a misunderstanding of our boys, and as this is the only reasonable solution of the mystery we have heard, we are inclined to accept it as correct.

It seems that Mr. Hulin, the umpire, started things off in the 1st inning by singing out "Play Ball," and nearly all of the home team understood him to say "Play Horse," and as their instructions were to obey the directions of the umpire, they played horse during the entire game and it was not until the game was over and the grandstand empty that they learned they were not "In green fields and beside still waters," in a pasture, playing horse.

That man Henley had the locals up in the air and succeeded in striking 12 of them out while neither Lester nor Streib could hold the visitors down.

The errors came thick and fast for the home team, like flies around a molasses barrel and the visitors played in excellent luck all the way through. It was one of those off days for our team and nothing under the sun could have made them play winning ball.

The visitors were patched up with five or six new men whom they had run in from somewhere, but they would have had to hurry had our boys got started right and not have misunderstood the instructions of the umpire.
