L. C. Charley of Brownsboro was in Jacksonville Wednesday to present a petition for a change in the county road up Butte Creek from Brownsboro to Lake Creek, the reason for the change is to get the road bed back on the hillside and away from the creek which has washed the road away in many places and rendered it impassable.

The Braden mine in the Blackwell district, now owned by Dr. Ray, has been leased by W. Patrick who is having some repairs made to the mill preparatory to starting it up next week for a permanent run. This mill is equipped with 10 stamps and is one of the most complete mills in Southern Oregon and has a fine body of ore easily accessible. Mr. Patrick will doubtless make a success of his venture.

J. Williams a mining contractor of Salt Lake, was looking over the Jacksonville mining district the past week and Tuesday he left for Nevada to visit the Tonopah and Goldfields districts. Mr. Williams was well pleased with the mining prospects of this district and thinks that the showings indicate that there is every likelihood of there being both extensive gold and copper mines here. It is more than probable that he will return to Jacksonville next spring and take up mining operations in this district.

Stand up for your home town. It may not be the largest and best place in the state, but you can help make it a little better and a little greater than it is if you will only do your duty. Patronize home merchants; patronize your home paper, regardless of its political complexion, and don't send your dollars earned in the town to mail order houses. The boxcar merchants don't do much toward paying the expense of running the town, do not help pave your streets or maintain your schools. Then don't patronize them.—Omaha Trade Exhibit.

L. C. Charley, who now resides near Brownsboro, was in Jacksonville Wednesday. He states that Supt. Daily has granted their petition for a division of the Brownsboro school district. The school of the old district is to go to that part of the district up Butte creek, and will be moved to a location on land given by C. E. Terrill. The Brownsboro part of the old district will build a new school which will be located near the village of Brownsboro and the new building will be erected in the near future. It is expected to have the old school house moved to the new location this month and to have a three months term of school begin the first of November. Miss Huges, who is now teaching the Lake Creek school has been engaged as the teacher.

J. C. Carpenter has sold his farm on the Griffin creek road, one and one-half miles east of Jacksonville to W. Carey, who with his wife, recently arrived from Spokane, and who takes possession this week. Mr. Carpenter moves to near Talent where he will stop for the present with his daughter, Mrs. John Yarbrough, while he is selecting and making the purchase of another farm. Mr. Carey's purchase embraces 47 acres and is nearly all improved and a part is to orchard, and has good buildings. The price paid was \$2,400.

Conklin, the house-furnisher, has received another shipment of carpets and rugs that are the equal of any ever brought to Southern Oregon, embracing many beautiful designs in Axminsters, Body Brussels, Ingrains and Velvets. Call and see them. The prices are right.

Lewis and Clark Centennial.

International scope is assured to the Lewis and Clark Centennial Exposition to be held at Portland, Oregon, from June 1st to October 15, 1905, by President Roosevelt's approval of the act of Congress making an appropriation for the Exposition, and his invitation to foreign countries to participate Portland's Exposition will represent a total outlay of over \$5,000,000. Though covering 405 acres of land and natural lake, it will be compact in form, and the average person will be able to see and comprehend it all in a few days at moderate cost. The cream of the foreign and domestic exhibits to be made at St. Louis this year will be transferred to Portland at the close of the Louisiana Purchase Exposition. The United States exhibit will be moved entire to Portland and installed in building to be specially erected. This exhibit will be worth \$800,000. In addition Portland will have many features which will not be seen at St. Louis, such as exhibit demonstrating the life, customs and industries of China, Japan, Hawaii, Siberia, Russia, Alaska, Australia, New Zealand, the Philippines and India.

The Lewis and Clark Centennial will be the first international exposition under Government patronage ever held on the Pacific Coast. It will be in every way a Western exposition. The railroads will make low rates from Missouri and Mississippi river points to Portland, and exceptionally low rates will be in effect between Portland and the Rocky Mountain region.

Society's New Game.

"Trail" has taken society by storm. It is something new, something different. "Trail" as the name implies, is founded on a popular hunting sport, is played with fifty-three fine cards in four colors, representing a fox to be chased and caught, and four packs of hounds of thirteen each. "Trail" has constantly recurring interest for players as they perfect their playing from evening to evening, in marked contrast to certain recent boisterous games that bore the players at the end of an hour.

With the one pack six other splendid, new, copyright games can be played. Two Educational games, and two games of Fun, making it suitable for all members of a family.

"Trail" can be had of dealers or sent post-paid, 75c. gilt edge, plain 50c. Rules for seven games free.
