The Sentinel office exhibit has a half dozen stalks of popcorn that for height of stalk and size of ear would do credit to Kansas, for the stalks are about ten feet in height and the ears six to eight inches long and are perfectly matured. This popcorn was grown on D. J. S. Pearce's place on Poormans creek and without irrigation and is another proof that Rogue River Valley is one of the garden spots of the Pacific Coast.

Though covering 405 acres of land and natural lake, it will be compact in form, and the average person will be able to see and comprehend it all in a few days at moderate cost. The cream of the foreign and domestic exhibits to be made at St. Louis this year will be transferred to Portland at the close of the Louisiana Purchase Exposition. The United States exhibit will be moved entire to Portland and installed in building to be specially erected. This exhibit will be worth \$800,000. In addition Portland will have many features which will not be seen at St. Louis, such as exhibit demonstrating the life, customs and industries of China, Japan, Hawaii, Siberia, Russia, Alaska, Australia, New Zealand, the Philippines and India.
