

JACKSONVILLE SENTINEL

Vol. 2

Jacksonville, Jackson County, Oregon, Friday, November 11, 1904

No. 26

IS GREAT LANDSLIDE

Tuesday's Election Results in the Greatest Republican Victory Ever Known in the History of the Country.

PARKER WORSE BEATEN THAN WAS BRYAN

Roosevelt's Majorities Are Astonishing---Carries New York by 225,000, Pennsylvania by Nearly 400,000, Indiana by 75,000 Oregon by 40,000.

The result of Tuesday's election was a surprise for even the most sanguine republicans as will be shown by the following table of majorities which will give one a definite idea of the sweeping victory of Theodore Roosevelt, the like of which has never been known in the history of this country.

When it became known that Roosevelt had carried North Jacksonville by a vote of 45 to 81, South Jacksonville 32 to 96 and Applegate by 18 majority some of the local democrats went up in the air but when they heard from New York and Indiana they were completely prostrated and came down again. Peter Diesch and Marvin Taylor were finally brought too, long enough to hear from Missouri which went nearly 20,000 for Roosevelt, and it is said that they both fainted when this bit of news was gently broken to them. However, there are a lot of new hats being worn in town today which the boys say Marvin and Pete are paying for.

The large socialist vote polled throughout the country was also quite a surprise to many. In many precincts Deb's vote exceeded that of Parker.

Of the electoral votes Roosevelt will receive 343 and Parker 133 or a majority of 210 for Roosevelt.

The majorities in the various states are as follows:

FOR ROOSEVELT.

Colorado.....	10,000
California.....	50,000
Connecticut.....	32,000
Delaware.....	5,000
Idaho.....	25,000
Illinois.....	200,000
Indiana.....	75,000
Iowa.....	140,000
Kansas.....	100,000
Maine.....	37,000
Maryland.....	10,000
Massachusetts.....	80,000
Michigan.....	142,000
Minnesota.....	100,000
Missouri.....	15,000
Montana.....	2,000
New Jersey.....	50,000
Nebraska.....	40,000
New Hampshire.....	20,000
Nevada.....	2,000
New York.....	200,000
North Dakota.....	25,000
Ohio.....	154,000
Oregon.....	40,000
Pennsylvania.....	390,000
Rhode Island.....	9,000
South Dakota.....	50,000
Utah.....	8,000
Vermont.....	30,000
West Virginia.....	5,000
Washington.....	30,000
Wisconsin.....	60,000
Wyoming.....	10,000
Total.....	2,131,000

FOR PARKER.

Alabama.....	75,000
Arkansas.....	40,000
Florida.....	18,000
Georgia.....	45,000
Kentucky.....	10,000

Mississippi.....	50,000
North Carolina.....	50,000
South Carolina.....	25,000
Tennessee.....	25,000
Texas.....	100,000
Virginia.....	25,000
Total.....	498,000

Roosevelt's excess over Parker, 1,633,000

Good Prospect; No Transportation.

A mining district hereto fore comparatively unknown, located along and adjacent to the great canyon of the Rogue River, 60 miles below Galice Creek, near the mouth of the Illinois River, and 30 miles from the Pacific Ocean; is in a process of evolutionary development. For half a century a few hardy miners and prospectors have worked the placers along the river and in the gulches in that isolated region. From a few miles below Grants Pass to within a short distance of Wedderburn, at the mouth of the river, the Rogue for a distance of almost 100 miles winds through a deep canyon, with intervals of narrow strips of bottom land. The region offers difficulties in the way of transportation facilities that is its present only drawback to development.—Telegram.

Cochran-Muller.

Miss Amelia Muller, eldest daughter of the late Max Muller, for many years county treasurer of this county was united in marriage last Sat. to Mr. Leon H. Cochran at the home of the brides brother I. M. Muller, at 171 Tenth street, Oakland, Calif. The groom is an employee in the U. S. postoffice of that city, and the bride was for many years a resident of Jacksonville where she has lived with her parents since childhood, being a Native Daughter of Oregon and having many friends here who wish her long life and prosperity. Miss Muller had just returned to Oakland after a three months visit with her mother who still resides in Jacksonville at the old home on East California street.

Blue Ledge Has Shifts in all of its Adits.

Steady work is being done by the Blue Ledge management on their Oregon-California property. The three tunnels are being driven on the vein, the upper adit yet being excellent copper ore. While the two lower tunnels are on the vein, they have not yet entered the zone of enrichment proven by upper tunnels and croppings. Arrangements have been made for pressing operations during the winter months, and it is probable that a compressor will be installed before spring. Another year's work on this vein will give the new owners an insight into the property enabling them to gauge the extent of future operations, and will no doubt give the assurance required to take up the important detail of rail transportation to the Southern Pacific line.—Journal.

ORE ATTRACTS ATTENTION

Samples of Manganese, Mined in Jackson County, Prove to Be Rich in Mineral.

Samples of manganese ore sent to the Free Information Bureau by Charles Meserve, of Jacksonville, has attracted considerable attention from experts in minerals. The commercial value of manganese ore is about \$8.97 per ton, and the greater part of the manganese ores used in the United States comes from foreign countries. About one-half of this amount comes from Brazil and the other important sources are India, Cuba, Russia, Chile, Germany and Spain. A small vein of manganese ore was found in Columbia County a few years ago, but the deposits in Jackson County promise to be more extensive. Manganese is used to a considerable extent in the manufacture of steel, and the development of an extensive body of the ore would prove a valuable property.—Evening Telegram, Nov. 9th.

Local Briefs

Try the Sentinel for three months.

Trespass notices on cloth sent by mail to any address for \$1.00 a dozen.
