PLEASANT AND MOST EFFECTIVE.

T. J. Chambers, Ed. Vindicator, Liberty, Texas, writes Dec. 25, 1902:

"With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it my family and can cheerfully affirm it is the most effective and best remedy for coughs and colds I have ever used." Sold by City Drug Store.

LOCAL HAPPENINGS

Brief, Breezy Notes Regarding the Various Events That Take Place at and Near the County Seat. By This the Only Paper.

NEWS WHILE IT IS YET NEWSY

Joe Wetterer and Arthur Thompson have put in a sluice box on Jackson creek about four-hundred yards above Judge Day's residence and are now at work sluicing off the three or four feet of gravel and tailings that lie above the bed-rock and which contain more or less gold. It has been many years since this part of the Jackson creek channel has been mined and there is every reason to believe that good values lie in the old channel that once produced gold in such abundance as to attract attention throughout the country. While it is fair to presume that the old channel was once washed quite thoroughly by the processes then in vogue, it is also reasonable to suppose that with new processes and with the addition of the gold that has washed down from the hills in the last 50 years, that it would pay to work over the entire gravel deposits of Jackson creek.

New Mining Company.

Papers have been drawn for the incorporation of a new mining company to be known as the Martha Mining Company. The principal incorporators will be W. H. Brevort of New York, principal owner of the Greenback, and R. N. Bishop, mining engineer for the same company. The new company will hold the Scenic, Yellow Dog and the Scorpion claims and the St. Peters group of claims, all lying within the vicinity of the Greenback mine. The Scenic property is now being extensively developed under the supervision of Mr. Bishop and it is currently reported that a 10-stamp mill will be erected at this mine early in the spring. The other properties have been developed sufficiently to prove that they are likely to become as good paying mines as their famous neighbor, the Greenback. Mr. Brevort is one of the wealthy mining men of the United States and the Martha Mining Company will have ample capital for any development and mill building that may be undertaken to put their mines in a producing condition.—Rogue River Courier.

Change in Express.

There has been a change in the express business of the city during the last week or two and now instead of the local office receiving and dispatching express packages twice a day via the Rogue River Ry., as they have done for a number of years past, they receive and send out express on the early morning stage only, which arrangement doesn't seem to suit the officers of the local office or the patrons either yet it seems as tho' there is nothing to do but "grin and bear it" hoping that a better and more satisfactory arrangement can be made in the near future. for, with the amount of business of that kind that is done here it seems that the Wells Fargo company should endeavor to make a more satisfactory arrangement for the accommodation of their many Jacksonville patrons.

Booth and Bridges Rmved.

A press dispatch from Washington, D. C. dated Jan. 9th tells of the removal from the Roseburg land office of Register Bridges and Receiver Booth by Sec-

retary Hitchcock upon the recommendation of U. S. Dist. Atty. Heney, who is conducting the prosecution of land frauds in Oregon. Special agent Neuhausen went to Roseburg on Jan. 8 and took charge of the land office there which he will conduct at least until after the investigations have been completed and the old officers reinstated or new ones appointed. New locks have been put on the land office doors and every precaution taken by the government officials to prevent any thwarting of the ends of justice.

Altho' this action has been rumored for some time it comes as quite a surprise to the people in this district on account of these officials being so recently re-appointed to these offices. These officials were removed by the recommendation of Mr. Heney, because in his opinion, they like Mr. Hall, were able to "thwart the ends of justice."

We hope that Messrs. Bridges and Booth will be able to prove their innocence of any wrong-doing and will be reinstated in due time.

Centennial Notes.

Nebraska will have a big display at the Lewis and Clark Exposition.

A Cairo Street, and Asiatic Village, and an exhibit showing the life and customs of the Japanese and Chinese will be features of the "Trail" at the Lewis and Clark Exposition.

Two freight cars, bearing the cream of Wisconsin's educational exhibits at St. Louis, are on their way to Portland, where the exhibits will be shown at the Lewis and Clark Centennial.

A most interesting feature of the Lewis and Clark Fair will be a miniature reproduction of a complete mine in operation, with its tunnel, shaft, hoist cars and track, drills, stamp mills, and camp.

The Alaskan exhibit at the Lewis and Clark Centennial will show a complete display of fisheries, mines, and oils, together with various curios from the time of the Russian occupation.

On account of the large acreage of water at the Lewis and Clark Exposition, special attention will be given to water sports. Mimic navel battles, on a scale impossible at previous Expositions, will be held during the Fair.

The Oregon Territory, which Lewis and Clark opened up to settlers a hundred years ago, when they made their expedition, which will be commemorated at the Lewis and Clark Fair, had a population in 1900 of 1,093,441. In 1890 the population was only 747,524.

The exhibit which Missouri will send to the Lewis and Clark Exposition will be one that could not be duplicated for \$300,000. It will consist of the cream of Missouri's display at the Louisiana Purchase Exposition, supplemented by an elaborate display collected for the Western World's Fair.

The order of the United States Government removing duty charges from all imports for the Lewis and Clark Exposition has now gone into effect. While exhibitors from foreign countries will be permitted to import their wares duty free, the strictest regulations will be enforced to see that the order is not taken advantage of by smugglers.

The Oregon Agricultural College cadet corps is planning to march in a body to Portland, and camp near the Lewis and Clark Fair grounds during the Exposition. The cadet corps numbers 400 members, and has besides a band of thirty pieces. The Washington Agricultural College also plans to send a cadet corps, numbering 300, with a band of thirty pieces, to the Fair.
