he Greatest Inland Empire

BRIEF EPITOME OF KLAMATH COUNTY, THE MECCA OF THE HOMESEEKER, HAS VAST UNDEVELOPED RESOURCES AND MANY SCENIC ATTRACTIONS

KLAMATH FALLS

math Falls is the county seat; it led at the mouth of Link River beautiful little Lake Ewauna and Spper Klamath Lake. It is backed foot hills and mountains while he and valley spread away in front. In a population of about 2000. It new thirty thousand dollar High building and a fine stone build by the graded schools which cost \$29,000. The churches are Presan, Methodist, Episcopal, Baptist Catholic. These all bave fair huildings and regular pastors. It has three banks and which would be a credit to any all county seat town. It has two saw mills and one steam laundry.

Negetables do well, and the quality of land in the carry part of the season, which make fine hay.

Vegetables

Vegetables of the dollar without grain and keep in good condition. The yield of alfalfa is three to six tons per acre. Timothy two or three tons. There are also natural meadows on lands which are wet in the early part of the season, which make fine hay. which water works and the saw mills and one steam laundry, one city water pumping plant, planing mills and aash and door les, three meat markets, three spers, one rock crusher, one flour of 100-barrel capacity, one machine and foundry, one shingle mill and prenter shop, all run by electric veloped by water power. We now water power available for the drived machinery to the amount of 500 power more. We have splendid it light, water works and telest systems. Our city water comes great, clear, pure, soft water as near town. We have splendid its light, water works and telest systems. Our city water comes great, clear, pure, soft water as near town. We have splendid its light, water works and telest systems. Our city water comes great, clear, pure, soft water as near town. We have five doctor dentists and ten lawyers are two general stores, three gros, six dry goods and furnishings, hardware, three drug stores, five or shope, six livery barns, two iment houses, two bakeries, four smith shops, four jewelry stores two furniture stores. We have good new steamboat and some ler craft plying on the Klamath r and Lower Klamath Lake, and a good new steamboat and some of the Upper Klamath Lake, and a good new steamboat and some of the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new steamboat and smaller on the Upper Klamath Lake, and a good new st

mountains reaching to the shore in parts of it. From its lower end River descends in a succession of a about a mile and a half, falling 65 feet in that distance, and flowato Lake Ewauna at the lower part rm. Klamath River begins with Ewauna and skirts the valley and sountains to the south and west, ag the valley at Keno. A channel the river, some six or eight miles the valley to Lower Klamath at the valley and very healthy.

Water

Pure water can usually be had in the valleys very easily at a depth of from 15 to 30 feet.

water Power

These marshes have for center to them by the waters from the librains, and have for perhaps center been producing immense crops of grantic bull rushes, which grow 12 feet high and so thick that it is not impossible to get through them, so decaying each year have added stable matter to the silt. These shes have also for ages been the itat of innumerable water fowl, ch have added vastly to the richness be soil. This soil we believe to be as a sthere is in the world.

J. S. Reclamation and irrigation.

5. Reclamation and Irrigation

J. S. Reciametion and irrigation
he United States government has
briaken to drain these marsh lands
to irrigate them, together with the
brush lands, the cost of which is to
paid for in ten annual payments,
nout interest. The tunnel and the
inine miles of the canal are all comted and water is now ready for the
ii. One person cannot get a water
at for more than 160 acres. A husd and wife and each child may own
acres each, and each get a water
it to the same, irrespective of the
of the child. Non-resident owners
and cannot get a water right. They
it reside within the bounds of this
sem of irrigation. The water for irtion is sure, and very abundant.

MATH COUNTY is in Southern egon on the California and Oreste line.

South part of the county is severe miles from east to west, and imiddle it is one hundred miles outh to north. Population about It contains within its borders a lous variety of mountains and value of lakes and streams, of hot springs irings which are ice cold, of sage plains and tule marshes, of pine abounding in wild game, and and streams teaming with fish. The north-west part of the county atter Lake National Park. Crater is one of the wonders of the Pacific If you want to make a trip that II you want to make a trip that II you want to make a trip that II remember, go to Crater Lake.

KLAMATH FALLS

Wheat, oats, rve and barley yield heavy crops of the finest quality of grain, from a smaller amount of seed than we have ever seen sown anywhere else. Wheat producing 8 to 35 bushels per acre without irrigation, and 20 to 50 bushels with irrigation. Oats, 40 to 100 bushels, and barley 40 to 60 bushels under irrigation.

per is a beautiful valley extending overal miles to the East and South, and other valleys equally liful and picturesque open out from one through gaps in the mountains. It is a five or six of these valleys, all the same clevation, and all surgied by mountains, most of which eavily timbered with yellow pine, at of the valleys are covered with brush. The soil of the sage brush is a rich lava ash and usually very as a rich lava ash and usually very Much of it varying but very little pearance from the surface to a for two to four feet. Some places sandy, while in others it is quite to the production of a very fine quality of milk and butter. Cows do exceedingly well. These valleys are, in our judgment, destined to become a dairy country of a very high order. Cattle are fattened on alfalfa alone.

Bees do exceedingly well. The quality of koney produced in these valleys are a search to be perfectly as a search of the production of a very fine quality of milk and butter. Cows do exceedingly well. These valleys are, in our judgment, destined to become a dairy country of a very high order. Cattle are fattened on alfalfa alone.

The country is very healthful. There is very little malaria, and it is claimed by some men who have lived here for years, that there is none, only as it is brought here by individuals. The doctors say that the summers are especially fine for small children. We have the usual fevers but there does not seem to be much of them.

The nearest railroad station is Poker-ama, Oregon, on the Klamath Lake rail-road. This is 35 miles distant. The Southern Pacific is building this way as fast as it can, and it is expected that it will reach here next fall.

Kiamath County is indeed a great place for the sportsman. There are plenty of deer, and among other species are to be found the large Mule Tail deer, some of which are said to dress shout 500 lbs. There are bear and also various kinds of small game in the woods, and in the fall and winter geese and ducks are abundant. In the valleys are to be found quall, sage hens, grouse and pheasants. Our lakes and rivers have an abundance of Lake and Salmos Trout and other fish, while the smaller mountain streams have mountain Trout in abundance.

Raw lands in the first division 3 to 12 miles from town, \$25 to \$40 per acre. Improved lands \$30 to \$40 per acre. Improved lands \$30 to \$40 per acre. Some of these are already irrigated by government irrigation. Tule marsh lands which will come in later, possibly not for three or four years, but as rich as there are in the world, \$15 to \$25 per acre. Also sage brush land just as good as that in the first division, but farther out, and therefore will come in later, as low as \$15 per acre. Fine timber lands \$1800 to \$2500 per quarter section.
