Reports are being generally circulated by interested parties that no passengers will be carried by the stage company handling the mails on the route between Pohegama and Klamath Falls. The same is being done for the sole purpose of injuring the stage company, for passengers by the mail wagon have one-third less staging than by any other line, the distance between this city and Keno being covered by a fast and comfortable launch.

**PUBLICITY  
 THE PRICE OF SUCCESS**

There is a right way to do things. There is a large amount of profitable business to be secured by the right kind of advertising without increasing the fixed expenses.

The advertiser, in the preparation of copy, must consider what will appeal to the interest from the reader's or the customer's point of view. It will not do simply to put down what seems to the advertiser to be interesting, without putting it to the test of whether it will be so to the public as well. It must contain information that the public would either like to get at, or which they could be interested in by a suggestion in the shape of a good striking headline. What the public are after principally is the goods at right prices, so that good descriptions should be included in nearly every ad.

Prices are invariably of interest to the customer, and, whether the method is reliable or not, form one of the principal means of judging of the desirability of the goods.
