

SCHEDULE IS CHANGED

Mails Will No Longer Lay Over at Pokegama and Thrall as in Past

Another change in the schedule goes into effect tomorrow morning. Under the new order of things the mail will leave here about three o'clock in the morning, arriving at Pokegama in time to make connections with the train leaving for Thrall at 11:15, and arriving at Thrall at 1:15. The new schedule provides a through mail service to both Portland and San Francisco and does away with the delays at Pokegama and Thrall. The orders of this schedule were received by Postmaster Emmitt from Mail Route Inspector F. W. Valle who is now at Portland. This is practically the same service that was in effect last summer and while it is much better than the service had during the winter it is not the service at this city is entitled to. Nothing has yet been learned as to the time when the service via Weed will be established, but it is very probable that it will be soon. The completion of the new railroad to Dorris will call for the establishment of a service to that point and it is very probable that when the road is built to that point and a regular mail service inaugurated that the change in mail routes will then take place.

David Garrick Again

It is not necessary to again recommend the comedy of "David Garrick" presented by Mr. and Mrs. Mong and their company but we will predict that the popular players will be again greeted by a full house when they play their performance of this delightful frothing little play on next Tuesday evening. Mr. and Mrs. Harvey will be heard in new songs, Miss Lewis will have a new specialty and in addition to this Mr. Mong announces that he will present a new dramatic play after the performance of David Garrick. The seat sale will be opened at The Perfection at ten o'clock in the morning.

Committee is Busy

E. P. Morgan and John Ellis, the committee appointed by the Chamber of Commerce to work upon the proposition of an advertising envelope, are calling on the business men of the city to see them to use the stationery to be adopted by the Chamber. The com-

mittee has secured bids on the printing of the envelopes and they can be had at a very reasonable price, in fact, for less money than is usually paid for stationery. The envelopes will be designed to give publicity to the opportunities for homeseekers in the Klamath country. The front of the envelope will have printed on it the slogan "The Land Where Things Grow," and the business card of the firm using it, while on the back of it will be printed statistical information regarding the country and full directions as to how to get there.

The committee is meeting with success in getting orders for the stationery, and it is to be hoped that every firm in the city will use it as it will do much towards advertising this section.

BRIEF MENTION

Miss Marie McMillan has returned from an extended visit with relatives at Chico, Cal.

S. K. Noel, a former resident of this city, but now of Mount Angel, Cal., will arrive here tonight to look after his property interests.

School Superintendent Wight has gone to Merrill to spend a day visiting the schools of that place and to meet the voters of that town.

See the change of time of the McIntire-Straw Stage Company in connection with the Klamath Lake Railroad. Their advertisement is on page two.

Justice of the Peace A. D. Miller placed the first case since his appointment on record yesterday, it being a civil action filed by Attorney Keesee.

The Tennis Club have fixed up two courts on Klamath Avenue, and indications are that the game will be very popular throughout the summer.

The 21 Club will give a dance in the Band hall next Saturday night. If the club finds conditions satisfactory it is probable that the hall will be engaged for all future dances.

Roy Tabor is in the city from Dorris on business. He says the people in the new town are becoming accustomed to the shrill whistle of the locomotive and no longer start for the tall sagbrush when it is heard.

The Misses Stella and Mabel Campbell entertained a company of sixteen at the Gerber home yesterday evening in honor of their cousin Miss Rankin. 500 furnished the amusement for the evening and a dainty luncheon was served.

Fishing on Link River is still very good and the many Waltonians who indulge in the sport are usually successful in landing several nice ones. With the approach of warm weather the fish will lose the good flavor and solid flesh that they have during the winter months.

Furnished house for rent. Apply at the McIntire Transportation Co.

ROBBED U. S. MAILS

Deputy Postmaster at Royston Has Been Arrested

WIFE CHARGED WITH COMPLICITY

On Instruction of Inspector Valle Bert Regan and Wife Are Under Arrest--Petty Larceny Charge Preferred to Hold Them for Federal Officials

The authorities of Lane County have notified the sheriff of Lake County that they have arrested a man who partially answers the description of Ollie Hamilton, the Silver Lake murderer. The man was arrested 22 miles from Eugene on the road across the mountain to Eastern Oregon.

The suspect said his name was Martin Peterson, and that he had been at Shaniko, Bend and other Eastern Oregon towns. He denied all knowledge of the murder. He had traveled across the summit of the Cascade on foot, through eight and ten miles of snow, and was nearly exhausted from exposure and fatigue when the officers came upon him. The sheriff is inclined to think he is not the man wanted, and that his mind is affected or he would not have started on such a perilous

journey afoot. Officers at Lakeview have been communicated with and the man is being held awaiting the further description of Hamilton.

The man arrested spent several nights in the open air and snow, and one night not being able to find enough wood for a fire, set up and kept awake by running around in a circle.

The Lane County authorities have released the man and are now looking for another Hamilton. The fellow they arrested is slightly demented, which accounts for his undertaking such a perilous journey. Investigation disclosed the fact that he was employed by Chas. Graves at Odell for a short time, and that although he acts peculiar he is perfectly harmless and was accordingly turned loose after being in custody for a few days.

LINKVILLE TOO LARGE

Precinct Should Have Been Divided Last Fall But Holidays Prevented

Klamath County today has but twelve precincts, however, after the November term of County Court it will have 14. The law provides that whenever a precinct has more than 250 voters it becomes subject to division. The registration for the primary election shows that Linkville precinct has 722 voters, enough to make three precincts. The Fall term of court is the time set for the creation of new precincts, and consequently Linkville will remain intact for both the June and the Presidential election.

The division should have been made last year, but the holidays during the financial stringency made it impossible for the court to take any action in the matter. As it stands today Linkville precinct lacks only 80 votes of having one half of all those registered. The next largest precinct in the county is Tule Lake, with 205 votes.

Federation Will Meet

A regular monthly meeting of the Civic Federation will be held Thursday night at the court house. A full attendance is desired.

Chas. Graves, who was in the city several days this week, is feeling jubilant over the railroad prospects in his section. He says that the survey for the S. P. from this city to Natron crosses the survey for the Oregon Eastern on his ranch at Odell, and that he feels sure that the place which was once a wilderness when he first located there will one day be the greatest railroad junctions in Central Oregon.

W. E. Davis, manager of the Klamath Falls Transportation Co., arrived in the city to attend a meeting of the directors of the company tomorrow. He says he knows nothing about the freight situation. He has been sick for several weeks and still shows the effects of it.

TOO MANY HAMILTONS

Lane County Officers Picked Up Demented Fellow for Hamilton

The recent visit of Mail Route Inspector Valle to this section has resulted in somewhat of a sensation as he has caused the arrest of the deputy postmaster at Royston on the charge of robbing the United States mail. S. A. White is the postmaster at that place, but he does not reside there during the winter and had Bert Regan looking out for the office in the capacity of deputy. Mr. Regan was assisted by his wife in the performance of the duties of the postmaster and she too has been arrested. The warrants were served yesterday by the Bonanza constable and the parties brought to that place, where they will have preliminary hearing. The charge upon which they have been arrested is petty larceny, this being done to hold them until the federal authorities arrive to take them into custody.

It seems that for several months articles have been lost in transit between this city and Bly. Some months ago W. F. Reed sent a watch to L. Alva Lewis to have it repaired. Mr. Lewis fixed the watch and mailed it to Mr. Reed, but it failed to reach its destination. The matter was reported to Inspector Valle and he made an investigation when he was here a few days ago. The arrest is the result of Mr. Valle's visit.

Royston is a small postoffice about midway between Bonanza and Bly, and nothing is handled there except the local mail, or what is called the "way mail" between this place and Bly. If the mail leaves Bonanza and does not arrive at Bly it is certain that it was lost by the driver or else it remained at Royston. The stage driver having no access to the mail sacks could not be responsible and it was up to the Royston office. A search was made and a number of articles were found in the possession of the deputy postmaster and his wife. Roy Walker was summoned to Bonanza

this morning to identify certain articles, which he had sent to his folks at Bly, but which failed to reach their destination.

Langel Valley News

Rev. J. R. G. Haynes preached Sunday at the Lorella school house.

Mrs. McCall, of Portland, is visiting at the home of her cousin, H. G. Bussey.

BORN--To Mr. and Mrs. J. A. Stewart, Sunday, April 5, a daughter.

We are informed that a government agent has been investigating the land owned by Ben Abbeles and has deemed it necessary to establish the corners of the land in question.

Mr. Bert Childers departed Sunday with his family for Klamath Falls to engage in the brick business for the summer. Bert and his brother Eugene are interested in the stock business in the valley, having bought Mr. McDonald's cattle and leased his farm for a number of years. Eugene will have charge of things here for the summer.

C. K. Brandenburg, of Klamath Falls who is out for the nomination of county clerk, was in the valley the first of the week making friends with the voters. Mr. Brandenburg is a bright young man and no doubt will make a good race for the office he wants.

Will Campbell and L. Gerber returned from California with one of the finest jacks ever brought into this country. We are informed that the price paid was \$800. Messrs. Campbell and Gerber are interested in to considerable extent in the horse and mule business and realize that it pays to improve their stock with the best they can get and with the interest the people of the valley are now taking in this line demonstrates that there will be as fine horses and mules raised here as can be found in the state.

We are informed that Mr. Williams was elected director of the water users association to succeed himself, to represent this part of the project. Mr. Williams is very much interested in the reclamation work and will advocate the interests of the people.

B. S. Grigsby, one of the republican candidates for the nomination for sheriff, spent Tuesday and Wednesday in the valley. Mr. Grigsby is one of the heavy taxpayers of the county and a plain every day business man whom the people of the county are glad to meet and talk with, and if it is left with the people of the upper country to decide who will be the next sheriff, Mr. Grigsby will surely serve the people in that capacity.

To get a home talk to E. B. Hall about the Summers-Kinney place. Office, 2nd floor, Baldwin block.

RESULTS OF ADVERTISING

Publicity Given to Klamath Has Brought Many Desir- able Citizens

The Klamath country is beginning to feel the effects of the advertising done in the past. The Chamber of Commerce and many of the real estate dealers of the city are receiving a large number of inquiries from Eastern people, and not only are they receiving a great deal of correspondence, but scarcely a day passes that some man from east of the Rockies does not come here to investigate conditions for himself or his friends. Frank Ira White states that in the past week his office has had calls from parties from Kansas, Colorado, Iowa, Illinois and North Dakota. This goes to show that the Klamath country is becoming known through the various channels of publicity that have been used in the past, and should also act as a stimulant for an active advertising campaign.

Mr. White states that every man coming from the East comments upon the lack of information possessed by railroad agents on how to reach the Klamath country. They say it is almost impossible to learn what place on the railroad is the proper destination. This lack of knowledge is in a large measure due to the fact that many of the railroad employees have never been outside of the state in which they work, and they cannot conceive of the vastness of the territory embraced in the West. They think Portland is all there is to Oregon, and that the part of California outside of San Francisco is not worth considering.

The railroad agents throughout the East should be posted on how to reach the Klamath country, and Mr. White suggests that this can probably be done by issuing some attractive card upon which is printed all necessary information and sending one to every railroad agent in the farming belts of the East and Middle West.

The Klamath country is at a decided disadvantage in many respects in getting settlers, and especially on the transportation matter. The rates are too high for immigrants. Lower rates are being offered to Canada and Texas, which takes many of the young farmers of the Middle West to those countries. Klamath needs a low round trip rate from points in the East. If this can be secured than the lands of this section will soon be densely populated.

R. E. Guthridge, of the McIntire Transportation Co., has been transferred to Pohegama.
