

WANT MORE PARK MONEY

Hawley Asked To Aid In The Matter

STEEL GETS BUSY

Telegram Sent to Washington Asking for More Funds for Crater Lake

Already steps are being taken towards securing an additional allowance for Crater Lake National Park. Will G. Steel arrived in the city last night, and he was very much disappointed when he learned that the appropriation for Crater Lake Park was but \$3000, and he at once began to take steps which may result in an additional allowance. After consulting with a number of the representative citizens in regard to the matter he dispatched the following telegram:

Hon. W. C. Hawley,
Washington, D. C.
Crater Lake appropriation cut to three thousand dollars. One road in Rainier Park gets fifty thousand. Crater Lake needs fifty thousand. People here indignant.
Will G. Steel, Pres. Crater Lake Co.
Hessy L. Benson, Circuit Judge.
E. R. George, Bishop, Mayor.
Silas Oberst, Sheriff.
R. A. Deane, Secretary of the Chamber of Commerce.

Mr. Steel, like many others, cannot understand the reason for so small an allowance when Secretary Garfield was so enthusiastic over the park and told Superintendent Arant to ask for an appropriation large enough to enable him to carry out his plan of improvement. Mr. Arant was modest in his demand and asked for only \$10,000, and he was allowed less than one-third of this amount. Mr. Steel thinks if the time is not too short he will be successful in having the original allowance at least doubled.

Agent at Terminus

F. A. Autenrieth, of the Klamath Falls Transportation Company, is now stationed at Dorris. This company has already had several carloads of freight shipped to the new terminal and is making arrangements for the establishment of warehouses and stables for the teamsters. All of the freight shipped to Dorris so far was brought in by the construction train, but the regular freight service will begin on the first.

Painting the Klamath

The steamer Klamath is being painted both inside and outside. All of the machinery has been thoroughly overhauled and when the boat again goes into the water it will have every appearance of being entirely new.

Keno Items

A baby girl has arrived at the home of Rev. and Mrs. Creevy.

Mrs. Ford, Mrs. Reesler and Mrs. Pool, who have been sick, are all improving.

On Monday Dave Ford took Mrs. Can and some of her household goods to Merrill where she will reside for a while.

Oliver Sly has bought the John Grafia ranch for \$3200. This is an excellent purchase as the railroad will pass through the center of it. The right of way has already been purchased by the company.

H. Snowgoose received a package last Monday upon his return from the Falls that surprised him and gave him a great deal of pleasure. The package contained a miner's emblem sent him by his boys who are engaged in mining at Rawhide, Nev. The emblem consists of a shovel and pick and at the end of the shovel handle there is a windlass and chain which is fastened to a bucket. The shovel is made of gold taken from the "Rawhide Queen," a mine owned by the Snowgoose boys. On the front of the shovel is inscribed "Rawhide, Nevada" and on the back of it is his name.

The wreck of the Winema at the theatre tomorrow night.

HOT TIME AT MERRILL

Right of Way for the Adams Canal Results in a Warm Time at Meeting

Guy Merrill is in the city from Merrill on land business. He says a warm meeting occurred at Merrill last Friday night. About ten of the parties interested in the right of way for the Adams canal met with Mr. Adams in the town hall for the purpose of affecting a compromise. The Adams canal was built several years ago when it was not realized that Klamath county lands would soon be valuable. There is a stretch of approximately two miles of the canal for which no right of way was secured and the matter is still pending. At the meeting Mr. Adams offered to pay the interested parties \$20 per acre, but those owning the lands want \$40. The arguments became more heated as the meeting progressed and at times it seemed that a general mix up was inevitable. No compromise was reached, but the matter will go into the courts at once if the present plans are carried out.

It will be remembered that when the Government purchased the Adams canal \$5000 was held back pending the settlement of this right of way.

Sells His Dairy

H. N. Whiteline, who has conducted a dairy for some time, has sold his milk cows, thirty-five head, to John S. Shook, who will milk for the Bonanza creamery. The cows will be delivered to Mr. Shook on the first with the exception of five head which Mr. Whiteline retains in order to finish his milk contract with the Government. Farmers throughout the county are beginning to realize that there is money in milking for a creamery and many of them are engaging in the business.

The Republican headquarters are now open with Mrs. Eva Bryant in charge. An electric sign indicates the place to all the faithful.

PORTLAND IN 24 HOURS

New Schedule Enables Travelers to Reach Metropolis in Just One Day

Beginning on the first of May it will just take twenty-four hours to go from Klamath Falls to Portland. The Oregon & California Transportation Company has been notified by the Southern Pacific Officials that on next Friday at 3 o'clock a. m. the first regular train will leave Dorris and that it will connect with No. 16 at Weed. The train for Dorris will leave Weed immediately upon the arrival of No. 16. This daily service will be the best that Klamath Falls has ever had for one can leave here at 4 o'clock a. m. and get to Portland early the next morning, making the trip in just twenty-four hours.

Dairy Items

Business called the Dairy correspondent away last week so the Dairy letter was not sent in.

Friday, the 17th, was what some people call a lively day in Dairy. Some were unusually friendly and willing to recognize the other fellow as full brother. We don't know about the brother part, but we do know that some were full. We hope they are ashamed of themselves and will vote the stuff out of the country.

We Dairyites hope to see the time when our wives and children won't be permitted to hear such language as was used on Friday without hindrance from our peace officers. Leave the boom out and we are not apt to hear it.

Now that nominations are made, the real battle will begin, and no doubt some unexpected things will occur. Nomination don't mean election every time.

Drummers galore have been in Dairy the past week.

Chas. McCumber is just ready to begin sowing grain and will put in a good acreage.

Henry Stoehler finished seeding 110 acres on Thursday.

Joe Smith has finished clearing the 40 acres he bought of Thomas Mitchell and has it sown to wheat. It makes a difference when a man buys land to make a home. Speculators don't improve land as a rule.

Some of the neighbor boys say there are plenty of fine big trout to be had for the taking at trout creek.

Miss Rosa Beck and two Miss Coburns were trading in Dairy Thursday.

P. H. Gray went to Klamath Falls Friday.

Phil Oden laid in a good supply of provisions Monday.

P. H. Gray brought his stock from Poe Valley today (Monday) and will begin plowing at once.

Albert Burdorf one of our prosperous young bachelor farmers dries his meat on his wire fence and says it works all right.

Wm. Uhrmann brought a load of goods for Dairy Monday.

Louis Steral took two loads of oats to Klamath Falls today and will bring a load of merchandise for H. P. Sedge.

Harmony Assured

Indications point to the most harmonious Republican campaign ever known in Klamath county. The Republican ticket is the strongest aggregation of candidates ever placed before the people on one ticket. In most places perfect harmony prevails and the prospect for a good, clean political fight never were better. The Democratic ticket is made up from a lot of representative gentlemen and it is gratifying to know that we have this kind of opposition as we now can enter the fight with an earnestness and zeal which shall be

worth our best efforts. According to the returns from our primary election we have 783 Republican votes against 326 Democratic, leaving a difference of 457 votes. While we know that many of both parties did not attend the primaries, yet it is fair to assume that as large a percentage of Republicans failed to vote on that day as did Democrats, consequently the result will be the same, and we cannot help but think that the Republicans of this county will stand by their party to a man.

New Books in the Library

The following is a list of the books donated to the Klamath Falls Public Library and reading room during the months of January, February and March 1908:

Millicenical Dawn Series donated by J. L. Bannan: "The Divine Plan of the Age," "The Time is at Hand," "Thy Kingdom Come," "The Day of Vengeance," "The Atonement Between Man and God," and "The New Creation." Donated by Dr. Thos. Parker: "My Life as an Indian," J. W. Schultz; "Napoleon and His Marshals," J. L. Headley; Col. R. G. Ingersoll's great speeches, "Thirty-one Years on the Plains and in the Mountains," W. Drannon; "The Sporting Dog," J. A. Graham; German Lessons, William Eysenbach; Botanist and Florist, A. Wood.

Donated by H. C. Knappenberger: "The Biglow Papers," James Russell Lowell.

Donated by a friend: "Our Departed Friends or Glory of the Immortal Life," I. E. Stebbens; Encyclopaedia of Law and Forms, H. M. Spalding.

Emmitt Gets \$6000

The last will and testament of the late William R. Thompson, of Coles Valley, disposing of his estate valued at \$80,000 has been admitted to probate in the County Court of Douglas County. The deceased was an uncle of Postmaster R. A. Emmitt of this city and as one of the heirs Mr. Emmitt will receive the sum of \$6000. The bulk of the fortune goes to Miss Rose Emmitt, a niece of the deceased and a sister of Mr. Emmitt who resides at Umpqua. Her share of the estate is about \$34,000. Mr. Emmitt will receive \$1000 as his inheritance and \$6000 which was bequeathed to his mother. Thirty nieces and nephews of the deceased each receive \$1000 according to the terms of the will.

Will Play First Game

The High School base ball team will go to the Klamath Agency tomorrow to play ball with the Indians. They also expect to go to Fort Klamath to play the team at that place. These will be the team's first games of the season.

FILLS TWO VACANCIES

Crisler and Hanks On City Council

CASTELIS PRESIDENT

Considerable Important Business is Transacted at Last Night's Session

Electing councilmen to fill the existing vacancies due to the death of Dr. G. W. Maston and the resignation of Councilman Fred Schallock was the most important business transacted at the meeting last night when the Council was convened in special session. Marion Hanks, of the Third ward, was elected to fill the former vacancy and C. B. Crisler, of the Second ward the latter. Councilman Schallock did not tender his resignation until the business of the evening was finished.

The newly appointed councilmen will hold office until after the city election when their successors will be selected. The term of Councilman Schallock would have expired in June of this year, and the convention nominees for this office are Silas Oberst and Henry Boivin. The term of the late Dr. Maston would not have expired until June 1909, but his successor must be elected at the coming election and Mr. Hanks will doubtless be elected to succeed himself.

All business was cleared up except the dray license which was again laid over. Geo. R. Hurn was granted a building permit for his new brick block. C. D. Willson and E. H. DuFault were granted liquor licenses, and the sum of \$125.33 due to Geo. Bieln on the unused license for the Klamath Bar was ordered refunded. Harriet Bros. were present and asked the Council for an exclusive franchise for a music house and theatre. The request was denied as there is an ordinance governing such matters. Councilman A. Castel was elected president of the Council to fill the vacancy created by the death of President Maston. Dr. Geo. H. Merryman was appointed health officer. This position had also been filled by the late Dr. Maston.

The Third ward is now represented in the city government by two appointed councilmen, the Second by one elected and one appointed and the First by two elected.

Will G. Steel states that he has not yet completed his plans for the Summer at Crater Lake, and he is not ready to say at this time what improvements his company will make this season.

About Your Summer Suit

There are poor, good, better and best makers of clothes--We represent the latter. : : : :
