

## Get the Essence of Satisfaction

By Dealing with a Strictly Reliable House

When it's Jewelry, Watch Repairing, Optical Work or kindred lines you want, come to the Leading Establishment in those particular lines, where you get your money back if you are not satisfied. Our reputation is pretty good, too, as the old saying serves as proof, "Imitation is the Sincerest Flattery," so it don't make me mad to have others copy the simple and upright business methods I am using.

### Short Ways to Multiply.

Rapid multiplication is always a source of pleasure and profit to the operator and never fails to cause astonishment in those who do not know how it is done. Suppose you wish to multiply two numbers of two places each, such as 65 and 68. The product can be written in one line by inspection as follows: Eight times 5 are 40. Put down 0 for the right hand figure and carry 4. Add 5 and 8 and multiply the sum, 13, by 6, obtaining 78, and add 4. Put down 2 for the next figure and carry 8. Multiply the 6's and add the 8 and put down 44 for the remaining numbers. The product is therefore 4,420. In this case the tens are alike. The same method may be used if the units are alike, thus: What is the product of 75 times 55? Five times 5 are 25. Put down 5 and carry 2. Seven and 5 are 12. Twelve times 5 are 60. Add 2. Put down 2 and carry 6. Seven times 5 are 35. Add the 6 and write 41. The product is 4,125.

The last illustration might be worked another way since both of the right hand figures are 5 and the sum of the tens gives an even number. In such a case simply write 25 for the right hand figures, and for the remaining figures write the product of the tens increased by one-half the sum of the tens.—Chicago Record-Herald.

### Humor and Philosophy

By DUNCAN M. SMITH

#### A REAL MARVEL.

I've met a lot of able men  
In traveling about  
Some who were truly great and some  
Who hadn't been found out.  
Some who were winners sure enough  
And some who also ran,  
But never yet found one to match  
Bill Jones, the tired man.

Bill dropped from nowhere—just came down.

Like rain one summer day—  
And said he sort of liked the place,  
And so we let him stay.  
He found a peg to hang his hat,  
A looking glass and comb,  
And he at once was one of us  
And very much at home.

He settled in an easy chair  
And started on the spot  
To tell us everything he knew,  
And, say, it was a lot.  
The places that he hadn't been,  
The things he hadn't seen,  
If entered in a book would leave  
Most all the pages clean.

On heavy lifting and the like  
He wasn't very strong,  
Yet he accomplished more or less  
And sort of got along.  
But still we never made a kick  
Nor grudge him what he drew,  
Not that he earned the wages, but  
Because of what he knew.

#### Negative Pay.

"What are you doing for a living?"  
"Dodging grip germs."  
"But there is no salary connected with that."  
"Very true, but I save so much on doctor bills that I don't need a salary."

Both Look Good.  
"Are you interested in politics?"  
"Very much."  
"Which party do you want to see win?"  
"I wouldn't be presumptuous enough to say one deserves success more than the other."  
"I thought you were interested in politics."  
"I am. I make campaign buttons."

Sad.  
I had it framed up to my mind  
And looked all to the good;  
So plain it was that even the blind  
Could see just where I stood;  
It seemed as clear as open day  
Without a mist or fog  
When suddenly, like any jay,  
I went and slipped a cog.

It makes a fellow awful sore  
To be about to land,  
To know the matter is the core  
And feel that in his hand  
He holds the game, as easy as  
As rolling off a log,  
And then to go and queer the biz  
By letting slip a cog.

Careful of His Health.  
"Have you ever read 'Looking Backward'?"  
"No."  
"Do read it."  
"Not me."  
"Why?"  
"Doing anything backward always makes me seasick."

He bought a block of mining stock,  
Which wasn't any sign  
That somewhere on this fruitful earth  
There was a paying mine.
