SIRES AND SCNS.

The president has declined many invitations to take rides in airships. Charley Cheek of the Clevelands is a baseball freak. Cheek pitches right handed, but does everything else left handed. He writes, eats and ties his necktie with his left hand.

Frank P. Gary, the new United States senator from South Carolina, claims among his ancestors Robert Bruce, King of Scotland; John Knox, the founder of the Presbyterian church; John Witherspoon and other Scotch worthies.

The richest Indian in the world is Lon Hill of Harrington, Tex. His wealth is conservatively estimated at \$2,500,000. He is forty-nine years old, devoted to his wife and children, and graduated in the law department of the University of Virginia.

James A. Hugganette, who has been appointed public printer of the Philippines to succeed John S. Leach, is only thirty-two years of age and a Nebraska boy by birth. Prior to going to Manila he was employed in the government printing office in Washington.

Henry Clarke, seventy years old, of Providence, R. I., has cured many of his tooth ills by a steady diet of from four to six ounces of sand daily. He has taken this medicine for four months and says he has eaten in all 700 pounds of the latest "health cereal."

Dr. James C. Monaghan has been chosen as the recipient for 1908 of the Laetare medal awarded by Notre Dame university to some prominent Roman Catholic layman as a mark of honor. Dr. Monaghan was born in Boston in 1837, worked in the cotton mills at Salem, graduated at Brown university, campaigned twice for Grover Cleveland, was consul at Mannheim, Germany, and Chemnitz, studied at Heidelberg and is now lecturing.

Gleanings.

The council of empire at St. Petersburg has raised the Russian legation at Tokyo to an embassy.

A Chicago child before a police magistrate said that she had never heard of the Bible, "but we got an almanac," she added eagerly.

The Quebec legislature has refused to allow the city of Three Rivers to take land belonging to one of the cemeteries, an act that will prevent the removal of the bones of St. Didace, now lying under the Episcopal church.

All persons who have crossed from America to Europe are familiar with the Fastnet rock, the first spot of Erin that they see on the eastward voyage. Thereon has been erected a new lighthouse, which has cost the record sum of \$403,200.

The chief criminal court in Vienna sat until 4 a. m. recently in order to finish a case. One jurymen asked the judge for a certificate that the trial had lasted until that hour. "Otherwise," he said, "my wife will never believe me." The judge granted the certificate.

Industrial Items.

There are 300 paint factories in this country making over 100,000,000 gallons of paint per year, and the business demand is increasing faster than the facilities.

Australian mining men rejoice in the possession of a new diamond drill weighing only 400 pounds, while the weight of the machine now in use is three or four tons.

English trades unions will not allow a workman to carry a load of more than fourteen pounds. If his tools or the material weighs more than that, he must have a helper.

Large quantities of machinery are being ordered by Japan from Great Britain. Among the latest orders is an immense heating plant for a group of manufactories and a complete outfit for a new sugar making industry.

State Lines.

Southern California yields 2,000 tons of salt per year.

Many important drainage projects are under way in the marsh land of Louisiana, which will ultimately make it a great agricultural country.

Statistics gathered recently for a report to the national conference on charities and corrections show that Nebraska has the smallest number of criminals and dependents in proportion to the population of any state in the Union.

Bridge Spans.

In the Forth bridge there is a horizontal pull of 10,000 tons on the chief spans and a weight of 100,000 tons on their bases.

Engineers say that the Brooklyn bridge has improved with age and that it is now stronger than it was when it was built.

A bridge recently built for the Cape to Cairo railway over the Kafue river is the longest bridge in Africa. It measures 1,400 feet.

Things Theatrical.

Arnold Daly is to close his season in Chicago.

A new play of political corruption in New York is called "The Governor and the Boss."

Blanche Bates has gone to Europe for the summer and has not announced her plans for next season.

B. F. Keith has secured the Orpheum theater, Boston, and in the fall will use it for moving pictures.

Francis Wilson has been so successful in "When Knights Were Bold" that he will continue in the play next season.
