### TAFT FOR ANTI-INJUNCTION

The anti-injunction plank of the Republican platform as passed on in Washington and wired to the convention at Chicago yesterday is as follows.

"We declare for such an amendment of the statutes of procedure in the Federal Courts with respect to the use of the writ of injunction as will on the one hand prevent the summary issue of such orders without proper consideration, and on the other will preserve undiminished the power of the Courts to enforce their process to the end that justice may be done at all times and to all parties."

Over this plank there is a very sharp contest. The labor leaders argue its adoption and hundreds of telegrams are pouring in from manufacturers and other employers of labor, opposing the measure.

Following is the revision plank proposed by the Taft people.

"The Republican Party declares unequivocally for a revision of the tariff by a special session of Congress immediately following the work assigned to the Appropriation Committees and commends the step already taken to this end in the work consigned to the two committees of the House who are now investigating the operations and effect of existing schedules.

"In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries, and the benefits that follow are best secured by the establishment of maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home; the aim and the purpose of the Republican policy being not only to preserve, without excessive duties the security against foreign competition to which American manufacturers and producers are entitled but also to maintain the high standard of living, of the wage earners of this country, who are the most direct beneficiaries of the protective system.

"Between the United States and the Philippines, we believe in a free interchange of products with such limitations as to sugar and tobacco as will avoid damage to domestic interests."

A Michigan editor complains because too much sparking is being done in the postoffice. This would seem the appropriate place for a woman to go for her male.
