KLAMATH FALLS, THURSDAY EVENING, JULY 2, 1908

SIRES AND SONS.

Isaac Stephenson, United States senator from Wisconsin, worth \$10,000,000, is self made.

President Roosevelt recently received a magnificent Turkish rug, the gift of the sultan of Turkey.

Bam Perry of Maxwell, Okla., aged 105, part Choctaw Indian, has 157 grandchildren. His youngest child has recently married.

William Fulton Jackson, the general manager of the North British railway, has a unique record. He has walked the entire length of the North British railway. What other general manager of a system 1,200 miles in length can claim to have walked over the whole of it?

President Roosevelt, it is said, is getting ready for his trip around the world. To a recent caller at the White House he said he was planning to go to New Zealand within the next two years and that in the course of a world tour he intended giving considerable time to the orient.

Rear Admiral Charles S. Sperry, whose connection with the American fleet is likely to be a notable one, is a native of Brooklyn and was graduated from the Naval academy in 1896. He became a rear admiral in 1906 and has been president of the Naval War college and a member of the general board.

Charles H. Schermerhorn, the oldest telegrapher in point of service in New Jersey, celebrated his seventy-fifth birthday anniversary recently. He has worked as a telegrapher sixty years without being off duty a single day. He is hale and happy and declares that he intends to keep at work for a quarter of a century more.

The Writers.

Frank T. Bullen, who was a sailor long before he became a writer, says that most books about the sea are full of blunders.

Mrs. Humphry Ward, the novelist, has become the special aversion of the suffragettes both in England and America for her outspoken opinions on the vexed question.

Zola's sense of smell was abnormal. Sitting in his workroom, the novelist could tell what was being cooked in the kitchen below—what kind of meat, fish or vegetables—and name them all. Bernard calls him a "symphonist of odors."

Marie Corelli continues to write and speak against "votes for women" in England, while Beatrice Harraden is busy traveling from place to place giving readings from "Ships That Pass in the Night" and her other books to raise money to help the suffrage cause.

Sporting Notes.

Pittsburg is planning to conduct the American bowling congress turney in Duquesne Garden next March.

A sister to Sonoma Girl, 2:05 1/2, named Lottie Lynwood, is entered in the Kentucky Futurity for foals of 1907.

Plans have been completed in Lowell, Mass., for a 200 mile automobile race July 4 over a ten mile circular course. The race will be for a trophy cup given by Butler Ames.

Dan Bruthers, who knows something of the game, says that next to Kling and Bresnahan, Tad Jones of Yale is the greatest baseball catcher in the world.

Wilgoose, the great Cornell distance runner who was dropped the past winter on account of conditions, may enter the University of Pennsylvania next fall to take a course in engineering.

The Royal Box.

It is said King Leopold of Belgium hardly has a true friend in his kingdom now.

The imperial sanction of the marriage of Prince Takeda of Japan with Princess Tsune, the emperor's eldest daughter, was recently announced.

Princess Henry of Battenberg delights in religious books. She possesses a bookcase full of serious works and devotional poetry, in which her favorite passages are all marked.

Duchess Philipp of Wurttemberg is said to be the most popular of all the royal ladies of Germany, and much of her popularity is due to her interest in the sick poor.

Medical Matters.

A London physician has recently operated with the knife for consumption. An opening was made in the patient's back and the diseased part of the lung removed.

Procyonase serum, the discovery of Professor Emmerich of Munich, is claimed to completely destroy diphtheria bacilli, even in the severest cases, when sprayed into the patient's throat.

In the case of epileptic fits a piece of folded handkerchief between the teeth to prevent the tongue from being bitten. Place a pillow under the head and keep the patient on the floor, as she will fall out of a chair or the bed.

Town Topics.

The city council of Milton, Wash. has passed an ordinance taxing each color \$5 a year.

In the first directory of New York city, issued in 1786, only forty-six Irish names appeared, thirty-four German twenty-one French, fourteen Jewish.

In 1799 the population of Baltimore was only 13,503. It was fifty years, or in 1849, before Baltimore had climbed up into the 100,000 class. She could first count half a million in 1900, and today the official records disclose a population of 680,810.

He Kept His Job.

Railroads frequently receive conscience money. On one of the big roads of the middle west a conductor who had been in the employment of the company for years was in the habit of "knocking down" fares. The fare over his route was about \$3. Money was generally scarce among the students, and when they wished to go to the larger city they were in the habit of taking a silver dollar, placing it under a card of any kind and handing it to the aged conductor when he came to take up the tickets. He used to slip the dollar into the palm of his hand, punch the card, and the students saved \$2 a trip, the conductor pocketing the extra dollar. In October, 1904, the officials of the road were astounded to get, together with his resignation, a full confession of his guilt in the form of a check for \$24,000, the sum he had stolen in twenty years. Every one thought the road would prosecute the old man, but it didn't. The officials were so flabbergasted that instead of discharging him they raised his salary. —St. Louis Republic.

Repartes.

He—Tell me, dear, why are you like a table?
 She—Why?
 He—Because you're wood.

She (indignantly)—No; because I'm board.—Yale Record.
