

## FAVOR BONDING CITY Mayor and Councilmen Desire to Extend Corporate Limits

### WANT TAKE SOME ACTION MONDAY

Present Extent of City Not Sufficient to Secure Large  
Bond Want to Annex Better Portions of All  
Platted Additions to Klamath Falls

It is very probable that the activity on the part of the Mayor and the councilmen of this city will result in bonding Klamath Falls on a better basis. Yesterday the Mayor and a number of the members of the council made a trip out to inspect the boundaries of the additions which have been recommended to be taken into the corporate limits. Mayor Ellis is an ardent advocate of the extension of the boundaries of the city. In discussing the matter he

We do not want to take in all of the additions, but those that are close to town and are deriving benefit from the corporation. The revenues from these additions may not amount to much, but there are some valuable properties just outside of the corporation and in case we bond the city it will be necessary to have in good order to get enough money to do any good. The cost of bonding in the additions will not be much. The city attorney says he can change the boundaries and the cost should not cost over \$100. The way the town stands at present cannot bond for more than probably \$75,000, and in order to have enough money to work on we should not less than \$150,000. I consider the extension of the corporate limits the first step towards bonding the city.

Councilman Hanks, of the Third ward, expressed himself in favor of bonding the city so as to take in all the additions that have any value attached to them and have people living on them. He, too, considers the extension of the corporation necessary in order to bond for a sum sufficient to make improvements. Mr. Hanks is a strong advocate of a municipal water system.

Councilman F. E. Ankeny, of the Second ward, when asked about the matter said: "I was not out with the council yesterday, but if they can agree that it is of any benefit to

enlarge the limits of the city I am in favor of it. I have not given the matter much thought, but I think it might be a good idea to take in the parts that are close to the present boundaries so that we can bond the city for a sum large enough to make the improvements that the city really needs. I think the city should be bonded for not less than \$100,000. We cannot do anything with less than \$90,000, and should have more than the sum first mentioned."

All of the other councilmen, Obenchain, Wilkins, Sanderson and Crisler, have expressed themselves as favoring an extension of the corporate limits and it is very probable that at the meeting next Monday night the first steps will be taken towards extending the limits.

#### HOME FROM CHAUTAUQUA.

Rev. P. Conklin, pastor of the Methodist church, returned last night from Ashland, where he has been attending Chautauqua. He reports a large attendance and a good time. The Hon. John Sharp Williams, who hails from a state "where the people still believe in God and vote the Democratic ticket," was there and made a fine address on talking.

J. D. Carroll is in the city from his ranch today and for once he is not in the market for a cook. He says everything is looking well at the farm and that he will begin haying in the morning. "The yield as a whole is not as good as it might be," says farmer Carroll, "but in places it is really better than I had expected."

#### BRYAN HAS MADE TEN RECORDS.

Bryan has made ten records for the Edison Phonograph, of startling clearness, force and individuality. Come in and hear some of these Bryan records at Mullers.

## Ellis Believes in Agricultural Possibilities of Klamath Land

Klamath county farm lands are not a dead end on the market and regardless of the fact that the times are rather quiet a few farms are changing hands and at very good prices. John Ellis has for several weeks been going over the county looking up farm lands for himself and for parties in the East and South. Mr. Ellis has been in Klamath long enough to make a study of the conditions and the agricultural possibilities of the Klamath basin. The fact that Mr. Ellis has seen fit to buy a number of farms in this section shows that he has been favorably impressed with the country and that his getting acquainted with the conditions has con-

vinced him that the Klamath farm lands are a good investment.

The last purchase made by Mr. Ellis is the old Nuss lake ranch on Lost river just south of Olene. It was through T. W. Stephens he bought this place from R. K. Sutton & Son. This land has a water right from Crystal springs and is one of the best ranches in that section. It is probable that the land will be cultivated by parties who are expected here from Florida, the former home of Mr. Ellis.

Besides being a heavy investor in this section Mr. Ellis is a director of the Chamber of Commerce and one of the most active boosters that this section has.

## EMINENT MUSICIANS

### Pasmores Will Give a Concert in Klamath Falls Next Tuesday Night

The distinguished Pasmores will be heard in concert in Klamath Falls next Tuesday evening, July 21, at the opera house.

This will be an event in the musical history of this city. Mr. Pasmore was for years one of the leading vocal teachers of San Francisco and for the past three years has been at the head of the vocal department of the leading conservatory of music in Berlin, he being the first American upon whom such an honor has been conferred. Besides his fame as a vocalist he is a great composer, and in Germany his works were classed with those of the greatest writers. He will be heard in songs.

The girls, Mary, Suzanne and Dorothy, were considered artists before they went to Europe three years ago. They have studied with the best teachers there and have done extensive concert work. The German press spoke of them as the best trio in Germany. Mary, the violinist, has played in public since the age of five. Her mastery of the king of instruments approaches perfection. Suzanne is a brilliant pianist and achieves great success wherever she

is heard. She studied with the great Schwanenka in Berlin. Dorothy handles the mellow-voiced cello in the most sympathetic manner. The expression and soul of her playing are nothing less than remarkable. Anton Hekking was her instructor in Berlin.

Though their solo work is wonderful, their ensemble work is much more so. Having had so many years of practice together they play with marvelous perfection and expression. The program will appear later, and those who fail to hear these girls and their noted father will miss the greatest musical event that has occurred in our city. They come directly from the Chautauqua assembly at Ashland where they aroused the greatest admiration and enthusiasm.

In Klamath Falls Mr. Pasmore can receive no stronger recommendation than to say that he is the former instructor of Mrs. Don J. Zumwalt, whose sweet singing is the pride of this city. The eminent musicians come here to visit with Mrs. Zumwalt and to spend a vacation in the northern end of the county and at Crater Lake. They will arrive here from Ashland Monday night.

## Taxpayers to Meet at Court House Tomorrow Evening

Through the effort of Mayor John Stiltz and Hon. H. V. Gates a mass meeting of the taxpayers of the city will be held in the court house tomorrow night at 8:30 sharp. At this time the matter of an improved water system and fire protection will be taken up for discussion and it is the desire of the city authorities that every taxpayer of the city attend the meeting and give their opinions on the matter. Mr. Gates will be present and by means of drawings will explain to the people what the company proposes to do.

The matter of improving the water system of the city is not up to the council, but to the people of the city. The proposed improvements involve a sum that will require a vote of the people to carry them out, and this meeting is called for the purpose of getting at the public opinion on the matter. There should be a large attendance as this is a matter that is of vital importance to every taxpayer in Klamath Falls.

Merrill. Property is reasonable.

#### 'COMRADES' AT OPERA TONIGHT

The William V. Mong company will present the popular play, Comrades, at the opera house tonight. In addition to the play there will be a number of specialties and the orchestra will give a number of new selections.

The company again pleased a large house last night by presenting David Garrick and the Dyspeptic. Mr. Mong was very good in the role of the dyspeptic and as David Garrick he was also up to his standard. With one or two exceptions the support was very good in both plays. As a whole the performance pleased the audience.

One of the strongest features of the entertainment being supplied by the Mong company is the superb music by the orchestra. It is an attraction that appeals to all who are musically inclined and Klamath's lovers of music are largely among those who patronize the entertainments of the Mong company.

## WORK LARGE FORCE

### Long Lake Lumber Company Has Busy Milling Season

### 2 CARLOADS OF BOXES A WEEK

Large Industry is Forerunner of What Will Come When  
Transportation Facilities and Demand for Pine  
Lumber Develops Timber Resources

#### NEWS FROM DAIRY.

Dairy school will close Friday the 17th. An entertainment will be given in the evening. We promise a good time as usual, to all that come.

P. H. Gray took some fat hogs to Klamath Falls Thursday. G. G. Anderson accompanied him.

Dr. W. S. Johnson was called to see Mother Michael last week and reports her to be in very bad shape.

Miss May Robinson closed her school at Hildebrand last Friday, and gave an entertainment on Saturday eve, at which time almost the entire population of the district with some from outside were present and enjoyed a good time. Two pupils received their eighth grade diplomas, viz: John Ritter and David Bliss.

Supt. Jas. G. Wight made the presentation speech including some encouraging words for the school in general. Mr. Jacob Rueck also made a good talk for the benefit of the school. When everybody turn out as they did on this occasion it looks as though they were pleased with the school and had an interest in it.

We had a good exhibition of broncho busting in Dairy Monday, given by Hiram Moore. The bride came off but the bucking went on as good as ever. Moore was a stayer though and after a mile or so of bucking the horse quieted down.

E. B. and W. P. Sedgwick were Bonanza visitors Tuesday.

Bonanza had quite a rain storm Monday while Dairy had a wind and dust storm. A good rain would brighten things up, even to the farmers faces.

#### WILL APPEAL CASE.

F. H. Mills and A. L. Levitt, the attorneys for the plaintiffs in the prohibition case, state that the case will be appealed to the Supreme Court and notice of appeal will be given at once. The case will not come up until October and pending this decision most of the saloon men of this city will dispose of their fixtures and engage in other lines of business or find new locations.

One of the largest industries in the city at this time is the Long Lake Lumber company. This firm now employs an even hundred men and about ninety head of horses. It is only an indication of what the lumbering industry will do for this section as soon as there are transportation with transportation facilities and as soon as the markets demand the lumber supply of the Klamath country. The Long Lake company now turns out two carloads of boxes every week which are exported to San Francisco where they bring a good price. The boxes are taken from this city to Dorris by the McIntire Transportation Company and will hereafter be shipped to Teeters on the boat.

A large part of the force employed by the company is at work at the Odessa mill and in the woods near there. The sawmill at that place is being operated on full time turning out the lumber needed for the flume being built in connection with the government canal. It will take at least two months longer to turn out the lumber for this work, and then the company has a contract with the government for 617,000 feet which is to be used by the Reclamation Service in boxing the canal below the flume. Owing to the formation at that place it will be necessary to line the canal for a distance of almost a mile and all of the timber necessary for this will be supplied by the Long Lake company.

The sawmills in operation in this city at this time are only the forerunners of the large industries that are sure to come in the next few years and then, as has been predicted by a prominent lumber man, the Upper lake will be come the largest mill pond on the Pacific coast. The almost inexhaustible supply of pine timber will of itself make Klamath the second county in the state of Oregon from the standpoint of wealth and population.

Most of the people who have been attending Chautauqua at Ashland have returned home.
