

RACE TRACK IS BUILT

Contractor Smith Completes His Work for Association

Plans Being Made for New Buildings so That County Fair Can Be Held This Fall Directors to Meet Soon to Arrange Dates for Holding Annual Event

E. W. Smith, the contractor, has completed the race track and moving his outfit to the California Northern where he will work it on the railroad grade. The race track built by Mr. Smith is one of the best in Southern Oregon or Northern California and is first class in every respect. It was completed under the supervision of H. St. George Bishop, president of the association, and J. D. Church, the Southern Pacific construction engineer.

Now that the track is completed the next thing will be the erection of suitable buildings and President Bishop is already laying plans for the accomplishment of this. It will be necessary to complete the fence and buildings so that the fair can be held at the new grounds this year. It is the intention of Mr. Bishop and others who are interested in the association to hold the fair at about the usual time, and to make the exhibit portion of it the main feature. The matter of holding races has not been settled, in fact none of the plans are complete. About the only thing that can be said at this time is that the fair will be held and that the directors of the Agricultural association will hold a meeting shortly to decide upon the time and to arrange the program and the premium list for the occasion.

It will be necessary to dispose of some of the stock that remains unsold in order to make the desired improvements, but there should be no difficulty about this as the association will soon be on a self-sustaining basis and owning its own property, which is gradually increasing in value, the owners of the stock will be able to dispose of their shares in the course of a short time.

When the many benefits that have been derived from the county fairs are taken into consideration the res-

idents of this county should give every possible assistance to the promotion of the fair association. Now that the ground is owned by the association and a race track that is first class in every particular has been built the people of the county must put a shoulder to the wheel and make the fair this fall a grand success.

COURT MADE APPROPRIATION.

Klamath County Will Be Advertised in Sunset Magazine.

At the regular session of the county court the matter of appropriating \$1000 towards advertising the county in the Sunset Magazine, which is the official organ of the Southern Pacific, came up and the court made the appropriation and ordered a warrant drawn for the amount. The balance of the money needed to fulfill the contract will be raised by the Chamber of Commerce.

It was agreed by the court some time ago that the appropriation would be made at the first regular meeting and Mr. J. H. Scofield, representing the magazine was on the ground with the necessary contracts between the county, the Chamber of Commerce and Mr. Scofield have been signed so that the business end of the matter is concluded.

The contract includes 26,000 pamphlets descriptive of the Klamath country, a write-up in that magazine and a page advertisement in the publication for one year. It involves an expenditure of approximately \$1100.

We can supply you with any kind of furniture and house furnishings. Virgil & Son, at the bridge on Main.

Darkness Cuts Meeting Short

In the absence of Mayor Billie, President F. T. Anderson of the city council presided at the regular meeting held last night. The regular monthly bills were audited and allowed. The street committee asked for permission to make its report on the bridge building permit and the request was granted. G. W. White was present and asked for a building permit to erect a three-story brick on the corner of Main and Fourth streets and also for permission to use a portion of the latter street for storing material while the building was being erected. The permits were granted.

The one important action taken by the council was an order for a general cleaning of the city. Streets, alleys and yards must be cleaned and that at once. It seems that the council is in earnest and the city marshal has been instructed to notify all parties and if the order is not complied with arrests will follow. The order was the result of complaints about the conditions in certain parts of the city. Upon the completion of this piece of business the lights went out and a motion was made and carried that an adjournment be taken until 7:30 this evening when the business that confronts the council will be transacted if the lights do not go out again.

Harriman Party At Omaha Today

C. T. Day, the chief electrician of the Southern Pacific, is again on the ground, having arrived here from San Francisco last night. Through him it is learned that the special Harriman train left Omaha today and that it is now only a matter of a few days until the party will arrive in Klamath Falls en route to Pelican Bay. Mr. Day is not informed as to the personnel of the party, but it is his opinion that there will be the family and those who are closely connected with it.

Dr. Stone the Champion.

Dr. Ida Stone may justly lay claim to the title of being the champion fisher maid of the season. She landed the largest trout that has been caught by any lady this year. While the guest of Mr. and Mrs. B. St. Geo. Bishop on their household she caught a 12-pound trout, accomplishing the act with a fifteen ounce rod and a great deal of skill. For more than a half hour the fish towed her boat around the lake, but by using exceptionally good skill she managed to land the fish that brought her the championship.

MANY GREET GUESTS

Enthusiastic Throng Awaited Arrival of the Steamer

Excursionists Are Welcomed With Music by the Band and by the Shouting and Singing of the Crowds of Klamathites on the Bridge and Wharf

It was a large and enthusiastic crowd that gathered at the water front last night to greet the Portland excursionists upon the arrival of the steamer Klamath. The bridge spanning Link river was lined with men, women and children. The wharf was crowded and as the boat pulled up to the landing the visitors were greeted by the music by the Klamath Falls Military band and by the cheering and singing of the crowds who had turned out to bid them welcome.

The steamer did not arrive until nearly ten o'clock but the crowd rather increased than decreased as the time went on and there was no lack of enthusiasm. The watchers kept a close lookout on the lake and the first signs of the boat coming around the bend brought forth a chorus of cheers.

Many of the excursionists were met by relatives or friends at the dock and the others were in charge of the Chamber of Commerce reception committee, which had met them at Teeters and arranged for accommodations in this city. After getting acquainted with many of the people of this city the visitors were permitted to retire and today has been spent in making further acquaintances in this city and in becoming familiar with the conditions of Klamath Falls. The excursionists have been circulating among the people of this city who have been pointing out to them many of the good things that are in store for the Klamath country. Those who had never visited this section were very much surprised at the surroundings of the city and its beautiful location, while those who had visited here on previous occasions, expressed astonishment at the rapid growth and development of the past few years.

Some of the visitors took advantage of the plans of the day and instead of resting made side trips into the country to inspect the agricultural resources of the Klamath basin. The Peltz automobile started for Merrill about 8 o'clock this morning with a party headed by C. S. Jackson of the Oregon Journal. This is Mr. Jackson's first visit to this part of the state and it is his intention to visit all of the points of interest.

No special program has been arranged for the excursionists, but they are making plans of their own. Num-

erous small parties have gone out into the valley today to see the farms adjacent to the city, while others are resting in the cool shade of the city. Most of them are planning to take the boat for the Fort Klamath landing in the morning to make the trip to Crater Lake. It is very probable that a reception will be tendered the visitors in the band rooms before they return to Portland.

MASON-HANNA NUPTIALS.

Popular Dentist of This City Weds Pretty Portland Girl.

Friends of Dr. C. P. Mason, of this city, have received announcements of his marriage on July 29th to Miss Emma Frances Hanna at Portland, Oregon. Mr. and Mrs. Mason will return here about the middle of August and will take up their residence in this city, where Dr. Mason has made a host of friends since locating here about two years ago.

The Sunday Oregonian contained the following account of the nuptials:

A very pretty and quiet wedding was solemnized on Wednesday, July 29, at 9 p. m., when Miss Emma Hanna and Dr. Clay Mason were united in marriage by Rev. A. A. Morrison, of Trinity Episcopal church. The wedding took place at the house of the groom's parents, Dr. and Mrs. I. T. Mason, 798 Kerby street. The house was prettily decorated with sweet peas and ferns. The bride wore a lingerie gown of white batiste and maltese lace and carried bride's roses. The groom, Dr. Mason, is a well-known young man of the city, having graduated from the North Pacific Dental College, and has been practicing at Klamath Falls during the past two years. Dr. R. S. Arnes acted as best man while Miss Anna Walker acted as bridesmaid. The bride was given away by her brother, A. J. Hanna. Dr. and Mrs. Mason will soon leave for Klamath Falls, where they will be at home to their friends.

TO VISIT CRATER LAKE

Governor Chamberlain to Be the Guest of Will G. Steel During August

One of the most distinguished visitors to Crater Lake during the next few weeks will be Oregon's governor, Geo. E. Chamberlain. Will G. Steel, manager of the Crater Lake company has been advised by the governor that he will visit the lake some time this month between the 10th and 20th. He will be met at Medford by Mr. Steel, who is going there within a few days to attend to the shipping in of a large quantity of supplies. The exact time for the governor's visit has not been fixed but he has written Mr. Steel that he will

be at his service any time between the dates mentioned.

As soon as Mr. Steel gets the rest of his equipment on the ground he will be prepared to take care of parties numbering almost forty and his accommodations will be very good.

Klamath Falls is the natural gateway to the great wonder, Crater lake, but yet the governor of the state will be permitted to visit the place without coming to this city. Mr. Steel was asked why this was the case and he explained it by speaking about as follows:

"I must help those who are helping me. Medford has never refused to grant me any little favor or assistance that I have asked of her people. The Klamath Chamber of Commerce has given me very little assistance. I have appealed to the organization time and again, but always with the same result."

For the promotion of Crater Lake and for the best interests of this city it is necessary that Mr. Steel and the Chamber of Commerce should work together. Mr. Steel has done much and is still doing more than his share towards advertising the lake and the other attractions of Klamath county and it is due him that the commercial organization of this city give him its hearty co-operation and the efforts he is putting forth to develop the tourist business for the Klamath country.

To Receive Guests Informally Tonight

An informal reception will be tendered the Portland excursionists this evening between 8 and 9:30 at the Band club rooms. The citizens of Klamath Falls, ladies and gentlemen, are not only invited but requested to turn out to meet the visitors and make their stay in this city a pleasant one.

Veterans Will Meet.

The annual encampment of the Southern Oregon Veteran's association, Grand Army of the Republic, will be held in Central Point, September 9, 10 and 11.

Arrangements have been completed for the gathering of the boys of '61-'65 to pitch their tents and to enjoy for a few days the hospitality of the people of Central Point.

Merrill Valley the heart of Klamath.
