

## HARRIMANS LEAVING

### Reported to Be Packing Ready for Departure

Will Probably Pass Through Klamath Falls Tomorrow or Next Day--Has Been Nearly Four Weeks Since E. H. Harriman's Arrival in the County

Parties who came down from Peoria on Monday this morning state that the Harriman party is busy packing up and getting ready to leave their summer home. It is stated that the entire party will come by way of Klamath Falls and will probably arrive in the city about noon tomorrow. They will probably only spend a short time here, just long enough to enable them to get luncheon.

Mr. Harriman arrived in Klamath Falls on his way to the Lodge on Saturday, August 31st. At that time it was stated that he only expected to remain two weeks, but his stay has lengthened until nearly a month has passed. This would indicate that he has enjoyed his outing in the Klamath regions. Parties who have seen Mr. Harriman recently state that he is much improved in health and is completely rested, and undoubtedly will be much more fit for the strenuous life of Wall street, where he will go on his departure from his Klamath home.

torney John Irwin. Mr. Harris was compelled to give up his practice two years ago on account of his health. The climate of this county has been so beneficial that he says he feels like a new man, and this determined him in resuming his profession and remaining permanently in Klamath Falls. The new firm expect to have their offices in the Withrow-Melrose building.

## ACCIDENT AT CRATER LAKE

### Dr. Ray and Family Thrown From Wagon-Mother and Daughter Injured

Dr. C. H. Ray, wife, two sons and daughter, Mable, who left on the boat yesterday morning had quite an experience on their trip from Medford to Crater Lake. They started out with an automobile, but this broke down and they were obliged to secure a team to continue their trip to the lake. On their return as they were coming down the steep mountain side of the lake, the tongue of the wagon became loose and the team ran away down the hill. The occupants of the rig were thrown out. Mrs. Ray had her hip badly hurt and the others were bruised up. Miss Mable was the worst injured, being thrown on her face and having her jaw broken.

The accident happened Saturday, and the party came on to the Agency landing taking the boat for Klamath Falls, arriving here late Monday night. Dr. Hamilton attended the young lady and the party left on the boat Tuesday morning for Medford, where Miss Ray will receive further treatment from Dr. Pickle, the family physician.

### DRESSMAKING—Plain and Fancy.

Sewing, cutting and fitting. The latest French Tailoring System. Mrs. F. E. Johnston, over Stilts' Store 31-1wk.

**AT THE OPERA HOUSE**  
New tonight—*Deplorable Mistake*. Amateur Photographer, Diabolical Itch and new songs. All for 19 cents.

## New Legal Firm

Judge W. H. Harris, who recently came here from California and leased the Houston Hotel, has decided to return to the practice of law and will enter into partnership with City At-

### DAIRY ITEMS.

B. S. Grigsby was in Dalry Tuesday. He says he will have about half as much grain as he had last year.

Mrs. Brown, of Klamath Falls, is visiting at the home of her brother, Wm. Wright.

P. H. Gray has leased the John Shook ranch including dairy cattle, and will now have near fifty cows to milk. Mr. Shook will move to Bonanza in the near future.

The Drews and Hecks and some others in upper Yonah were delivering beef cattle on Tuesday.

Mrs. N. S. Drew and son, Jesse, started to Ashland Thursday after fruit.

Brown Michael and company returned from the berry patch Sunday with a good supply of berries, and reports plenty of berries left in the woods, with lots of people on the trail leading that way.

Rev. Barnes will preach his farewell sermon here next Sunday.

P. H. Gray will lose a good horse by a kick from another horse.

Dennis Provo from Poe valley was trading in Dairy Monday.

P. H. Gray will move to the Shook ranch on Wednesday.

Dave Shook has recently installed a hydraulic ram on his place, and says it is doing fine. Mr. Shook has some fine springs and altogether the best ranch in the county.

### NEWS FROM KENO.

Tom Grubb has built a new stable on his lot.

Padgett, Towers and company have returned from the mountains and report a good time notwithstanding they encountered some storms.

Thos. McCormick and family have gone to the Coos Bay country to visit with Geo. Morgan's folks and to look at the country.

Dave Ford has taken the contract to carry the mail from Teeters landing to Keno twice per day. The stage company has disregarded the orders of the Postal Department in regard to two mails a day for some time, but it appears that they have come to their milk and now it is likely that Keno will get her mail according to orders.

## County Court Meets

The County Court met in regular session this morning. All the commissioners were present with the exception of Albert Walker, who arrived this afternoon. Several road petitions will receive the attention of the Court this session. The county road which was established eight years ago below Henleys, where the road turns off to the Stukel bridge has been found to not comply with the lines of the recent survey by County Surveyor Williams. There is quite a legal point involved but it will probably be satisfactorily adjusted by the Court.

## Stone Will Build

Attorney C. F. Stone has let the contract to Lawrence Watson for the construction of his residence on lots 1 and 2, block 38, in the Hot Springs addition. The property faces on the Esplanade. Work was commenced today on the foundation for a 7-room bungalow to cost \$2400.

The Houston Hotel is now under the management of J. A. Houston, the change taking place yesterday. Judge Harris, who had the hotel leased, desired to return to the practice of his profession, and Mr. Houston agreed to take back the management. A change will be made in the dining room service. Instead of special orders, regular meals will be served at 25 cents. Mr. Houston proposes to give the best meal in the town for the money.

### LANGELL VALLEY NEWS.

Mrs. D. Campbell and son, Walter, departed Thursday for Medford for a load of fruit.

Miss Mable Campbell left Saturday for the Falls city where she will resume her work as teacher in the public school.

Miss Utah Rankin returned home Sunday from the Falls where she has been the guest of Mrs. Lewis Gerber for some time.

Miss Lula Wilkerson soon departs to resume her duties as teacher where she taught last year near Keno.

C. J. Swingle returned home Thursday for Medford, where he went to meet his daughter, Oks, who has been visiting relatives in Portland for some time.

J. D. Walker and family left for the huckleberry patch last week to be gone some time.

H. F. Swingle left with a party for Crater lake and the huckleberry patch and expect to be out for some time. Young Mr. Swingle is a hunter of considerable ability, having demonstrated this fact last winter by the number of cougars and other wild animals he killed, and expects to devote considerable of his time to hunting. No doubt his party will neither want for meat on the trip or for the interesting stories and thrilling adventures as told by experienced hunters.

A timber fire on the mountain south of Langell valley started some time during the past week.

E. C. Lyon is improving his place by clearing the ground of sage brush.

Mr. Sedge is hauling lumber for a new barn on his homestead.

J. D. Hamaker and wife were visiting in Langell valley last Saturday.

Messrs. Cline and Swingle returned from the Deschutes Monday.

The threshing machine will begin operations this week.

An enterprising paper in a prosperous and thriving village recently referred to a correspondent as insane and was also very complimentary otherwise. The paper referred to is a 28-column paper and its last issue had five columns of local reading matter. This must be insanity too.

Work on the Clear Lake road is progressing with all possible speed and the government is going right ahead regardless of the calamity howlers and wouldbes.

Homebreaking and theft are occasionally indulged in by some heartless reprobates in our community. Justice in its full capacity should be given such characters.

Beef cattle are selling at five and six cents, but some of the farmers refused to sell at that price.

Dave Vinson was over to the Reservation to buy cattle last week, but owing to the high prices asked made no purchases.

Harvesting is all done and threshing will begin this week in the valley.

Ed Sedge lost a fine mare last week by falling into a well that was covered over with light boards.

We note in the Bonanza Bulletin of August 27, an attack made upon one of the correspondents of a county seat paper from this valley for stating some facts pertaining to the discouragement of the Upper project through their local paper. Now, those who are familiar with the circumstances, know that such is the case and they have been drumming on this as one correspondent termed it "To the uttermost," until they have made a number of men believe they were right and the government was all wrong, some of which names, a journalist of Bonanza has mentioned in answer to one of the correspondents from this valley.

Now we have observed that all along down the line, that the men who are always and forever condemning government works of all kinds are men who cannot hold a government position or get one, and this Bonanza journalist takes it upon himself and tries to redeem matters by stating that he was the sole cause, with a petition, signed by some he named, sent to Washington, that started the great wheel of progress to rolling and brought about the immediate work on the Upper project, but how is this wise journalist going to explain to those poor land owners, who had confidence in him, why they didn't get their contracts cancelled

## DUCK PONDS ARE DRY

### Usual Hunting Spots Deserted on Account of No Water

Unless It Rains Soon Hunters Will Be Compelled to Travel Through Miles of Tules to Reach Roosting Places of the Ducks and Geese--Tiresome Sport

with the government, remains yet to be seen. Now a man of the ability of this journalist who can start things going, such as he gives himself credit for without assistance from the Water Users Association or elsewhere is a wonderful man and deserves a job, but at present we do not feel disposed to turn over this entire Upper project to this Bonanza Journalist, or at least until he demonstrates more clearly to the people that he is actually something out of the ordinary, for judging from the long article written in the Bulletin, of which he is the author, he remembers the new steamboat that was launched for her first trip. When the whistle blew every one expected to see her go, but she could not and when an investigation was made they discovered that this boat had a ten foot whistle and a five foot power, and had exhausted all the power in blowing the whistle. We think it advisable for this journalist to apply the wet cloth to his head, as spoken of by one of the correspondents, and keep cool until he has more power.

Hunters returning from their first day's sport after the ducks, show evidence of having been very successful. They state, however, that it is more work getting the ducks than in previous years. This is not on account of the lack of game, for there are millions of ducks along the rivers and lakes, but on account of the lack of water.

The best posted hunters were surprised in going to the best duck ponds to find them completely dried up. Nearly all the shooting yesterday was done on the open water, and it is predicted that unless there are rains soon, the duck hunting will be difficult sport. The ducks will soon be scared from the open water and will have to go so far into the swamps to reach protected water that they will be inaccessible.

There is said to still be plenty of ponds far so high that it is practically impossible to reach them. Other years there have been plenty of ponds and springs near the edge of the tules where one was always sure of getting a nice bunch of ducks, but these places are completely dried up this year.

Parties hunting on the lakes in the northern part of the county have been more successful. The swamp lands are not so extensive there and it is easier to get to open water. The hunting will continue good in that section until in November, when the birds go farther south.

## FOREST FIRE STARTS ANEW

### J. Y. Johnson Sends to Town for Men to Fight Fire on Clover Creek

The forest fire in the vicinity of Round lake northwest of here has broken out anew and is beyond the control of the fire wardens. J. Y. Johnson, one of the Weyerhaeuser men, sent in this morning for a crew to help fight the fire. Chas. Baldwin left at 9 o'clock with a team and eight men.

Several fires have been in this section for some weeks, but they have been kept under control. A party of men were fighting fire in that district last week, but returned to town after putting it out. Since then, however, it has started up again and is now doing considerable damage. The men on the ground have been unable to do anything and were compelled to send for assistance. The late fire is near Clover creek.

## Noland's First Order

Circuit Judge Noland issued his first official order today when Attorney Pierce Evans secured the order of the Court appointing R. S. Smith Examiner of Titles, on the application of Leo S. Robinson to register title to certain lands, against H. Ringe and others. As proof that the Judge will make a bright record, he signed his first order in red ink.
