

## ASK MORE TIME ON EAST FLUME

### et Roads Delay the Hauling of Lumber for Building Government Flume

Work has had to be stopped temporarily on the construction of the flume on the east branch of the government canal, on account of the wet condition of the roads which prevents hauling of lumber.

The contract of Campbell & Huffman with the government calls for completion of the flume by the 15th of this month, and an extension of time has been asked for by the contractors. The Long Lake Mill has the contract for furnishing the lumber and they are also behind in supplying the material. As soon as the present storm is over and the roads get in shape, work will be resumed on hauling the lumber to the flume. Campbell & Huffman have a crew of about thirty men and these will have to be laid off for a short time on account of the wet weather and the lack of material. It is hoped, however, that they will be able to resume work in a few days. The flume is a mile and a half long and nearly finished, and it is believed, if the weather will permit, that it will only need a very short extension of time to finish the contract.

### NEW OFFICIAL DIRECTORY

Issued by Secretary of State Benson, Compiled from Returns on June Election.

Twenty-two of the 34 counties in the state have gone dry and but 12 remain wet, according to the returns collected by Secretary of State Benson from the general election of last year and just issued in the new official directory. Of the counties included in the wet list are Baker, Clatsop and Multnomah, prohibition was voted on as a whole in these counties, and Crook, Curry, Gilliam and Wallowa voted dry either at the 1906 or 1907 election. The dry counties are Crook, Gilliam, Wallowa, Benton, Douglas, Grant, Jackson, Josephine, Klamath, Lane, Lincoln, Morrow, Polk, Sherman, Yamhill, Umatilla, Union, Wheeler, and Yamhill. The wet counties are Baker, Multnomah, Clackamas, Columbia, Coos, Harney, Lake, Lincoln, Marion, Wasco and Washington. No vote was taken on prohibition in the newly created county of Hood River. Other interesting political data contained in the directory is a tabulated statement of the abstract of votes cast at the total ballot at the 1908 election 166,164 as against 99,445 in 1906 and 99,315 in 1904. The population of the state, according to the 1905 census, was 464,538 as compared with the Federal census of 1900, which gave a total of 413,536 and a total registration for the June

election, 1908, from January 1 to May 15, was 122,995 and this was distributed among the several political parties, as follows: Republicans, 89,921; Democrats, 28,788; Prohibition, 1,889; Socialist, 3226; Populists, 59; Independents, 3656; and there were 3556 who registered and refused to designate political party.

### COMES FROM JERUSALEM TO VOTE FOR PRESIDENT.

NEW YORK, Oct. 14.—One hundred and five years old, but in good health, "old man" Simon Harris, as he is familiarly known on the East Side, comes all the way from Jerusalem to vote at every Presidential election, and he was one of the first to register yesterday. A chorus of congratulations greeted his appearance here, and he shook hands with many of his friends of long standing.

Harris answered the Inspector's questions in a steady tone, and remarked that his papers were wearing out, and he would have to obtain duplicates because he expects to vote at several more Presidential contests.

He will stay here until after the election, when he will return to his home in Jerusalem, whither he went to live many years ago. Harris was naturalized in California, and walked from there to New York after the gold excitement in 1849.

### HIGH SCHOOL NOTES.

The High School schedule which was changed this week on account of the Carnival, is meeting with favor among the students as it gives those who desire more time in the afternoon to devote to athletics and other extra work. The new schedule is as follows: School opens at 8:30, Chapel at 10:30 and closes at 2:30.

The Chorus Class and Glee Clubs are now preparing selections to be given during the Teachers' Institute which will be held October 21, 22 and 23. Prof. Wirtz, our musical director, is succeeding in creating considerable enthusiasm among the scholars and it is predicted that the High School will develop a number of very creditable vocalists before the year is out.

Preparations are now being made for the printing of the High School paper the "Boomer." The committee which has the circulation in charge is meeting with success and we expect a subscription list of fully two hundred this year.

### SOCIALIST LECTURE.

Mr. E. J. Lewis, of Portland, will speak at the Court House this evening on "The Reason People Object to Socialism." Admission free.

Harry Peltz is expected back from his Lakeview trip tomorrow. On the return trip his automobile broke down on the road beyond Bly, and the passengers had to walk quite a distance before they got a team to take them to Bly where they caught the stage and came on to this city.

## TEACHERS PLANNING FOR SUCCESSFUL INSTITUTE

County School Superintendent Swan has completed arrangements for the Annual Teachers' Institute, which will be held in this city next Thursday, Friday and Saturday. From the interest already displayed in the coming institute it promises to be one of the most successful sessions ever held in this county. A number of the leading instructors in the state will be present from Portland, Salem and Ashland, besides the teachers from every section of the county. The large number who will participate on the program gives assurance that many interesting and perhaps new ideas will be advanced. Mr. Swan is making an effort to have every teacher in the county present. Following is the program:

### LEGACY OF ONE DOLLAR MONTHLY INSTALLMENTS.

CHICAGO, Oct. 14.—One dollar, payable in monthly installments of 25 cents, is the peculiar bequest given Andrew Heckler by his late wife, Catherine E. Heckley, of Portland, Oregon, whose will was filed here today. The will was filed by Attorney B. S. Hague of Portland, Ore., who is bequeathed a cut glass water bottle. A friend is given the balance of the estate.

In the will Heckler is referred to as "the individual who married me in 1895 in San Diego, Cal., and who got from me thousands of dollars and when he could not get more, deserted me."

The estate consisted mainly of personal property.

### FROST-SORRELS.

Richard Frost and Grace Sorrels were united in marriage Tuesday evening, October 13th, at the residence of B. W. McCormick of Keno. A few Snowgoose officiated. Only a few were present at the wedding. The contracting parties are well and favorable known about Keno. They will take up their abode on his homestead south of Keno. Mr. Frost gave the young folks a royal treat.

### HASKELL WILL SUE HEARST FOR LIBEL.

KANSAS CITY, Oct. 14.—Governor Haskell said this afternoon, after a lengthy conference with his attorneys, that he had given his counsel authority to bring suit against W. R. Hearst for libel as soon as the attorneys could get service on the editor. This, he said, he believed would be possible at some point between Kansas City and St. Paul when Hearst makes his return trip to the East. Hearst is now on the Pacific Coast and is booked to speak at Seattle to night.

Calling a new type of reflecting telescope which is being built for him a small working model, although its diameter will be half as great as that of the big Yerkes telescope, Prof. Robert W. Wood, of Johns Hopkins University, declares that if it gives satisfaction he will construct a giant instrument of this kind. The builders of the Lick and Yerkes telescopes are making the model from drawings and specifications furnished by Prof. Wood, and he expects to receive it soon at his private laboratory, in East Hampton, Long Island. Popularly described this new type of reflecting telescope may be said to consist of a flat, circular basin, filled with mercury and set in motion by means of an electric motor. By altering the speed of rotation the focal length of the instrument can be varied at will, but Prof. Wood says it is impossible now to tell what diameters are attainable in this way. What the dimensions of the giant telescope will be has not been determined, therefore, but that it will astonish the scientific world there is little doubt in the minds of Prof. Wood's friends.

Charles A. Stiekney, one of the leading gasoline engine manufacturers of St. Paul, has just perfected a gasoline engine which he claims will

make possible the manufacture of automobiles so low in price as to be within the reach of everybody. For the past year Mr. Stiekney has been working on this engine; now he has perfected it, built one, and made an automobile that is a powerful practical in every way, and which will sell for about the same price at which motor cycles are retailed now. He has tested his machine in every way possible and it has been found to do all that the inventor had hoped for.

### HAVE YOU REGISTERED?

Have you registered, Mr. Voter? If you have not and do not you will have to catch six fresholders on election day, or you cannot vote. The registration books will close Tuesday, October 20, at 5 o'clock in the afternoon, and there are only a few more days left in which to register. Now is the time to attend to this matter as the County Clerk is waiting to receive your name. Register now and save yourself a lot of time and trouble on election day.

Fresh Morgan Oysters at the Monarch. The best in the market. They arrive every day and are guaranteed fresh. 15

### HOTELS CROWDED.

All of the hotels and lodging houses in the city are crowded and recent arrivals have found it a difficult matter to secure accommodations. It was thought that many of those who came in to attend the Carnival would leave on account of the rain but apparently very few have left as the hotels still report all their rooms full.

The last excursion of the season from Portland to Klamath Falls will leave Sunday morning and arrive here Monday evening. It has not been learned how many are expected to come on this excursion but Messrs. Steinmetz and Allison have charge of the excursion and they were very successful in the last two they arranged.
