

TICKETS TO LAKEVIEW

After January 15 the Southern Pacific Co. Will Place on Sale at all of Its Offices Tickets to Bonanza and Lakeview

On and after January 15 every ticket office on the Southern Pacific lines will have on sale through tickets to Bonanza, Bly and Lakeview via Klamath Falls. These tickets will be sold in connection with the Klamath Lake Navigation Company and the Klamath Falls-Lakeview Stage Company.

This action by the Southern Pacific Company will have a tendency to bring all of Lake County travel through Klamath Falls. It is estimated that this travel will be enormous during the next year on account of the extensive advertising of that section by the Oregon Valley Land Company. It is reported that this company has sold all of its stock and land and that next year the purchasers, numbering thousands, will come to Lake County with their families. The diverting of the passenger travel through Klamath will also have the effect of bringing the greater portion of the trade of Lake County by way of Klamath Falls. This big opportunity should not be overlooked by the people of this section and every assistance should be given the railroad company in inducing travel to come this way, as it will give prospective settlers a chance to investigate the advantages of the Klamath country.

TO MUCH ALCOHOL IN

SOME PATENT MEDICINES.

Acting under the local option law in Lane County, District Attorney E. R. Bryson has just notified the druggists of Eugene that they must not sell certain kinds of bitters, which, it is alleged, have been sold regularly since the local option law went into effect to a large number of persons for beverages, on account of the great amount of alcohol said to be contained in them. Among the medicines placed under the ban by the District Attorney are four patent medicines. The druggists have written to the manufacturers of each of these compounds to see whether or

not they will take up the matter and test it in the courts.

Notice has been served not only upon the druggists of Eugene, but those in every town in Lane County, as well as in Benton and Lincoln Counties.

HIG RENTAL FOR ALFALFA FARM

Alfalfa Meal Industry Increases Producing Value of Land.

Fifteen dollars per acre annually is the rental to be paid O. D. Tool for his 135-acre alfalfa farm near Echo by the owners of the Alfalfa Meal Mill at that place. This is the only alfalfa meal mill in the state, and the products of the farm will there be ground into the new feed. While this is, without doubt, the highest rental yet paid for a large tract of land in the county, the Tool ranch is considered one of the best. It is estimated that it will easily produce seven tons to the acre annually. The milling company is to handle the property without any expense to its owner.

ACCUSED ROBBERS PLEAD TOMORROW.

No jury cases were heard today, the Court being taken up with the arraignment of Nelson, Thompson and Hale for the robbery of the Schullock & Dugger store, and in hearing motions and setting the trials of cases. The defendants in the robbery case were given until 9:30 tomorrow morning at which time they will answer the charge against them. Benson & Stone will represent the defendants.

The jury in the Schullock vs. Provo case brought in a verdict for the plaintiff in the sum of \$36.23 as payment for work performed on the defendant's ranch.

The Monarch Mercantile Co. will carry a complete line of vegetables from the California markets. Fresh shipments daily.

ANOTHER DECISION IN MILLIS ESTATE CASE.

Another epoch was reached this afternoon in the famous Mills case when Judge Noland reversed the decision of Judge Griffith of the County Court and decided that the adjudication of the case to County Judge Chas. Moore in 1895 to be the final settlement of the case. The administration of the estate of W. F. Mills has been in the courts for a period of 17 years and as an appeal can be taken from the last decision, it is possible that it may continue in the courts for a number of years yet.

Recently Judge Griffith readjudicated the case on the grounds that no notice had been given to the creditors on the original order, and he allowed the claim of the successful N. B. Knight \$1269.

The original order by Judge Moore dated July 12, 1895, is as follows: "It is ordered, adjudged and decreed that said claim of N. B. Knight amounting to \$1229, together with interest thereon at the rate of 8 per cent. dated per annum from the 11th day of March, 1892, be and the same be in all respects allowed and said T. W. Hawker, administrator of said estate, be and he is hereby ordered to pay said claim of N. B. Knight in full."

ALL BUT CHRISTIANS ARE BARRED FROM THIS COLONY.

Grants Pass. A number of families have arrived here from the east to make their homes with the Ideal colony, being established at Wolf Creek, in Wolf Creek Valley, in the northern end of Josephine County. The colony is being founded under the direction of Rev. W. G. Smith. A large farm, or rather several big farms, were purchased and subdivided into smaller tracts, and the members of the Ideal colony will turn their attention largely toward the growing of fruit, for which the climate and lands of Wolf Creek Valley are well adapted. Only Christian people are allowed to settle in the colony, and no saloons or places of vice will be allowed. The site of the colony is one of the most picturesque and is on the main line of the Southern Pacific.

CONSERVATORY HOLDS ITS FIRST RECITAL.

The L. B. Applegate residence on Washington street, which is now the home of the Klamath Conservatory of Music, was the scene of a pleasant event Saturday evening when the first piano recital of the season was given by little Neva Faught.

Miss Neva entertained her audience of some forty persons by rendering selections from well known composers in a manner that was truly remarkable for a child of eight years of age. Expressions of admiration and appreciation of the little lady's playing were heard on every hand. She surely gives promise of rare musical ability.

Friends and patrons of Miss Applegate long ago learned that she spends no effort in perfecting her pupils in their musical work, and each public recital demonstrates anew this fact. Both Miss Neva and her teacher are to be congratulated.

An occasion of this kind is never quite so complete as when Miss Applegate can be persuaded to play herself. Yielding to the earnest requests for a solo, she rendered "Hungarian Rhapsody No. 11," by Franz Liszt, in her own highly artistic manner which, to those familiar with her playing, needs no further comment.

AFFECTS NEW LAND RULING.

Decide Entryman Under Timber and Stone Act May File Before Seeing Land.

Washington.—It is held by the Supreme Court of the District of Columbia that the Interior Department cannot require that entryman under the timber and stone act shall personally go upon the land sought before making their initiative entry. This decision was rendered in the case of Mary S. Ness, whose timber entry of tract in the Roseburg, Oregon, land office had been cancelled because she had not visited the land before filing. The court holds that the Department was without authority in cancelling this entry merely on the ground "that the applicant discovered the character of the land from having had an expert examine it." This decision is of far-reaching effect, and seriously affects the new regulations recently promulgated for the enforcement of the timber and stone act.

PORTLAND LETTER.

One of the most important gatherings to be held on the Pacific Coast during 1909 will be the convention in Portland of the Association of American Agricultural Colleges and Experiment Stations, brought here through the instrumentality of President W. J. Kerr, of the Oregon Agricultural College. The American Association of University presidents, the American Association of Farmers' Institute Workers, the Agronomic Society, and the Association of Agricultural Chemists always hold their conventions at the same place and time as the Association of Agricultural Colleges and Experiment Stations, and will therefore be here also. Delegates to these meetings comprise college and university presidents, directors of experiment stations, experts in the different bureaus of the Department of Agriculture, and other specialists, and an attendance of between 1200 and 1500 is expected. An extended visit to the A.-Y.-P. Exposition is included in their schedule. The exact date of the convention will be announced later.

J. E. DeFebaugh, editor of the American Lumberman, of Chicago, who has bestowed such marked praise on Douglas fir, has the following to say editorially in the current issue of the Lumberman:

"The Pacific Northwest makes a wonderful appeal to every visitor. It is a land of living waters, of golden soil, of mineral wealth beyond comprehension, of forests which will bless mankind when other lands are desolate; a land of mountain, plain and valley; of a people great in intellect, energy, endurance, and kindness. In this golden Northwest, in a climate without the harshness of the North or the enervating softness of the South, these people are building lean Agricultural Colleges and Experiment Stations for power, or, pouring them over the plains, have produced fruitful fields and gardens; they are wresting from the earth its mineral wealth

PLAN FISHING RESORT

R. C. Spink Secures Lease on Lands Along Spring Creek, the Finest Trout Fishing Grounds in the United States

Plans are now being matured which when complete will be good news to the sportsmen of the Pacific Coast. This is the establishment of a well equipped fishing resort on the famous Spring Creek which is located on the Indian Reservation. Spring Creek is known as the finest trout fishing stream in the United States, but has heretofore been almost inaccessible to the sportsman on account of being located on the reservation and the lands being in the ownership of the Indians.

R. C. Spink, of Klamath Agency, has succeeded in securing a five year lease on lands along both sides of the stream for a distance of a mile. This includes practically all of the choice camping and fishing grounds along this stream. It is the plan of Mr. Spink to form a company to handle the tourist trade to this point. At least he will have an agent in this city to furnish information and look after the transportation of tourists going to the resort. It is the intention of Mr. Spink to put from 20 to 30 good comfortable tent houses for sleeping quarters and a large dining room. The accommodations will be first class and a first class table will be set. No campers will be allowed on the grounds and with plenty of boats the patrons of the resort will have the exclusive right to these fine fishing grounds without the intrusion of outsiders.

STOCK ITEMS.

F. M. Miller, of Lakeview, sold to Mitchell & Co., 480 head of beef cattle at Merrill. The cattle will be taken to Gaffney and shipped to Oakland.

Lewis Gerber started 300 head of cattle last Saturday to be shipped from Mt. Hebron to Sacramento.

Chas. Horton will start 300 head in a few days for Mt. Hebron. Their destination is Oakland.

It is asserted that the beef cattle in the Merrill country are nearly all in the hands of wholesale butchers of California.

BIRTHS.

To Mr. and Mrs. J. C. Mongold, at 3 o'clock this morning, a 10-pound boy.

To Mr. and Mrs. D. T. Meldrum, at 1 o'clock this afternoon, an 8-pound boy.

They are converting the forests into forms of utility and beauty; they are building schools and colleges; the little vision of every man dwelling under his own vine and fig tree is realized here, where every badly used and intellectual want may be gratified. The natural wealth of the country is great and great are its achievements, but better than all this are the people themselves—a chosen race—growing in numbers and in all the accomplishments and graces which make a people mutually useful and happy."

The convention of the Oregon State Dairy Association at Salem last week was the most successful ever held by that body. Washington and California were represented in both attendance and exhibits. The grand prize for the best display of dairy products was awarded to F. A. Schuinger of Salem for an exhibit comprising 26 varieties of cheese. The Douglas Creamery Co., of Roseburg, won the first award for highest scoring creamery butter, F. G. Matke, of Sweet Home, for highest scoring butter, and T. J. Ballantyne, of Hobsonville, for highest scoring cheese. The dairymen pledged a fund of \$150 per month for the employment of an expert to bring dairy conditions throughout the state up to the highest possible standard. An appropriation of \$6000 will be asked from the Legislature. President F. L. Kent, of Corvallis, was re-elected, with Carl Abrams, of Salem, secretary. The time of next year's meeting will be chosen to harmonize with the date selected by the Washington dairymen, who meet at Chehalis this week. Hon. C. L. Mitchell, of the Dairy Division, U. S. Department of Agriculture, is in Chehalis for this meeting.

UNITED STATES NAVY IS NEXT TO GREAT BRITAIN.

The United States is now second to Great Britain only as a naval power, according to tables of the naval strength of leading nations, which are included in the annual report of ex-Secretary Metcalf, of the Navy Department. France is building more ships than the United States, and were these completed in each country France would supplant the United States in second place as regards aggregate tonnage.

The following table shows the rank of the navies in total tonnage as they now are and as they will be when vessels now building are completed. The first column is the tonnage at present and the second as it would be when vessels building are completed.

Great Britain	1,669,005	1,871,176
United States	685,426	801,188
France	628,882	770,468
Germany	524,573	693,599
Japan	371,891	444,903
Russia	240,943	320,040
Italy	220,458	248,778
Austria	114,250	148,350
