DUNBAR WINS DECISION.

Court Decides State is not Entitled to Fees Collected by Former Secretary.

salEM. Ore .- On the ground tost the state has no right or title to the fees and perquisites exacted by the terendant under the statutes referred to in the complaint and that the dereadant is not accountable to the therefor, the Supreme Court, an opinion written by Justice Hain, reversed the decree of Judge William Galloway of the Circuit Court, and dismissed the suit of the sate sgainst the former Secretary State F. I. Dunbar, which was rought to compet him to reimburse

he state for the amount of fees and erquisites collected by him during WASHINGTON Dec. 31.-The great two terms of office and converted to his own use.

The suit was brought by the state McNary, substituted for J. K. mars, and a decree was obtained from Judge Galloway against Dunbar the sum of \$103,926, collected as tes for filing articles of incorporation, issuing notorial commissions, recording trade marks, copying laws and journals, issuing appointments of commissioners of deeds, other ommissions, agents' certificates to fre insurance companies, licenses to life insurance agents, annual licenses to life insurance companies, requisitions and warrants of arrest, registering titles in insurance matters, isming powers of attorney, issuing cerlifeates of authority to insurance companies, and filing statements of nutual fire insurance associations.

The foundation of the plaintiff's right of recovery, as disclosed by the complaint, is that these sums of moner were collected by the Secretary of State for the use and benefit of the state, the contention of the plaintiff is that the constitution prescribes lary for the Secretary and fixed hat as his whole compensation, and that therefore the statute which altows to him certain fees and perquislim for work done is unconstitutional and void. The constitution proides an annual flat salary of \$1500

AMERICAN PLEET TO AID.

Nixteen Battleships Likely to be Or-dered to Italian Citles to Aid in Work of Rescue.

American batfieship fleet, built for purposes of destruction, may after all have to go down in history as one apon relation of District Attorney J. of the greatest humanitarian agents in modern tines. Not content with the outpourings of private charity, it is probable that the American government will direct this great fleet way from its own maritime progress lowards home, to the stricken city of Messina and the other Italian ports where deviatation beyond the unaidd efforts of the Italian people them selves to repair has been wrought by the earthquake and tidal wave. The nutter of dispatching the fleet

on its glasion of mercy is now under consideration and a speedy decision in favor of such employment is expected. The sixteen warships are making their way through the now Red Ses, and should arrive at Pdrt Said on the eastern entrance of the Sues Canal by Sunday.
