

## MANY WANTED AS WITNESSES

### SIXTEEN KLAMATH CITIZENS SUMMONED TO PORTLAND BEFORE GRAND JURY.

Deputy U. S. Marshal Griffith has sixteen subpoenas to serve in this county for witnesses before the United States Grand Jury in Portland. The following six have been served: George H. Orr, L. D. Burk, H. G. Wilson, R. M. Richardson, J. O. Hamaker and Earl Whitlock. Most of the men are supposed to be wanted as witnesses in the case against William Barclay, who is accused with murder. In summoning witnesses the Grand Jury does not state for what case they are wanted, and it is believed that there must be other cases under consideration, as so many witnesses would hardly be needed for one case, especially by the Grand Jury.

It is estimated that this bunch of witnesses from Klamath County will cost \$300 for mileage alone, besides their allowance per diem. The witnesses are summoned to appear in Portland on next Monday.

### LIVE WITHIN FIFTY MILES.

A very important ruling by the Secretary of the Interior, with regard to the interpretation of the National Irrigation act, was that defining the word "neighborhood" to mean any place within a distance of 50 miles. The National Irrigation law provided that applicants for water rights should either reside upon the land for which water was asked, or must reside "in the neighborhood of the land."

When the law was first put into operation, Secretary Hitchcock held that "neighborhood" meant any point within 20 miles of the land, and from that day to this a 20-mile radius has constituted a neighborhood, so far as reclamation purposes were concerned. But Secretary Garfield takes a more liberal view, especially as most irrigation projects have remarkably good transportation facilities, trolley lines, etc., and he has changed the ruling so that an applicant for water right may reside anywhere within 50 miles of his land.

### RECOMMEND ONLY ONE NORMAL SCHOOL.

SALEM, Feb. 9.—One normal school, probably at Monmouth, will be the recommendation of the joint committee on ways and means. Should this recommendation be fol-

lowed, it will cut off from the state treasury the schools at Weston, Ashland and Drain. The appropriation will be probably \$150,000. Provision will be made for paying the railroad fare to the one normal of students in far-away parts of the state. As Monmouth holds a balance of power on the committee, it is likely to be favored in the report.

This will undoubtedly lead to efforts of the other normals to tack their desired appropriations on the Monmouth appropriation bill or elsewhere.

At this time it is too early to foresee what success the change will have in the Legislature.

### COUNTERFEITING CASE.

It is rumored that Deputy U. S. Marshal Griffith is looking for a number of witnesses in a counterfeiting case. It is the case of Frank Jennings, who is under arrest in Portland charged with making counterfeit money in Jackson County near Medford. Jennings was in Klamath Falls several months last fall, but it is not known whether there are persons here believed to have been implicated with him, or that they are simply wanted to give evidence as to his doings while here.

### LOVE PINE ITEMS.

The ladies sewing circle met at Mrs. S. Booth's last Wednesday. On account of the bad weather there were not many present. Those attending were: Mrs. Ella Robley, Mrs. E. C. Roam, Mrs. Alma LaPrarie, Mrs. C. Steeman, Mrs. Harry Booth, Mrs. J. Enman, Mrs. L. A. West, Mrs. H. Phillips and Mrs. John Kozontz.

Among our Merrill visitors this week were Mr. and Mrs. H. Booth, Chas. Liers, Mrs. Carl Robley, Mr. and J. B. Cole.

Fred Steeman has been on the sick list for the past few days but is now improving.

James, Cole, Pink Barks, Harry Booth and Mr. Brady helped Joe Derivan butcher nineteen hogs last Monday.

Venus Booth and Anna Beebe are keeping house for Mr. Beebe on his homestead.

We understand that Mr. Moon has accepted a position in Tampico, Mexico, and has left for that place.

While pulling up a steep place with a load of hay last Monday the ranch of Mike Galarneau's wagon broke. The team became frightened and ran for about a quarter of a mile when one of the horses got fastened to a tree and fell. No serious damage was done.

Mr. and Mrs. Ernest Durkey are spending a few days with Mrs. Anderson.

Charlie Merrill was up in this district Tuesday after a stray mule.

Mrs. Inez and Sam Coups spent last Sunday evening at the Beebe's.

### WONDERFUL BUSINESS GROWTH.

Probably the greatest growth of any business institution in Klamath Falls in the past year has been experienced by the Monarch Grocery and Market. This firm began business last summer with a comparatively small stock of fruit, which was eventually greatly enlarged and to which was added a complete stock of vegetables. During the fall and early winter fish, oysters and dressed fowls were added.

As the store has received such a liberal patronage, another move was made the first of this month, and a complete stock of groceries and canned goods has been added. From a fruit stand occupying a store space about 25 by 30, the Monarch fruit store has developed into the Monarch Grocery and Market, with a main salesroom 25 by 60 feet, and two large warehouses. An immense refrigerator has been installed, with three compartments, where they continually keep a fresh stock of oysters and fish on the ice. Other refrigerators have been put in for butter and vegetables and green goods so that the latter will keep fresh and crisp.

With an immense new stock of the best of everything in the grocery line, together with their fruit, vegetables, fish and fowls, the Monarch Company is now prepared to furnish every staple and delicacy that could be wished for the table. The Monarch feeds its own flock of chickens and fowls and is now supplying young friers to its customers. During the week the chickens are killed and dressed to order and on Saturdays a supply of dressed fowls is always kept on hand.

It is impossible to mention the many delicacies handled by this firm but the people of the city are cordially invited to visit the store and see for themselves. A large number of clerks are in attendance and every courtesy will be shown to visitors and patrons.

## MONUMENT TO WM. H. SEWARD

### SECRETARY OF STATE WHO WAS RIDICULED FOR THE PURCHASE OF ALASKA.

The state of New York will erect on the ground of the Alaska-Yukon-Pacific Exposition, which opens in Seattle in on June 1, a permanent monument to William H. Seward, Secretary of State during the administration under which Alaska was purchased from Russia and made the first outlying possession of the United States.

The Seward memorial will be a replica of the Seward residence in Auburn, N. Y., in which the Secretary lived during the time that the negotiations were in progress.

There are many today who remember the avalanche of ridicule and censure which poured down upon the head of Seward, particularly, and of the administration generally, when news of the purchase was published. Just what the United States, or any one else for that matter, could want of the collection of icebergs which Alaska was popularly supposed to be, passed the public comprehension. The northern territory was promptly christened "Seward's Folly," and the seven millions of dollars paid for was counted as lost.

Today the foresight of the statesman who had the hardihood to declare that the territory would one day be a new continent, housing a new people, is vindicated and "Seward's Folly" has become "Seward's Treasure Box." In gold alone it has turned out many times the millions Russia was paid for it and in furs and fish it has added many other millions, and will continue to add them to the national wealth.

### CIRCUIT COURT NEWS.

Dave Alexander appeared before the Court this afternoon and entered a plea of not guilty. His case was set for February 23.

The State in the Coburn case practically finished its evidence at noon today, with the exception of J. G. Wight, whom they wished to recall later. By agreement of the attorneys the evidence of Barclay which was given in the former trial, was read to the jury from the copy of the testimony.

Several of the witnesses of the defense had not arrived, particularly Dr. Hemenway, who lives at Yainax. Dr. Hemenway is one of the important witnesses for the defense, and was delayed on account of the storm and the condition of the roads. It is expected that he will arrive before the case is concluded, but if he does not get here in time, his former testimony will be read. The case will probably last another day.

### IN MEMORIAM.

To the Worthy Matron, officers and members of Aloha Chapter, No. 61, O. E. S.: Whereas,

The mysterious messenger, Death, has again invaded our Chapter and taken a link from the golden chain of our membership, by the loss of our friend and brother, Ernest Soule,

Therefore, Be it Resolved, That the sympathy of this Chapter be extended to his relatives and while we with them mourn his loss, yet it is with the hope that "in the world where death comes not," we shall meet again.

Resolved, That a copy of these resolutions be sent to his relatives and be also spread upon a memorial page of the secretary's book.

Frank Ward,  
Frank E. Ankeny,  
Francis E. Boyd,  
Committee.

## OREGON MAKES BEST SHOWING

### FIRST OF STATES TO OPEN UP ITS EXHIBIT AT SEATTLE EXPOSITION.

SEATTLE, Feb. 10.—Oregon was the first of all the states to "open up" its exhibit at the Alaska-Yukon-Pacific exposition.

It is the habit of the exposition directors when they are showing notable things through the grounds, to point out the Oregon building as the first of the state buildings to be completed and one of the handsomest of any kind on the grounds.

A few days ago they were entertaining the newspaper men of the state of Washington and as usual led them up to the Oregon building to brag a bit. They were invited inside and, to the surprise of everyone, they found big red apples by the ton, great jars of fruits and grapes and other things that Oregon produces, already to go on the tables and shelves which were being ranged around the building.

Before they got out of the building they were taken down into the basement, where a cold storage plant is in operation, and there every one of the 200 writers was given an apple the size of a muskmelon and invited to come again.

Oregon's splendid building is, in fact, one of the most attractive present features for those who now flock daily to the exposition grounds, but only recently the California building, a handsome structure of modified Spanish architecture, was completed and it was a close competitor with Oregon for popular favor.

February list of Edison Records are now in at Mullers.

### MANY TAKE EXAMINATION.

County School Superintendent J. G. Swan, assisted by G. R. Carlock, of Merrill, and Prof. W. E. Faught, of Klamath Falls, began this morning the teachers' examination for county papers. The examination will last until Saturday and is being held in the Klamath Falls Public School building. There are no applicants for state papers, but the following are taking the examination for county papers:

Rachael Applegate, B. P. Alexander, Bessie Bell, Ernest Burnham, R. H. Dunbar, A. E. Elder, Restora French, Ida Grimes, Cora Griffith, Jane Given, Archie Kirkendall, B. E. Lee, Alice Lytle, Veta Mulkey, Myrtle Pitney, Ruby Nichols and Mona Ward.

### HOME DRAMATIC CO. TONIGHT.

At Opera House tonight the Home Dramatic Company will present the four act comedy drama, entitled, "Because I Love You." The play is written by John A. Fraser. The members of the cast have put in much time and study in their respective parts and a very good performance is expected.

The following is the cast: Imogene Courtleigh, Helen Wakefield, Ginger, Lella Wright, Nancy Tyson, Mrs. F. L. Wright, Prudence Freeheart, Mrs. L. M. Gale, Horace Verner, Carlisle Yaden, Dink Potts, John Oliver, Ira Courtleigh, Oscar Wright, Buck Tyson, Roy Fouch, Elmer Van Setteret, Squire Ripley, Sam Chappel, Major Duffy, C. T. Oliver, Lige, Fred Bamber.

The admission will be 25 and 50 cents.

### FLOAT AT ROSE FESTIVAL.

Klamath Falls is likely to be the first of the communities of Oregon to arrange for the entrance of a floral float in the "all-Oregon" parade of the next annual Rose Festival. Judge George T. Baldwin, one of the leading business men of that region, is in the city and has assured the festival management that he will do all he can to persuade the Klamath Falls Chamber of Commerce to send another float here. Baldwin says he believes the Klamath Falls float of last year was about as good advertising as his district ever had.—Oregonian.

## MILLIONS COMING WEST THIS YEAR

### WILL VISIT ALASKA EXPOSITION --MANY WILL FIND HOMES ON THE COAST.

Great Northern Railroad officials estimate that 1,000,000 persons will pass through the city of St. Paul during the coming summer on their way to the Alaska-Yukon-Pacific Exposition which opens in Seattle on June 1st.

The estimate is divided, 400,000 to the Northern Pacific, 400,000 to the Great Northern and 200,000 to the Soo and Chicago, Milwaukee and St. Paul.

The Union Pacific and its connections have not as yet published any estimates but it is believed that they will be large in assured by the several unusual attractions which the Northwest will have to offer during the summer months.

During the life of the exposition Portland is to hold its annual rose festival, a beautiful pageant which never fails to attract from all over the country. The Portland festival dates are June 7 to June 12. That many of those who attend Portland's big show will come on to the exposition goes without saying.

From August 9 to 14 the National Irrigation Congress will be in convention in Spokane and as it draws besides delegates from every state, a host of others interested in irrigation problems and possibilities, the exposition can count heavily upon it as a producer of patrons.

The Grand Lodge of Elks will be held in Los Angeles during the exposition term and the Grand Army of the Republic will hold its national encampment in Salt Lake during the same period and each is counted upon to increase traffic into Washington. It is calculated by the fair officials that with the aid of these other attractions traffic over the Oregon Short Line and the Shasta route, will not be less than another million.

### UPPER LAKE NOTES.

The Upper Lake is lightly frozen again but boats succeed in plowing through.

Work on the Long Lake milling plant has been temporarily suspended. Bad weather is the reason.

The big animal reported to have been seen on Upper Lake a few weeks ago has not appeared since the ice broke up, and is supposed to have been a hypporimus that has taken up residence in the deep water some where near Bear Island.
