

# The Greatest Power Plant on Earth

What is the greatest power on earth? You say money. Is this correct? Have you the power to get it? If you have not a special training for some special thing, you are handicapped with a lack of knowledge that can be obtained only by study. All lines of business, Surveying and Mapping, Mining, Electrical Mechanical, Architectural, Civil Engineering, etc., require specially trained men. We have The Greatest Power Plant on Earth for Brains. We will send our power to your home. You can use it in your spare time and thus get an education for some special thing. What did you do with your spare time last year, nothing? What are you going to do with your spare time this year? Have you the ambition to fill a higher position? Have you the stektoitiveness to study? If you have, mark the position you would qualify for, and send it to the International Correspondence Schools man. He will tell you how, and help you to get the special training you need; as the business of the I. C. S. is to raise salaries. Do it now and let us help you to an education and higher salary.

## INTERNATIONAL CORRESPONDENCE SCHOOLS.

Care Hotel Weed, DUNSMUIR, CALIF.

Please explain, without further obligation on my part, how I can qualify for larger salary and advancement to the position before which I have marked X.

## Humor and Philosophy

By DUNCAN H. SMITH

### PERT PARAGRAPHS.

Being a genius is hard on the constitution, distracting to the family and a perfectly hopeless financial proposition.

The great trouble is that the majority of people are not content to let the past stay past.

Don't be afraid of what the other fellow may think. Nineteen out of twenty men don't think straight anyway.

Having a sense of humor is one way of heading off the doctor.

The man with horse sense doesn't get stampeded by the pony ballet.

There is plenty of luck lying all along your way, but the trouble about it is you can't tell whether it is good or bad until afterward.

The young man who has never been taught to work is pretty apt to be on the road to destruction without stop-over privileges.

The best part of wisdom is in trying to keep in tune with progressive things irrespective of what has gone before.

We judge a tree by the fruit of its craft and are prone to measure man by the same standard.

Cast your bread upon the water and here are nine chances out of ten that the suckers will get it.

**Little Bruises.**  
Oh, lackaday, that trifles small  
Should cause us so much worry.  
That little ripple on the stream  
Should put us in a flurry.  
The missing of a railroad train,  
A slight delay in payment  
Of bills that we have owed awhile  
For shelter, food and raiment.

The scratching of a vandal pen  
Where garden seeds are planted,  
The antics of a slot machine,  
Requests that are not granted,  
A neighbor's children sassing back,  
A mail man's stupid blunder,  
Are not the things to fume about  
And struggle daily under.

The troubles that annoy today  
And cause so much commotion  
Will in a year from now appear  
As specks upon the ocean.  
All wool they may appear today,  
But then they will be cotton  
Or just a mass of tattered rags  
And most of them forgotten.

The more attention they receive  
The more they will keep growing  
Until it seems your cup is full  
And almost overflowing.  
But if you bid them chase themselves,  
Go on and do not heed them,  
Perhaps at once, to your surprise,  
You'll find you do not need them.

Take time by the forelock lest he take you unawares.

Get Him.  
"Are you fond of nonsense, sir?"  
"If Not at all."  
"I was sure of it."  
"What?"  
"Certainly, and I have here a collection of the latest things in solid reading especially adapted for thoroughgoing men like you. I shall be delighted to take your subscription."

Keep at It.  
If you miss the first time trying,  
Keep a-coming.  
Don't be moping round and sighing.  
Go a-coming.  
Bare your arms and strike out lithely.  
Show you're willing.  
Time will come when you will blithely  
Make a killing.

Desire to Be Prepared.  
"I have an extravagant wife."  
"What for?"  
"To spend my money, of course."  
"Where did you get your money?"  
"Haven't got any yet."

Getting Passes.  
Twinkle, twinkle, little star,  
Just on the horizon's bar,  
If you don't a new stunt get,  
Little star will soon have set.

Too Dear.  
"Why don't you marry?"  
"Can't afford it."  
"But marry a rich girl."  
"She can't afford it."

He Was a Judge.  
One of the consuls to Persia during a visit home said at a dinner in Chicago:

"Lady Drummond Wolfe once got permission to visit the late shah's harem. She took a friend with her who was about to be married. The two Englishwomen wandered over the palace, and presently the shah encountered them.

"Come here," he said to Miss Blank in his crude French.  
"You are about to be married? he said.  
"Yes, your highness."  
"It's late!"—Boston Post.

## NOVEL REFORMING SCHEME.

How an Indiana Town Got Rid of its Professional Loafers.

If Owensville, Ind., ever had professional loafers, it has none now—at least in sight—according to advices from that progressive little Indiana town. A newspaper of the place offered a prize for the best essay on the subject "The Loafer." The terms provided that submitted articles should be required to give the characteristics of the professional loafer. High school students became interested in the contest and planned "observing tours" through the business district of the town which would afford opportunities to study the characteristics of the fellow who roasts his shins behind the stove at the corner grocery from morning until night and who obtains his noonday lunch from the nearby cracker box and pickle barrel. The proposed tours caused much talk and led to a marked reform. Now when the bell rings for the close of school those who are in the habit of meeting in the corner grocery make a bee line for home or some other hiding place.

"What's the matter, Sam? Goin' home pretty early, ain't you?" asked a grocer as one of the idlers hurried out of the store.

"Don't want none of them literary fellers writin' me down as a loafer. Goin' home before they come."

He went, and so have gone all the other corner grocery statesmen since the students began this practical quest for specimens.

**Value of Shade Trees.**  
Shade trees should be planted in all towns and cities, and enough of the pavement should be removed to let these trees grow. Many old families in New England towns owe not a little of their longevity to their shade trees. The healthiest folk are in the northwest, where there are most clouds. It is well to get away from the erroneous traditional opinion brought to the United States from cloudy northern Europe that sunlight is good for people. In a measure it is; in excess, fatal.

**Watchword For Tradesmen.**  
Organization is the watchword of the day. It is the part of system. It means force and economy. A single twig can be easily bent and broken. A bundle tied together has strength that defies the efforts of a giant. The same in organization. One merchant, one tradesman in any line, cannot well bring about needed reforms. It requires united action, and this action can only be had when there is perfect and harmonious organization.

**Good Way to Attract Trade.**  
A merchant to be successful must not depend on his regular trade alone, but must be constantly reaching out after new customers. Make your store so attractive that when a new family comes to town the first place they will want to go will be to your store.

**How to Be Strong.**  
Man is strong only by union, happy suly by peace. Be firm, not obstinate; courageous, not turbulent; free, not undisciplined; prompt, not precipitate—Comte de Mirabeau.

In the County Court of the State of Oregon, for the County of Klamath.

In the matter of the Guardianship of the Persons and Estates of Lester Stacy Colahan, Clifford Johnson Colahan, and Stephen Colahan, Minors.

Order to Show Cause on Application of Guardian for an Order to Sell Real Estate.

It appearing to this Court from the petition this day presented and filed by Joseph P. Colahan, the guardian of the persons and estates of Lester Stacy Colahan, Clifford Johnson Colahan, and Stephen Colahan, minors, praying for an order and license of sale of the certain interests in certain real property belonging to said wards, that it is necessary and for the best interest of said wards that their said interests in such real property be sold, and it appearing from said petition that such may be true.

It is, therefore, hereby ordered, that the next of kin of said wards, and all persons interested in their said estates, appear before this Court on Saturday, the 27th day of March, 1909, at the hour of ten o'clock in the forenoon of said day, at the court room of this Court, in the County Court House at the City of Klamath Falls, in the County of Klamath and State of Oregon, then and there to show cause, if any they have, why a license should not be granted for the sale of the interests of said wards in such real property, described in said petition.

It is further ordered, that a copy hereof shall be personally served on the next of kin of said wards and all persons interested in their said estates respectively, at least ten days before the date last above mentioned, or that this order be published at least three successive weeks in the Evening Herald, a daily newspaper printed and published at the City of Klamath Falls, in said county, being a newspaper of general circulation therein.

The real property mentioned in said petition being described as follows, to-wit: The SW 1/4 of the SW 1/4 of Sec. 15; the SE 1/4 of the SE 1/4 of Sec. 16; the NE 1/4 of the NE 1/4 of Sec. 21; the NW 1/4, the SW 1/4 of the NE 1/4, the N 1/2 of the SE 1/4, the SE 1/4 of the SE 1/4 of Sec. 22; the W 1/2 of the NW 1/4, the NW 1/4 of the SW 1/4 of Sec. 26; and the NE 1/4 of the NE 1/4 of Sec. 27, all in Tp. 37 S., R. 11 1/2 E., of the Willamette Meridian, in Klamath County, Oregon, containing in all 800 acres of land, according to the government survey thereof.

Done this 23d day of February, A. D. 1909.

J. B. GRIFFITH,  
County Judge.

# Hydraulic Stone & Brick Company

HYDRAULIC STONE & BRICK COMPANY, organized, and to be incorporated under the laws of the State of Oregon, with a Capital Stock of \$35,000.00, for the purpose of manufacturing Concrete Building Blocks, and all materials for Concrete Buildings and Concrete Work; and also to make Concrete Brick, and Pressed Brick, all by the latest improved Hydraulic Machinery.

This Company has purchased from the American Hydraulic Stone Company, the concrete machinery and equipment, with exclusive rights for Klamath County, for making concrete building materials by hydraulic pressure—the only process for making TRUE CONCRETE STONE. What is meant by True Concrete, is the uniform compactness of the concrete material in the finished product.

The Hydraulic Machinery is so constructed that One Hundred Thousand (100,000) pounds pressure is put upon each block. The face of the regular size blocks is 9 by 24 inches, and are so compact when finished that in breaking a piece with a sledge hammer, the hardest stones in the material, one inch in diameter, will break before the concrete around them releases. The enormous pressure fills every void.

With this material and system of Concrete Construction, the walls are bonded in every direction, and being from 30 to 60 per cent hollow—air circulation both vertical and horizontal, making an absolutely dry Concrete wall. For over seven years buildings by this system have been constructed, in different parts of the country, and there has never been a damp wall. Fire proof buildings will be constructed by this system, at one third, or more, less than with brick.

The daily capacity of each Hydraulic Press Machine, is equal to 27,000 brick—filling same space, sufficient for a building 20 by 25 feet square and 10 feet high.

This Company will install all new and the latest types of improved machinery: Hydraulic Presses, Crushers, Mixers, Pressed Brick Machinery, Screens, Elevators, Trucks, Cars and all equipment necessary for practical and perfect operation, for turning out the very best class of work at right prices. The combined works will employ a great number of men.

For a very nonchalant consideration this Company has secured the most desirable location and factory site to be had, in, or near Klamath Falls, consisting of three acres of land, near the landing on the Upper Lake, with a 30 or 40 foot landing, and a right-of-way from factory and works to the landing. This property contains the very best material for both Concrete and Brick, and the Company will soon be prepared to turn out these materials at as low cost as can be done in any part of the country.

## DEMAND FOR CONCRETE MATERIAL AND BRICK; BUILDINGS TO BE CONSTRUCTED THIS YEAR

It was only after a very careful investigation of the demand for Concrete and Brick, that this Company decided to put in an extensive plant in Klamath Falls. At present there are calculations and preparations being made for fifteen or twenty good business houses to cost from \$5000 to \$20,000 each. A large public school building for the West End will soon have to be built. The new Court House is going to be built. The passenger depot and many other railroad buildings, will go up this year. Sidewalks will be put in. Residences will soon be going up with our two piece, hollow wall (dry wall) Concrete Blocks.

Taking into consideration the great amount of building already planned, the material required in the construction, and the advantages this Company will have in supplying same, there is no safer or more profitable investment than the stock of this Company. The par value of the shares is \$1.00 each; and a limited amount of the Treasury Stock will be sold at 85 cents per share.

Samples of the Concrete made by this Hydraulic Process, styles of the blocks, with cuts may be seen at the office of the "Ready-Made House Company," opposite the Masonic Hall. All are invited to call and get information. Parties who are considering building will do well to call at the earliest convenience, and get particulars of a special Discount Contract—a proposition that will be made to a limited number of persons who expect to build within from one to three years.
