

MR. PATCH IS NEW PROJECT ENGINEER

WILL SUCCEED MR. MURPHY—IS HERE WITH SUPERVISING ENGINEER HOPSON.

Supervising Engineer E. G. Hopson, of Portland, and W. W. Patch, Project Engineer at Orland, California, arrived in the city last evening. They left early this morning in company with Engineer D. W. Murphy for an inspection of the Klamath Project. Mr. Schlect, who was appointed to succeed Mr. Murphy as project engineer, will not be sent here, but Engineer Patch will be transferred from the Orland to the Klamath Project and will succeed Mr. Murphy. Mr. Patch is said to be a very capable engineer and is a comparatively young man. Mr. Murphy will remain here until his successor is fully acquainted with the work.

SERVICES AT THE CHURCHES.

Services will be held in the several churches of Klamath Falls Sunday as follows:

SUNDAY SERVICES

AT HURN'S HALL.

Morning subject: "The Case Against Christian Science." Afternoon Bible Study at 2 o'clock. Subject: "The Jew, the Gentile, and the Church of God." Evening service at 7:30. Gospel sermon. All are cordially invited.

Christian Science Services will be held in the Murdoch Building Sunday at 11 a. m. Subject: "Substance."

Grace Methodist Episcopal Church—Evangelistic meetings, conducted by Rev. Murrison, of Chicago, at Hurn Hall.

J. W. PRICE, Pastor.

Presbyterian Church—The Presbyterian Sunday School will be held tomorrow morning at 10 o'clock in Hurn's Hall.

Evangelistic meetings, conducted by Rev. Murrison, of Chicago, at Hurn Hall.

GEO. T. PRATT, Pastor.

Baptist Church—Evangelistic meetings, conducted by Rev. Murrison, of Chicago, at Hurn Hall.

REV. J. B. GRIFFITH, Pastor.

Church of Sacred Heart—Mass daily at 7:30; Sundays at 10:30 a. m.

MAY SELL IN FIVE YEARS.

The Secretary of the Interior has just issued instructions to the General Land Office which remove a difficulty that has been met in connection with entries under the reclamation act. In a circular of the General Land Office issued January 18, 1908, provision is made that after the requirements of the homestead law as to residence and cultivation have been complied with, the entryman or his heirs may make final proof of compliance with those requirements, after which he will be relieved of the necessity of residing upon the land.

The question arose whether, after having made such proof, the entryman could assign his interest in the land without forfeiting his right to a patent. It has now been decided that patent will issue in the name of the original entryman in the usual manner, after such final proof has been made, and upon proof that at least one-half of the irrigable area of the entry has been reclaimed, and upon payment to the proper officials of the government of the charges, fees and commissions which are due.

The City Council some weeks ago passed a resolution ordering the unused portions of the double street car track removed and declaring them a public nuisance. The track is still obstructing traffic. Mr. and Mrs. W. W. Baldwin, the "Newly Weds," arrived this evening from Portland. They were met at the boat and escorted to their new home in the Baldwin building. The wedding march was played with cowbells. Most everyone was there so they know all about it.

C. R. Miller, of McCloud, arrived in the city last evening. Mr. Miller is the photographer who secured a fine panorama picture of Klamath Falls last fall. He expects to take some other views of the Klamath country this summer and will probably locate here later in the year when he has finished his contract to supply views for the Alaska-Yukon-Pacific Exposition.

The government of the British East Africa Protectorate has prohibited any person experimenting with wireless telegraphy without a license from the Governor. A young French chemist has succeeded in producing artificial sapphires from melted alumina in much the same manner as artificial rubies are made.

A single body of iron ore in Lebanon County, Pa., has been mined almost without interruption since 1740.

A Connecticut paper mill has succeeded in making a tough paper with a fine grain from Texas sugar cane.

MOVE CAMP TO NEAR TULE LAKE

SOUTHERN PACIFIC SURVEYORS STEADILY WORKING SOUTH.

The S. P. surveyors, nineteen in number, who have been for some time past engaged in finding the most feasible route through this valley for the Modoc Northern, Harriman's new link in a grand trans-continental line, have completed their work, says the Merrill Record, to a point south of the Carr ranch, and on Sunday moved their headquarters from this city to the south end of Tule Lake.

The certainty that Merrill will be on the line of this new road gives to the people of this city a feeling of confidence and security as regards its future growth and prosperity. It has been fully realized that if the road should be built through this section and a rival town with the railroad's favor be established but a short distance away, it would be disastrous to property interests here.

This road will benefit Merrill and the surrounding country to an extent that cannot now be realized. It will place us on a great trunk line over which shipments may be made direct to and from the great centers of trade on either the Atlantic or Pacific Coasts, and we will be in direct contact with one of the greatest arteries of travel and traffic in the world.

Taken in connection with the advantages of this section, its richness of soil, its abundance of water for irrigating these broad and fertile lands the building of this road cannot help but make the Merrill and Tule Lake valleys the most desirable portion of the Pacific Coast in which to make a home.

AT THE OPERA HOUSE TONIGHT.

Entire change of pictures. "The Troubles of a Grass Widower," "The Dancing Legs," "Life on the Desert and Gnomes," or "The Dwarf's Love." New songs. A social dance will be given after the show by the Laam orchestra.

DR. GRAVES, OSTEOPATH.

My offices are located in the Page-Stratton building, corner of Main and Second streets, over Meiss & Armand, and beginning Monday morning I will be glad to meet those who are desirous of taking osteopathic treatments. Consultation free.

Some of the best positions in the county are held by I. C. S. students. Local headquarters in Frank Ira White's office.

CLAY HENNIS ENDS LIFE WITH POISON

YOUNG MAN BECOMES DEPONDENT OVER DOMESTIC DIFFICULTIES.

H. Clay Hennis committed suicide at 12:12 today by eating a large piece of cyanide of potassium. The deceased is a son-in-law of E. E. Jamison and was married to Elsie Jamison about a year ago.

Hennis purchased the cyanide of potassium at the Star Drug Store at 11:15 o'clock this morning, and said he wanted it to kill cats with. He was asked why he didn't give them chloroform and stated that it was too much trouble. Shortly afterward he started toward the home of his father-in-law where he had been living with his wife. He stopped at Mrs. Chappels and told her of his domestic trouble and said he was going to kill himself.

He then left and met Mr. Jamison at the corner below the house. His wife had previously told him that they had better separate and he told Mr. Jamison that he wanted to see her again. Mr. Jamison tried to persuade him not to, and told him he had better stay away and while they were talking Hennis bit a piece off the poison and began chewing it. He said, "Well, it is all off now." When asked what he meant, he said that he was eating poison and that he would soon be dead. He then sank to the walk. Mr. Jamison started to run to the house to telephone a doctor, but Hennis first stopped him and gave him a letter to the Coroner.

He ate the poison at twelve minutes past twelve and was dead at 12:24 a few minutes after Dr. Hamilton, who was summoned, arrived. The letter was addressed to the County Judge and stated that he was a poor man without money and asked that the county look after his body. He said that he was not insane, but that his net was due to domestic troubles, and that his wife was all he had to live for and if he couldn't have her he didn't want to live.

Clay Hennis is a young man who has worked for surveying parties as a chainman. About 8:30 this morning he agreed to go out with Mr. Zumwalt and a party tomorrow. It is said that he was a good worker but did not work steadily. He would quit a job after working a few days or weeks, and therefore was unable to support his wife independently, and when not traveling from one place to another they lived with her parents. As this was not very satisfactory he and his wife decided to separate for the present until he could do better and provide for her.

A NEW ENTERPRISE.

Perhaps few of our readers know of the plan, somewhat recently devised by an old and reliable Pacific Coast institution, whereby there is furnished in one contract and for one price a combination of life, health and accident insurance, with a guaranty of substantial yearly cash allowances for total and permanent disability, whether this arises from sickness or accident; a weekly indemnity for temporary disability and an old age pension after the contract matures. There are in addition all the modern features found in any reliable eastern company, and the cost is within the reach of all. This is certainly extending the benefits of insurance as far as any one could reasonably ask, and indicates that the day of genuine insurance reform has arrived. Terms for these contracts or for agency work are furnished by C. M. Wood, Manager of the Pacific Mutual Life Insurance Company, Marquam Bldg., Portland.

BONANZA BULLETIN ITEMS.

Spring must be here as it is a sure sign when the suckers commence to run. George Maxwell was down to the Big Springs Tuesday morning and pulled out six large ones and says that he is now going to have fresh meat for the next ten days.

Born—in Bly, Oregon, March 4, 1909, to Mr. and Mrs. James Edsall, a nine pound son. It is said that Jim is wearing a broad smile and is a few inches taller and that the boy will be named Taft, in honor of the President's inauguration.

Here is a question asked by many and would like to have some one answer it. Why is it that an Indian can come to Bonanza and get whisky and a white man cannot? Tuesday a couple of the red men here loaded with a good jag and when asked where they got the liquor said, "Me Injun get all whisky I want. What's the matter, you no Injun."

GOVERNMENT GETS PRIVATE DITCH

WILL FURNISH WATER TO THE LANDOWNERS UNDER THE VANBRIMMER DITCH.

Government Engineers Murphy and Helleman were in Merrill several days the past week and while there made arrangements with the shareholders of the VanBrimmer ditch company to furnish from the South Branch canal 50-second feet of water.

This will be amply sufficient to irrigate the five thousand acres of land now covered by the VanBrimmer ditch obtaining water from Lower Klamath Lake through a channel cut for that purpose.

The South Branch canal carries water from Upper Klamath Lake, which will be turned into the VanBrimmer ditch from the government headgate and doing away with the channel to the lower lake.

The cost of water will remain the same as at present, the shareholders only giving up their right to the cut from the lower lake.

The cost of water to the farmers under the VanBrimmer ditch has been merely the small sum for maintenance, and this will be lessened by removing the necessity of having to keep the channel to the lower lake dredged out.

MORE GOVERNMENT JOBS.

Big Force of Agents to Be Put on by General Land Office.

WASHINGTON, March 12.—Under the appropriation of \$1,000,000 made in the recent Congress for investigating land entries in the West, Commissioner Dennett, of the General Land Office, is preparing to hire an additional force of 200 special land and timber agents. An effort will be made during the coming fiscal year with this increased force to clear up all suspended land entries and investigate all new ones, so that there will be no undue delay in granting patents.

The new agents to be appointed will be required to pass examinations testing their qualifications as land and timber experts.

CARD OF THANKS.

Mrs. J. W. Masten and family wish to extend their heartfelt thanks for the sympathy and help extended to them in their late bereavement, when death claimed a companion and father.

Your Easter Suit

Easter falls on Sunday, April 11th, this year. It is the day of all days to show fine plumes. The time to prepare is NOW. Let us make your clothes for you and you will be absolutely certain of satisfaction in every particular.

GOODS, WORKMANSHIP, FIT, and PRICE

WE HAVE ALL THE TRIMMINGS TO GO WITH FINE CLOTHES — FURNISHINGS, HATS, SHOES, ETC., IN THE NEWEST OF THE STYLES.
