PERT PARAGRAPHS.

The sorrows of others are light-weights compared to our own. That's why we bear other people's so jauntily.

The man who goes about pitying himself should hire a pugilist to give him cause.

A fair sprinkling of contented people makes a rain of harmony.

Eating soup with a fork is a most exasperating way of doing nothing.

Probably the reason men find it hard to understand women is because they cannot speak the language.

The freer a man is with his money the more open to suspicion he is that he came by it free.

There are people who mind their own business and don't seem to mind it at all.

There are some men so queer that they would rather be married than happy and contented.

Baffled Then.
"You think you understand women?"
"I know I do."
"In every instance?"
"Well, I understand them except when they try to sing. Then I would defy a language expert to understand most of them."

Calls Meet of Them.
"When I put my hand to the plow I don't turn back."
"I would hate to see you tried out on a just as the dinner bell rang."

CONTEST NOTICE.

Department of the Interior, United States Land Office, Lakeview, Oregon, March 4, 1909.

A sufficient contest affidavit having been filed in this office by James E. Adcock, contestant, against homestead entry No. 3519 (Serial No. 9553), made Nov. 6, 1905, for 8 1/2 SE 1/4, Sec. 19, N 1/2 NE 1/4, Sec. 20, Tp. 29 S., R. 11 E., by John A. Castell, contestee, in which it is alleged that said Castell has totally abandoned said land for more than six months past and continues now to abandon the same, and has never established residence thereon or cultivated any portion thereof, and the defects herein set forth continue to this date, and that said alleged absence from the said land was not due to his employment in the Army, Navy or Marine Corps of the United States as a private soldier, officer, seaman or marine during the war with Spain or during any other war in which the United States may be engaged.

Said parties are hereby notified to appear, respond, and offer evidence touching said allegation at 10 o'clock a. m. on April 16, 1909, before R. M. Richardson, U. S. Hydraulic Stone & Brick Company

HYDRAULIC STONE & BRICK COMPANY, organized, and to be incorporated under the laws of the State of Oregon, with a Capital Stock of \$35,000.00, for the purpose of manufacturing Concrete Building Blocks, and all materials for Concrete Buildings and Concrete Work; and also to make Concrete Brick, and Pressed Brick, all by the latest improved Hydraulic Machinery.

This Company has purchased from the American Hydraulic Stone Company, the concrete machinery and equipment, with exclusive rights for Klamath County, for making concrete building materials by hydraulic pressure—the only process of making TRUE CONCRETE STONE. What is meant by True Concrete, is the uniform compactness of the concrete material in the finished product.

The Hydraulic Machinery is so constructed that One Hundred Thousand (100,000) pounds pressure is put upon each block. The face of the regular size blocks is 24 by 24 inches, and are so compact when finished that in breaking a piece with a sledge hammer, the hardest stones in the material, one inch in diameter, will break before the concrete around them releases. The enormous pressure fills every void.

With this material and system of Concrete Construction, the walls are bonded in every direction, and being from 30 to 60 per cent hollow—air circulation both vertical and horizontal, making an absolutely dry concrete wall. For over seven years buildings by this system have been constructed, in different parts of the country, and there has never been a damp wall. Fire proof buildings will be constructed by this system, at one third, or more, less than with brick.

The daily capacity of each Hydraulic Press Machine, is equal to 27,000 brick—filling same space, sufficient for a building 20 by 25 feet square and 10 feet high.

This Company will install all new and the latest types of improved machinery: Hydraulic Presses, Crushers, Mixers, Pressed Brick Machinery, Screens, Elevators, Trucks, Cars and all equipment necessary for practical and perfect operation, for turning out the very best class of work at right prices. The combined works will employ a great number of men.

For a very nominal consideration this Company has secured the most desirable location and factory site to be had, in, or near Klamath Falls, consisting of three acres of land, near the landing on the Upper lake, with a 30 or 40 foot landing, and a right-of-way from factory and works to the landing. This property contains the very best material for both Concrete and Brick, and the Company will soon be prepared to turn out these materials at as low cost as can be done in any part of the country.

DEMAND FOR CONCRETE MATERIAL AND BRICK; BUILDINGS TO BE CONSTRUCTED THIS YEAR

It was only after a very careful investigation of the demand for Concrete and Brick, that this Company decided to put in an extensive plant in Klamath Falls. At present there are calculations and preparations being made for fifteen or twenty good business houses to cost from \$5000 to \$20,000 each. A large public school building for the West End will soon have to be built. The new Court House is going to be built. The passenger depot and many other railroad buildings, will go up this year. Sidewalks will be put in. Residences will soon be going up with our two piece, hollow wall (dry wall) Concrete Blocks.

Taking into consideration the great amount of building already planned, the material required in the construction, and the advantages this Company will have in supplying same, there is no safer or more profitable investment than the stock of this Company. The par value of the shares is \$1.00 each, and a limited amount of the Treasury Stock will be sold at 85 cents per share.

Samples of the Concrete made by this Hydraulic Process, styles of the blocks, with cuts may be seen at the office of the "Ready-Made House Company," opposite the Masonic Hall. All are invited to call and get information. Parties who are considering building will do well to call at the earliest convenience, and get particulars of a special Discount Contract—a proposition that will be made to a limited number of persons who expect to build within from one to three years.
