As a means of identifying aliens who come to this country, Fourth Deputy Police Commissioner Woods suggests that the Federal authorities take moving pictures of every immigrant admitted to this country. Immigration Commissioner Watchorn has the matter under advisement. The recent assassination of Police Lieutenant Petrosino in Palermo has resulted in a renewed activity against the entrance of undesirable foreigners, particularly Italians. It is pointed out that the moving pictures could be easily taken as the immigrants filed by singly and that there would be no difficulty in obtaining both a profile and a front view.

Three-quarters of a Century

has about passed since the first Friend Made Clothes were offered to the public. Experience is the best school and we are inclined to think that no other clothes have as much knowledge put into their making.

We are fortunate in being the only ones who can offer these garments to you and if we do say it, you are fortunate in being able to obtain such clothes in this city. Some clothes are almost as good—some are claimed to be as good—but we've never heard any one claim to know of better ones.
