

NEW SENT TO CLEAR LAKE

PREPARATIONS FOR BEGINNING WORK ON BUILDING DAM.

Machinery Can Be Secured At Once, Work Will Be Prosecuted Immediately—Hope Is High All Over the Project.

A small crew have been sent to Lake to make preparations for beginning work on the dam. Specifications are being prepared and bids for furnishing dump cars, and other necessary equipment for the work. If the machinery market is such as to permit of immediate delivery of equipment, work will be prosecuted at once. It had not been for the difficulty in the Water Users Association and the Reclamation Service, these could have been advertised for some time ago and the probability that the machinery would have been here and the work would have been going on for the past three weeks. Some valuable time has been lost unless the unexpected happens there will be something doing on the upper project during the summer.

A very harmonious feeling is now prevailing throughout the entire project especially in the upper country. The new project engineer, to be disposed to do everything in his power to further the work on the dam and help the land owners in this disposition is meeting the approval of the people, who are anxious for perfect harmony and a friendly feeling between the Service and the land owners.

Mr. Ego is in the city from Portland to arrange for securing machinery from the Government canal project. Mr. Ego states that the farmers of a part of the country are all getting in their crops, and they are now ready for water. The general opinion among the farmers is that the crops will be better this year than last and they are all looking for a big yield. Improvements on the land being made in the Merrill country and considerable additional will be put under cultivation.

ABSTRACTS. Do you need one? HANON & SLOUGH. First door on Main street.

GROW APPLES AND POTATOES

Elmer Applegate Expects To Surpass His Success In Potatoes Last Year, On Which He Made \$400 An Acre—Ideal Conditions Here.

Elmer Applegate, who owns 17.4 acres in the Enterprise tracts, is setting out one acre in apples this year. He does not expect to go heavily in the growing of fruit, although he believes it will do well here, but it is only his intention to set out a home orchard for his own use. Mr. Applegate will plant six acres to potatoes and expects to have even a better crop this year than he had last. Last year he averaged a profit of \$100 an acre on his potatoes. They averaged a yield of 800 bushels an acre. A portion of the average yielded 400 bushels per acre. One small patch planted by Mr. Applegate yielded an average of 700 bushels to the acre. This is believed to be the record yield in his county. This would make 42,700 pounds to the acre, or one pound of potatoes to each square foot. This is certainly growing them pretty thick, but Klamath is the place where things grow.

Mrs. H. V. Mitchell and son, Willie, returned this evening from San Francisco.

Allen Sloan is assisting the Klamath County Abstract Company this week in their rush of work getting out abstracts for the land owners under the irrigation project.

A piece of steel a half inch long and a quarter of an inch wide saw from a wedge this morning and truck S. P. Sorenson in the arm. Mr. Sorenson was working for H. H. VanValkenburg near Long Lake. He was brought to this city and the piece of steel, which embedded itself in the bone, was removed by Dr. White.

A HOME FOR YOU.

An eight room dwelling on a lot 75 by 120 feet, level ground and good soil, on First street, one block from Main. For sale at a real bargain. Save commission by buying direct from the owner. Roy Hamaker.

N. S. Merrill is in the city today on business. Mr. Merrill says that things are a little dry in the Merrill country, but not enough to cause any harm. Most of the land owners in that section will soon be ready for irrigation water.

\$5.00 will buy \$10.00 worth of goods at the Boston Store.

TURN WATER INTO CANAL

IRRIGATION DITCH RECEIVES SMALL HEAD OF WATER TODAY.

No Water Will Be Delivered Until Applications Have Been Made—Water Users Must Provide Abstracts of Title.

Water was turned into the big Government irrigation canal today. A small head will be used until the ditch is primed and then the regular irrigation season will be on.

As yet only about twenty applications have been made for water, and as there are several hundred and owners, it is probable that the applications will soon begin to come in a very fast. According to the regulations, no water will be delivered until an application has been made and a contract signed. In order that the applications may be approved, each land owner must furnish an abstract of title of his land, which must be passed upon by the attorney for the Water Users Association, R. S. Smith.

ADAMS CLEARING OFF SAGE BRUSH

His New Grabbing Machine Proves a Success—Cleans Five To Seven Acres a Day with Six Good Horses and Cuts From 3 to 6 Inches Deep.

J. F. Adams, who is in the city from Merrill, thinks he has one of the best sage grubbing machines in the country. Mr. Adams recently purchased one of the Steel patent machines and has been operating it for about two weeks.

Mr. Adams uses six horses on the machine and says he can grub from five to seven acres a day and leave it clean of brush. The brush is cut off at the roots about three to six inches under the ground. The machine can be adjusted to cut at different depths. With the small brush three inches is about right and for the larger about six. Besides cutting the brush the ground is left in a pulverized condition and could be planted in grain without further plowing. The loose brush is turned over by chains connected with the machine and as soon as the dirt dries from the roots, can be raked up with the ordinary rake.

Mr. Adams will grub about six hundred acres this year. He was late in receiving his machine, but he can do a good deal of work this fall. Then the brush will quickly dry and can be burned without hauling it from the land.

A SALE OF NEW SPRING HATS.

We wish to emphasize in particular that these hats are modeled after the designs of the highest-priced style originators in the country. Not a last season's shape or old-style hat in the collection. Portland Clothing and Shoe Store, Next door to Postoffice. 12-3

HAT SALE STILL CONTINUES.

Owing to the fact that our Hat Sale has been more successful than we expected, has proven to us that the public has not considered this sale a "Bunco Sale"—as some of our competitors saw fit to call it. In order to give our customers who were turned away Friday and Saturday—we not being able to wait on them, being so rushed—we will continue this sale this week. Portland Clothing and Shoe Store, Next door to Postoffice. 12-3

Half has never been told regarding the future prospects of Midland. See Campbell when he is not busy.

All kinds of sewing machines for sale or rent at Slinger Agency. Phone 254. 2217

MUCH FREIGHT FOR MERRILL

NEARLY ONE HUNDRED TONS RECEIVED HERE FOR MERRILL MERCHANTS.

Freight For That Section Will Soon All Be Shipped To Midland, and Will Only Leave a Short Distance To Be Hauled By Wagons.

Between 75 and 100 tons of freight have been received at the Navigation Company's wharf within a week for Merrill merchants. For years the Merrill merchants have been hauling their freight in from the south by wagon. It came by way of Montague and later was hauled from Mt. Hebron. This year, however, practically all of the freight for the Merrill country is shipped via Klamath Falls. Within a month the railroad will be running to this city, and Merrill can get her freight from Midland. This will necessitate only a very short haul by wagon.

FOREST RANGERS APPOINTED.

PORTLAND, Oregon, April 14.—The Forest Service has just announced the following appointments on National Forests in Washington and Oregon districts:

Guy P. Smith, Assistant Forest Ranger on the Washington National Forest; Sherman A. Brown, Earl Abbott, Carl M. Ewing and Gaines H. Looney, Assistant Forest Rangers on the Fremont National Forest; Martin J. Gribble, Clarence L. Jensen, F. W. Stahlman, Marion Jurlingame, O. S. Callison, George Ledford and O. M. Talmage, Assistant Forest Rangers on the Oregon National Forest.

Theodore F. Cadie has been restored to duty on the Fremont National Forest; Deputy Forest Ranger John E. Senecal and Assistant Forest Ranger Roy E. Thomas, who have been restored to duty on the Oregon National Forest; James Allen, Assistant Forest Ranger, who has been attending the rangers' course at the University of Washington, has been restored to duty on the Washington National Forest.

The resignation of Maurice Hamilton, Assistant Forest Ranger on the Washington Forest, has been accepted.

CALHOUN JURY SECURED.

SAN FRANCISCO, April 13.—Otto H. Mackroth, a retired grocer, was sworn as the twelfth juror in the case of Patrick Calhoun today, and the jury, after proceedings extending over ninety-one days, was declared completed. Assistant District Attorney Francis J. Heney immediately made application to the Court for the selection of a thirteenth juror, who shall be in readiness to take the place of any of the twelve who may be disqualified by illness or some other reason. The request was earnestly opposed by counsel for the defendant, who declared it might consume another week to secure the additional juror.

It was agreed by the opposing attorneys that the actual taking of testimony would probably be completed within three weeks, and the prediction, which was not altogether expected, was received with gratification by all the principals in the case.

AT THE OPERA HOUSE

NEW TONIGHT. "The Criminal's Daughter." "Ticklish Man." "Captain Molly" and "Dr. Curoon's Patients." New songs.

Fence posts for sale. Call at City Bakery. 12-61

Why buy property and pay what it will be worth three years from now? Buy First Addition lots at fifty per cent of their actual present value—then you can't lose. Hall-Shepherd Co.

DR. GRAVES, OSTEOPATH. My offices are located over the postoffice, in the Murdock Block, where I will be glad to meet those who are desirous of taking osteopathic treatments. Consultation free.

TO HAVE BIG CELEBRATION

Directors of Chamber of Commerce Met Again Last Evening and Hear Reports—Committee Appointed To Raise Funds.

The directors of the Chamber of Commerce and committee members held a meeting last evening to take action on the celebration for railroad day. It was decided to hold a big celebration, and some of the attractions recommended by the committee were excursions on railroad and boat, water carnival, barbecue, base ball games, parades, fireworks, Indian exhibitions, etc. The details of the celebration will be left in the hands of a competent committee. Frank Ira White and Alex Martin, Jr., volunteered to act as a committee to solicit funds to pay the expenses. It is expected that every business man and citizen will help willingly, and voluntary contributions should be offered, as the committee will have all it can do and will necessarily have to spend a lot of valuable time. The people have expressed themselves as wanting a celebration, and now should show good faith and the proper spirit by coming through without waiting to be asked and having someone argue the matter with them for hours. Let everyone give willingly. That is the spirit.

LOOKS AS IF JOKE WAS ON "SLATS"

Laughed At Merrill Officials and Is Now in the County Jail Awaiting Consideration of Case By the Grand Jury.

Thos. Brickell, who is better known as "Slats," was today committed to the custody of the sheriff on a charge of attempted arson at Merrill. Brickell was brought up from Merrill by Marshal F. M. Durham. It is said he was arrested at Merrill for fighting, and, falling to pay his fine, was put to work on the streets, but he refused to work. He was then put in jail, which he attempted to burn.

Brickell evidently thought he knew more than the Merrill officers and he only laughed at them and caused them as much trouble as he could. The officers tried to find some plan of getting rid of him, and finally brought in a charge of attempted arson of a building, and committed him to the custody of the sheriff to await the action of the Grand Jury. It is not as much of a joke to "Slats" now, as he has been placed in the county jail and will be handled by the state officers. Brickell was elected constable in this precinct at the last election, but failed to qualify, as he was unable to furnish bonds.

WAS ON "SLATS"

We have said and we still maintain that First Addition lots at our prices are the best investment ever offered in Klamath Falls. Hall-Shepherd Co.

IF YOU WANT GOOD GOODS AT LOWEST PRICES EVER HEARD OF, GO TO THE BOSTON STORE.

Now is the time to have your clothes cleaned and pressed. We will take out the grease spots and make the clothes look like new. Clothes called for and delivered. Prices reasonable. Geo. W. McLane at the Pantatorium. 13

Snappy Clothes

There's plenty of "go" in the clothes made to your individual measure by

Strauss Brothers, Master Tailors, Chicago.

The vim and snap are due to two things—the pattern of the cloth and the style cut and sewed into the clothes. Just drop around to our store and look over our extensive collection of the season's most artistic weaves. You'll be welcome whether you order or not.
