Miss the Easy Road.
Two young exponents of the strenuous life on Broadway were sitting in a hotel lobby the other evening discussing their plans for making some "big money" in the future. One of them confessed that his salary was "only \$40 a week," and he was having a hard time of it in keeping the wolf from the door. Biting near them was an old gentleman who overheard their conversation and was evidently interested. "You fellows are making the mistake of your lives," the old gentleman said at last. "You are chasing the will of the wisp while you have the means of wealth within your grasp. Why, I'm considered pretty well off financially, as you both know, and I never received a salary of \$15 a week in my life. But I saved money when I was your age, and I found opportunities for investment that soon put me out of the salary class and made me a business man on my own account. The trick with young fellows nowadays is that they can't see the opportunities that are given them. They have their eyes glued to the pet-ri-b-pick-the-salt-trail that they pass by the only sure route to wealth."—New York Globe.
