

## ENGINEER HEIDEL SPEAKS OF ADVANTAGES OF ROAD

### Formal Reception Given to Government Official and Members of Crater Lake Commission and County Board

Formal reception was given Tuesday at the office of H. L. Heidelberg, Engineer of the Department of Agriculture. There were present Dr. J. M. Keene of Medford, J. H. Baldwin and L. F. Willis of Crater Lake Road Commission, and all of the directors of the Chamber of Commerce, County Judge Griffith, Commissioner S. T. Summers and several prominent citizens.

The purpose of the meeting was to give Engineer Heidelberg an opportunity to get acquainted with some of the officials of the Crater Lake road commission. Heidelberg gave a very interesting talk on the possibilities and advantages of the road. He expressed the opinion that a macadamized road would not be the best for automobile travel, as it would not stand the wear of the machines. Mr. Heidelberg is a man of wide experience in road building, and has been interested in the building of some of the best roads in California and other States.

The consensus of opinion, as expressed by Judge Griffith and Dr. Keene, seemed to favor keeping within the limit of the appropriations in building the road, and insisting on estimates being made to build the road rather than a portion. It is believed best to put the road in place for travel, and if any improvements are found to be necessary later they can be secured for that purpose. From the expressions of Judge Griffith and Mr. Summers, it is apparent that the County Court will be ready to do their share in making appropriation as soon as the route is definitely settled on.

There seems to have been considerable opposition developed to building the road on the west side of the lake. It is argued that it will be necessary to keep a road open between the city and Fort Klamath, and that the east side of the lake would accommodate the most people. This is a matter which will be considered by Heidelberg as soon as he has had an opportunity to go over the different

routes, and his recommendations will probably be accepted. Mr. Heidelberg left today for Spring Creek as the guest of the Chamber of Commerce, where he will have an opportunity to get acquainted with some of the attractions for tourists with which Klamath county abounds.

### TROUBLE WITH FREIGHT.

#### Merchants Make Trouble for Agent By Giving Orders to Both Transfer Companies.

Mr. Thompson, the Southern Pacific agent, states that he is having some difficulty with the delivery of freight, due to the lack of understanding on the part of the business men. Occasionally, when freight is delivered by the transfer men, the merchants refuse to pay for it on account of some error in the bill. This is no fault of the transferers, and the correction must be made through the railroad company. The freight has to be paid before delivery, and if there is any error there will be no difficulty in securing an adjustment.

Another thing that is complained of is that the transfer companies give both of their freight. This only mixes matters and causes no end of trouble for the agent. The merchants should do business with one company at a time and then they will have no trouble in getting their freight promptly.

### A BAD GUESS.

A lady, passing along the street one frosty morning, saw a little fellow scattering salt upon the pavement for the purpose of melting the ice.

"Well, I'm sure," said the lady, "that's real benevolence."

"Oh, no, ma'am," he replied, "it isn't benevolence—it's salt."

## FOREST SERVICE RETARDS THE SETTLEMENT OF NORTHERN PART OF KLAMATH COUNTY

Charles Graves of Northern Klamath county, who has been in the city the past few days after a load of supplies and taking in the celebration, left today on his return to Odell. Mr. Graves states that the roads are in very good shape, and that he was able to make the trip from his home to Naylor in two days. He states that the people of his section still have to be content to receive their mail by way of Lakeview, which takes from a week to ten days for a letter to reach them from Klamath Falls. He made an effort last year to get a mail route from Fort Klamath, which is the most direct

route. The department notified him that it would first be necessary to have postoffices established along the proposed route, so he took the matter up with the people at Fort Klamath and tried to get them to circulate petitions among the residents along the Klamath Marsh. Evidently the Fort people did not think it was worth while, but it would have brought all the trade of the northern part of the county to the Fort.

Mr. Graves states that the forest service has greatly retarded the settlement in his section of the county. There are a large number of acres of good agricultural land included in the

reserves, and that in the majority of cases the homestead applicant has been turned down. This has had the result of discouraging settlement, and has been a great drawback to the development of this very important section of Klamath county. Mr. Graves is heartily in accord with the policies of Secretary Ballinger, and has great hopes that in the near future the efforts and labors of the pioneers will receive their reward, and that Northern Klamath will become known to the world and will receive the attention that the richness and value of its lands and timber justify.

### TENNIS TOURNAMENT.

#### Wiley and Wilson Will Play Finals to Decide Which Will Make Fight for Trophy.

The wet weather interfered somewhat with the second annual tennis tournament, although the preliminary games were all played and it is expected that the finals will take place tomorrow.

In the preliminary sets, best two out of three, W. J. Barclay won from C. E. Widdowson, C. M. Snow won from Barclay; Wiley won from Snow and Burge Mason, H. G. Wilson won from Van Riper, W. H. Mason and Vincent Yaden. The finals will be for three out of five, and will be between Wiley and Wilson. Henry Crosby, the winner of the cup last year, was here to defend his title, but on account of the uncertainty of the weather left this morning for California. The winner of the finals between Wiley and Wilson will undoubtedly give Mr. Crosby an opportunity to defend the cup, and the game will probably be played here whenever Mr. Crosby can find it convenient to come here.

W. S. Wiley was one of the players in last year's tournament, but he has shown a wonderful improvement. One of the most interesting sets was that between him and Mr. Snow. Mr. Snow is from Portland and is a graduate of the Oregon University, and also a member of the Multnomah Club. He put up a strong game, but was defeated by Wiley. Mr. Wilson has also improved over last year, and the game with Mr. Wiley is looked forward to with interest, and it promises to be exciting. Mr. Wilson is a hard player, and it takes a good man to follow his pace and keep in the game with him. Mr. Wiley is very active and plays a fast, yet safe, game.

### HER MIND WASN'T VACANT.

A Sunday school teacher, who had a prominent chin, long and peculiarly projecting, was trying to interest a class of girls one Sabbath in the lesson. All were mischievous and restless, except Mary, who sat at the end of the class and apparently gave the utmost attention to every word. The teacher was delighted. At the close of the recitation, thinking that she would rebuke the naughty girls for their want of attention and lack of interest by stating that she would now ask Mary to name some of the points brought out in this lesson, was shocked by Mary suddenly and unexpectedly answering: "Oh, Miss Lizzie, I really did not hear a single word you said. I was wondering how you could talk so much without moving your lower jaw."

### A VALUED POSSESSION.

My little sister, three years old, had a peach given her which was the first she had ever seen.

When I saw it, I went up to her, and taking the peach from her, took a bite out of it.

Immediately she began to cry, and I asked what she was crying for.

"I wanted to keep that little woolen apple," was her reply.

Ladies, have you seen the Harrington Washing Machine? Call E. F. Allen, Marshall House. He will come and do your washing free. Try it. 1

### NATURE IS GENEROUS.

#### Both Sunshine and Rain Furnished at the Time When Most Desired and Needed.

Nature has been generous to Klamath county this year, and the farmers are now joining with the citizens of Klamath Falls in rejoicing. The people of Klamath Falls were praying for pleasant weather for their celebration. The country needed rain, and rain would have ruined the weeks of hard labor of the Chamber of Commerce and lost the county an opportunity for the greatest advertisement it could have had.

The weather on Railroad Day was ideal and the people were happy. The much needed showers began Tuesday, and the farmers were happy, and thus everyone was happy and contented. Reports from the country are to the effect that the rain was general throughout the entire county, and this means that Klamath county is assured of a banner crop this year. The grain and crops were just far enough along to get the full benefit, and Klamath county can look forward to one of the most successful years in its history. With the crops well advanced, the moisture will be retained in the ground for some time. There is about three times the amount of land in cultivation this year than last, and a great portion of this extra land is in grain. This will mean a busy year for the flour mills.

### DECOY EGGS.

John, aged six, was sent by his mother to the chicken-coop for some eggs. He soon returned with the report:

"There ain't no eggs in the nests at all, 'cept the ones they copes 'em."

Try the Harrington Washing Machine. You will like it. 1

### FOR SELLING WHISKEY.

#### Two Chinamen Get in Trouble for Furnishing Whiskey to Indians on Railroad Day.

George Pon and Pen Grant, Chinamen, were arrested Monday for selling whiskey to Indians, and Kildie Ahlquin and Jimmie George, two Indians, were held as witnesses. At the preliminary hearing Pon Grant was released on \$100 bail and he immediately skipped the town, leaving the county \$100 to the good.

The hearing of George Pon was held today before Justice Miller. As his main evidence was against Grant, and the Indians refused to testify, an was turned loose for the present. It may be possible to gather sufficient additional evidence to bring the matter before the Grand Jury. It is stated that two five-gallon kegs of whiskey were delivered to the Chinamen, and that one of them had been emptied, the whiskey being sold to Indians. Deputies of the Sheriff's office had been watching the place or several days, and they were somewhat discouraged at the result of the case.

### RULES FOR FRUIT PRESERVING.

To insure success in canning, jelly-making and preserving, vegetables and fruit must be used when just right. Fortunate the housekeeper who can pluck from her own orchard or garden and fill her store-closet shelves with fruit ripened on its native soil.

Fruit for "doing up" should never be over-ripe. If fresh picked, it should be gathered the night before when dry, for fruit covered with dew or wet with rain will not keep well. Few housewives attempt to can vegetables, but the difference in taste and grocery bills more than repays the trouble. Thorough sterilization of cans, rubbers, covers and the fruit or vegetables in process of cooking are the sureties of success in canning.

Jelly is made from fruit juices, and as "a pint's a pound, the world around," the same proportion of sugar applies as for most preserves, save when the fruit is sweet, then three-quarters of a pound to a pint of juice is sufficient. One of the secrets of having fruit "jelly" quickly is to have the sugar spread on a platter and heated in the oven before it is added to the boiling juice. Then, if currants or other fruit are at the right stage of ripeness, a few minutes' boiling will produce a firm, clear jelly. Under-ripe and over-ripe fruit will not make good jelly because they do not contain a gelatin-making material found in ripe fruit. The ripeness of a pineapple may be tested by pulling its leaves. If they do not pluck readily the pineapple is not fit to use.

Jelly should not be stirred more than is necessary to have it clear and prevent granulation of the sugar, but marmalade and preserves, on account of their tendency to settle and burn, must be stirred frequently.

## TWO PARTIES HAVE VISITED CRATER LAKE ALREADY

### Snow Will Soon Be Gone In National Park and Tourists Will Begin Flocking to View Oregon's Wonderful Lake

### SWARTZLANDER IS PROMOTED TO AGENT.

E. L. Swartzlander, former chief clerk under Superintendent Wilson of the Klamath Reservation, has assumed his new position as agent of the Umatilla Reservation. Mr. Swartzlander left for his post the first of the week. He was strongly recommended for the position by Mr. Wilson, who speaks in very high terms of his ability and fitness for the position. Mr. Swartzlander was appointed to succeed Mr. McPartridge, who was transferred on account of a difficulty with the department.

### BONANZA AND INDIANS TIE.

The Bonanza and Klamath Agency teams attempted to carry out the schedule arranged for the ball games yesterday, and although portions of the grounds were still wet, a very interesting game was given.

Bonanza was in better trim than on Sunday, and put up a game that would have made the Coyotes go some. The Indians boys also did good work. The game had to be called before the last inning was played on account of rain, with the score a tie—5 to 5.

### HE COMPROMISED.

Boyd always stuck to his convictions. One day he said, "Mother, I see a needle on the floor." When she said, "No, it is a pin," the argument began. Finally Boyd hopped from his mother's lap, and upon picking up the pin exclaimed: "Oh, see! It is a needle with a hat on!"

### AND SO IT DOES.

My little girl in the early stages of her education asked me what a, e, i, o and u were. I told her they were called "vowels." With a look of astonishment, she replied: "Mother, I think they should be called stomachs; hat other word sounds vulgar."

Lost—Between Eleventh street and the Livermore Hotel, a pair of spectacles, with one bow gone; in case. Finder will leave at Livermore Hotel and receive reward. Mrs. Rohm.

### REPORT FOR THE CHILDREN.

The merry-go-round is doing a land office business these days. All day Monday and Tuesday the machine was kept on a continuous run, and every time it stopped to unload there was a scramble for seats. The children have been having the time of their lives, and many older people have also enjoyed a ride on the wooden horses. Messrs. Bower and Hoaglan, the proprietors, announce that they will remain here for two weeks in order to give all an opportunity to enjoy this popular pleasure.

Lost—On circus grounds, a long, gray purse, containing change in silver. Finder will please notify this office.
