### WOULD TRADE IN KLAMATH.

(Continued From First Page.)

Klamath can be made the distributing point for these people with but a little effort.

"Water can be secured throughout this section at from six to twelve feet, and it occurred to me that it would be an excellent point at which to do missionary work. Our local merchants and hardware dealers ought to send salesmen into that section and get the business. Pumping plants and machinery of all kinds can be sold there, and the time to make the start is now. But first let us fix the road."

County Judge Griffith was seen by a representative of The Herald, and, after explaining the situation to him, he was asked what the County Court would be likely to do. "We will do all we can to get the business," he said. "Of course, we are limited, on account of the road being within the reservation, but we will do something to fix the highway to make it a passable artery for the commercial welfare of this city. The County Court realizes as much as anyone else that to make this a city we must do business with the outside country, and to do this business we must have roads that are at least passable. We will spend a reasonable amount of money on this road to the Christmas Lake and Fort Rock country and give such other assistance as we can to get the settlers there to do business in Klamath Falls."

All freighting is now done through Shaniko. The trip requires seven days and is over one of the most desolate sections in the State. The trip to Klamath Falls can be made in half that time and through one of nature's gardens. Ample feed can be found all along the route and plenty of pure spring water is always at hand. This in itself would be enough to cause a change without the big advantage in time and mileage saved by coming to this city.

### EASTERN OREGON WANTS TO SECED.

Getting Tired of Being Taxed For the Benefit of the Western Part.

LAKEVIEW, Ore., June 24.—There is a growing sentiment in Eastern Oregon in favor of seceding from the western portion of the State and forming a new State. The seed was sown some time ago and well sprouted. It is being industriously cultivated in this and other portions of the dissatisfied portions of the State.

The cause of the discontent is the feeling that beyond the collection of taxes, there is too little interest taken by the better developed half in the other section. It is a frequently repeated remark that Portland, the big city of the State, takes too little interest in Eastern Oregon, and gives its attention chiefly to boosting sections that are already well advanced.

### NINETY-NINE DEAD OR INJURED IN MINE.

WEHRUM, Pa., June 24.—As a result of an explosion in mine No. 4 in the Lackawanna Coal and Coke Company here to-day, three miners are known to be dead, six fatally injured, 25 seriously, while it is feared that 65 men, believed to be still in the mine, may be burned to death.

The mine is burning fiercely in several places and deadly black damp is pouring from the mouth, effectually preventing systematic rescue work.

Large quantities of oxygen and many oxygen tanks have been requested from the Cambria Steel Company of Johnstown, Pa., and the United States government mining and testing station at Pittsburgh.

### AT THE OPERA HOUSE.

Entire change to-night. "The Iron Worker," a dramatic story taken from life in the great rolling mills; "Test," a beautiful colored picture; "Suffragette's Dream," a woman dreams that woman's rights had become a law, and the female sex had control of the government, wakes up and is glad it is a dream. New songs.

### TRAP SHOOTING CONTEST.

A trap shooting contest will take place Sunday afternoon at 1:30 o'clock at the new trap grounds. The grounds are located west of the Altamont road, near the railroad crossing. Free for all. All sportsmen invited.
