Football as Played in Labrador. One must not imagine it is all work and no play with the Labrador Eskimos. Much to my surprise, I found that our good old game of football had taken hold in Ungava. The game is played with a ball of seal skin stuffed with grass. The goals are placed much the same as in our own game, and each player is armed with a short handled sling made of several things of seal hide bent in loops and attached to a wooden handle. The ball may either be tossed in the sling, kicked or should opportunity offer, picked up and carried. Rough tactics are not barred. I have seen a man tossed in the air and pitched head foremost into a snow bank, while pushing, tripping and blocking are all freely indulged in.—Recreation.

The Clarinet. The clarinet has the richest, sweetest voice of all the wood wind instruments, although its sound does not travel quite so far as that of the oboe. Whenever, as sometimes happens, there are two melodies to be played at once, the clarinet takes the lower of the two, while the violin plays the upper and more important one. But in a military band, where there are no strings at all, the clarinets play the chief melody. The bass clarinet is not so smooth or so sweet as the higher ones. It has a rather chunky sound, though softer than that of the bassoon.—St. Nicholas.

Reassuring Him. "A little final advice," said a professor of elocution, addressing his pupils before the annual entertainment—"go well to the front of the stage, don't hesitate and don't be nervous!" "But, I say, professor," remarked a very self satisfied member of the class, "suppose I forget part of my oration?" "Oh, that doesn't matter," replied the professor. "On the contrary, the more of it you forget the better the audience will like it!"

When a man hears a woman say (as a good many of them do say), "Bakes alive, but if I were only a man wouldn't I know how to go about it to have fun, though," he just wonders and wonders and wonders what she can mean.
