There will be a meeting of the directors of the Chamber of Commerce this evening, when several matters of importance will be discussed. A telegram has been received from the government engineer detailed to make an examination of Wood river that he would arrive here Saturday evening. This is a portion of the property recently occupied by the Exchange stables. The doctor stated that he was not going to improve the property at this time, but believed that Main street really would never be cheaper and he wanted to buy before there was any further increase in value. The price has not been made public, but it is understood that it was in the neighborhood of \$125 a front foot.
