New Haven, Conn., was the last lace visited, and on its home jourey it was accompanied by the folowing letter:

New Haven, Conn., July 23. Mr. M. L. Allison, Box 15, Klamath Falls, Oregon.

Dear Sir: The picture looks all ight, but Irving Treat and I have our loubts about those trout being aught with a fly, and the only way ou can convince us will be to get our friend, the general passenger igent, to send us free transportation and show us where that kind of trout frows. Then we will come back East and advertise the place among the ishermen here, and you will both

nake your everlasting fortunes. One thing to be regretted is that ou did not use our tackle in catching that eight-pound trout, or otherwise you would have had a "leadpipe cinch" on the prize fishing outfit which we give for the largest trout aught with our goods.

I am enclosing a leader-fust for a leader-and wish you good luck on

your next trip. Yours very truly,

GEORGE BASSET.

BALLINGER

CHAMBER OF COMMERCE SENDS TELEGRAM TO STEEL

SHOULD ALSO INVITE TAFT

Ballinger's Coming Will Help Boost the Development of Crater Lake and Northern Klamath

Klamath Falls, through the Chamber of Commerce, has issued to Secretary of the Interior Ballinger a cordial invitation to be the guest of this city when he visits Crater lake. President Delzell to-day sent the following telegram:

Will G. Steel, Portland, Ore.

"The Klamath Chamber of Commerce extends a cordial invitation to Secretary Ballinger and party to visit us on his Crater lake trip."

While it is practically decided that taken to indicate to the chief executive of the nation that he will be welcome and that the people of Klamath county want him to visit the greatest wonder in the world, which is located within its border. Medford has already done this, but inasmuch as Crater lake is a strictly Klamath county affair it would be more appropriate if the invitation came from

if Ballinger comes to Crater lake, and he has stated that he will do so, it will bring into line another important factor for the development of scenic wonder.

UPPER LAKE NOTES

Captain Wickstrom will soon begin the construction of a new sand barge. and will lay the Eagle off until the barge is built, which will take about three weeks' time.

Steamer Hooligan is disabled at Crystal and Steamer Hornet will take her place until she is repaired. We hear the launch Crystal also sustained serious damage in Crystal residents of his section will shortly that there will ever be current creek by colliding with floating saw-

That big, fat, good-natured, old sea dog, Captain Parker, says that Klamath lake pavigators must observe the marine rules and not sound a distress whistle when they are not in distress, as it's a little expensive to go miles out of your course for nothing, with no need of a rescue

After some delay the lights have been installed and the new mill is now running night and day.

We graciously acknowledge visit of Mayor Mott and party, consisting of Mesdames Mott, Brooks, Morgan and Huson. Mr. Mott is out for a day's picnic and a good time and made generous use of our big LAW STANDS swing, and promised to see more of St. Cloud in the future.

THE COMMODORE. The mail boat Curlew is now mak ing 90 miles a day, so Captain Ca: landing and return, calling at Odessa both ways.

IRRIGATING CANAL

The Fish Lake Irrigating company of Medford, Ore., is busily engaged in the construction of the irrigating canal, starting at Four-Mile creek. which will, when completed, supply the region around Medford, Talent and Phoenix with water. The canal starts at Pour-Mile lake, running by ditch eight miles, then by canyon to Fish creek, thence by ditch from Little Butte to Hanley ranch, thence by Pish lake ditch to Phoesix, Talent and Medford

The ditch, when completed, will be ten feet on bottom and eighteen feet on top. At Four-Mile lake a dam is to be constructed thirty feet high and a retaining dam will be put in at Fish President Taft is to come to Crater lake. It is expected that it will take lake and this city, steps should be about three years to complete this B. W. Read, who is employed by this company, has just left with a load of supplies for camp.

the recent conversazione of the Royal Society a permanently luminous itself on record as a violator of the watch dial and military night compass. The watch dial is transparent mide, which renders it luminous, so that the time may be easily read in

Walter Buick, a prominent rancher of Silver Lake, and Mrs. H. W. Hig- that body of water. Dr. DePuy adley, his sister, of Tephuanes, Durango, Mexico, arrived in the city last evening. Mrs. Higley is en route to Portland, where she will join her husband and return to their home in state stream, and if any of the new-Mexico. Mr. Buick, in speaking of trade relations between his section and Silver Lake, said that doubtless that trade in the future would come here. Mr. Buick and some other make some recommendations to the County Court as to the location of thing. The fall between here and new roads and the repairing of the old ones between this city and his section, he having received assurance from the county officers that same will have their attention

NEW PRESENTERIAN CHURCH

Attorney R. S. Smith has filed articles of incorporation for the Mt. Lakai Presbyterian Church association. The trustees are Charles Steeman, John Koontz and J. G. Stevenday for the purpose of making ar-Mayor of Oakland, Cal. All were rangements for the erection of a vince any court of justice that damof worship. It will be located on the corner near the home of Mrs. LaPrarie. The increase in population in this section of the county has been rapid, sufficiently so to warrant the precting of the proposed structure.

Geo. R. Hurn is constructing a sewer from his home on Fifth and Pine streets to Main street, where it will connect with the Main street

Hint for Harriman

Scott spent a part of one summe n the country, and hence was an authority on agricultural matters.

"In milking a cow," he wrote his friends, "always sit on the side furthest from the critter and nearest the soft spot in the pasture."

the sewage. The borders of the lake TAFT AND will be befouled and innumerable disease-breeding spots created. Sen-Ument may be lacking now, but there will be plenty of it when an epidemic of sickness is started and gumerous

Continuing its course of investiga tion to-day, a representative of The Herald interviewed the following citizens and professional men, who exprezsed themselves on the proposi-

W. T. Shive, real estate-The City Council employed an expert to pass on this sewer proposition, and he rec ommended a septic tank, and I indorse his recommendation.

H. M. Ackley, lumber manufa turer-From my personal observation and experience along the shores of Lake Ewauna, I indorse the installation of a septic tank in connection with our sewer system.

Dr. H. A. Depuy-From a sanitary standpoint the depositing of sewerage stance in any well, or into any effect on the healthful condition of our city, and some process should be installed whereby the dangerous ele ments are removed from the sewer er steck have access, every per. o age before being deposited in the river. California has very stringent laws on this point, and the Klamath being an interstate stream, they • more than fifty dollars.—Sec. • would doubtless take some action to prevent it. Sacramento, Cal., which formerly deposited its sewerage in as Mr. C. E. S. Phillips exhibited at ramento, was compelled by the State to desist. They now have a burning system, also septic tanks, which entirely eliminates this menace.

Dr. F. M. White-From a sanitary standpoint it would never do to whereby the dangerous elements of sewerage are removed before it is deposited in the river.

Mr. Virgil, furniture dealer-If the government should lower the Klamath, making the current swifter, it would take care of our sewerage, bu taking it altogether, I indorse the installation of a septic tank at the present time.

Why Secure Expert Opinion?

The Council has gone to the expense of employing a consulting en-gineer. His recommendation is emphatically opposed to the plan adopted. Engineer Zumwalt takes the same position. These men have investigated these matters and are in a position to give an intelligent decision in the premises. Why not follow their views? If they are to be turned down on this important part of the system, why not dispense with eems to be strongly against the plan their services entirely? Why employ them? If this is to be reduced to a business basis, then why not invesshould not be so much a matter of tigate the difference in the cost of the two projects; why not ascertain if dumping of sewage into the lake the law will permit of the use of the lake proposed; why not consult the people who have to pay the bill-the sicians of the city; why not consult your own judgment? If this is done ages have been inflicted and the it will be easy to settle the question as it should be settled-by the use of septic tanks.

HARRIMAN

new mounds dot the hillside of the RUMOR HAS IT THAT THEY WILL MEET AT PELICAN BAY

Will Enter via Medford and Pass the Lodge on His Way to Klamath Falls-Will Be Notable Visit

Information from inside sources is to the effect that Harriman and Taft will meet at Pelican Bay this fall. All details of the meeting have not been arranged, but they are far enough long to warrant the prediction that, unless unforeseen obstacles prevent it, Klamath county will see the world's greatest executive and its greatest railroad magnate greet each other at Pelican Bay lodge.

When Taft stepped into the White House he by no means carried on his shoulders the load of antagonism created by his predecessor. He is a man brainy enough to think and act for himself, and whatever he does it will be a Taft policy out and out. This characteristic was never more prominently brought out than in the President's attitude towards the "malefactors of great wealth" and other members of the Ananias club. His regard for Mr. Harriman has always been most cordial, and unless affairs of great moment demand it, he will not pass by the door of the great railway magnate without lifting the latch-

Col. W. H. Holabird is now on his way to New York to receive final in-structions. Incidentally, he may go to Washington. Whether he does or not, no one will know what he is going to do until after the task has been completed, for the Colonel is noted for his remarkable ability to keep his mouth shut. He, nevertheless, is pretty certain to be master of ceremonies at an event that will attract world-wide attention and the chief magistrate of the nation will come under his sway for the brief period he remains at the lodge.

The program now under consideration provides for the President to eave the cars at Medford, proceed by auto to Crater lake, through the Klamath Agency to Pelican bay, where a brief stop will be made, and then on to this city, where he will board the cars and continue south. An effort is being made to induce him to make his stay long enough to permit of his landing some of the big trout that abound in the waters of the bay, but the President's consent to this has not been received,
