KENO ITEMS
 [Special Correspondence.]
 On last Saturday about twenty-five of the good people of Pokegama, including the baseball team, came to Keno for a good time. The Keno baseball team gave them a free dance Saturday evening.
 Sunday morning the Pokegama team played against the Keno team, but the Keno team was too much for them, as the score stood 8 for Keno and 4 for Pokegama. Well, they all had a luge time, and everybody seemed to enjoy the fun. Come back again, boys, and give us another trial.
 Sam Woodard of the Falls was in Keno Sunday looking over the ground of his boyhood days.
 Ed Way and wife, Bud Inman and wife and George Spanis and wife were up from Pokegama Sunday to visit and witness the baseball game.
 Harry Wall has purchased some heavy logging trucks and now there will be something doing in the logging business.
 John Ackley has completed his log hauling and is moving to Chester Wilson's place and will put in logs at the Tectors landing.
 Mr. Sorrels has the mail contract to carry mail from Keno to Worden, daily mail.

Hold-Up?
Well, I Guess Not!

Of course, we make a profit on our goods--We are in business for that purpose--but the steady stream of customers coming to our new store in the Mang Block, Sixth St, enables us to turn our money so fast that a very reasonable profit is all we want. Furniture can be sold on close margin, as well as other goods, and that's the way we sell it. When you want anything in the Furniture line come to us, and see what fair treatment we give you.

UPPER LAKE NOTES
 It is reported that the volume of water discharged by the big cold springs found at Eagle cape is sufficient to supply a city, and that the famed Bud springs are small in comparison.
 Captain Wickstrom has removed many obstructions in the form of sunken logs from the ship channel off Buena Vista water front. These obstructions have long been a menace to navigation and the Captain has surely done every one owning a boat a very great favor, for which he should at least be thanked.
 The water in the big lake at present writing is rather low, with the probability of being lower still, as it lacks some of being down to the regular low water mark.
 Messrs. Parker and Taylor of the steamer Mazama are having two lighters built to use in the Wood river trade. The boats will be long and narrow and be well adapted for the work they are intended for.
 The big barge being built for

Frank Adams, we are told, will be launched the last of the present week. Mr. Adams' houseboat, already launched, will be towed up the lake by the steamer Mazama in a few days.
 The forest fire that has been raging north of Howard bay is apparently under control at present writing. Some of the wardens in this instance are doing good work.

Robert Williams reports that he has been successful in his well-boring experiment on his ranch about eight miles south of here. After going down sixty-three feet he struck a steady two-inch stream of ice-cold water, which will be piped to his house.
THE BON TON GROCERY,
 A little store with the best in the grocery line—clean, new, fresh, and prices reasonable. One trial will convince you that it is the place to trade.
