ing "An Infernal Machine," and the perturbation which it caused the banker to whom it is sent.

New music tonight, and the sweet singer of Klamath Falls, Mrs. Cox, will delight the audience with new songs.

Tomorrow (Sunday) night special attractions for children will be shown. All have heard of the famous zoological garden at London, the animals and birds there collected from all parts of the world will appear tomorrow night. Among them are elephants, camels, zebras, giraffes, hipopotami, rhinoceroses, polar bears, brown bears, monkeys, reindeer, buffalo, pelicans, flamingoes, beavers, hornbills, vultures, capybaras, hyenas, sealions and African lions.

"Bottled Up" shows the mystic work of an inventor who liquifies people and then bottles them. It is very amusing and will be shown on Sunday night.

NEW SCHOOL AT AGENCY

MINNEAPOLIS MAN GETS THE CONTRACT.

UNDERBID OTHERS \$6,000

Plans and Specifications for Gymnasium Also in Hands of Superintendent Wilson.

Bids have been opened for the new school building that is to be erected at the Klamath Agency and the contract was awarded to W. B. Lovell of Minneapolis, Minn. Like all bids for government work, there was a big difference between the bid of Lovell and the next lowest, it amounting to over \$6,000. Several bids were submitted by local contractors, but they were out of the running as soon as the gentleman from Minneapolis made his appearance. The building to be erected will be about 40x70 feet. It will have a nine-foot stone basement with cement floor. Over this will be the school rooms and assembly hall, with twelve-foot ceiling. It will be plastered throughout and be of the same character of construction that characterizes all government buildings.

This structure is to replace the one that was destroyed by fire last spring, but will be superior in every respect.

In addition to the school building Superintendent Wilson has plans and specifications for a gymnasium building. This, however, will not be let by contract, the work thereon being done by the day. It is his desire to furnish the boys with facilities for in-door athletics that will be second to none in the state. The beneficial effects of this course is indicated by the deep interest already manifested in the new gym, and it may be expected that the Klamath Agency will turn out some athletes that will attract attention throughout the state.

MILLION CARS OF LUMBER

SUPERINTENDENT DYER MAKES BIG PROMISE.

LAKE LINED WITH SAW MILLS

Natural Location for Car Shops and Terminals—Company Has Great Faith in Future of Section.

It is estimated that from one section of the country alone that one million cars of lumber of which Klamath Falls will be almost an impossibility; it is too vast. This is a very important factor in the development of Klamath Falls, for it means that the Upper lake shores will be dotted with immense saw mill plants, the pay rolls of which Klamath Falls will get the full benefit. J. H. Dyer, Superintendent Shasta Division Southern Pacific railroad.

J. H. Dyer, superintendent of the Shasta division of the Southern Pacific railroad, which includes the California Northeastern, and Mr. Barry of the general offices in San Francisco, were in the city yesterday on a tour of inspection. Mr. Dyer is the best booster Klamath county has. And his boosting is not without reason, for he backs up his statements with facts and figures that astound even the most optimistic resident of the city. Prior to his departure he was seen by a representative of the Herald and talked quite freely about what his company has done and is doing, and the reason for its belief in the future of the country. In the course of his remarks he said:

"Klamath Falls and Klamath county are the best advertised of any section of the coast. The people here can hardly realize what the future has in store for them. The railroad company is figuring with a good deal of faith on the future of this section, as will be seen by construction and equipment that has been completed thus far. For instance, take the station buildings, which have been constructed on this line in small towns, and they equal the same class of buildings in towns of 5,000 population in California as to size and construction. The railroad certainly deems it is warranted in this belief of your future, or such construction and equipment would not be installed.

"Klamath Falls, speaking from an operating standpoint, is the natural location for a division terminal on the Natron branch, which, when completed, will not be a branch, but will be the main line. We figure that this

route, on engine expense alone, will mean a saving of between 65 and 75 per cent, as one engine will do the work of five on the route now operating over the Sisayous besides the saving of numerous other expenses in connection with operation.

"As to the location of car shops at this division terminal, of course that is a matter that will be left to my superiors. Speaking, though, from a personal standpoint, it is my opinion that this is the proper place for them, as we have right at hand here the necessary water power to operate as large shops as might be deemed proper to install.

"The traffic on this line thus far has been an amazement to the railroad officials. Where does it all go to? Both passenger and freight traffic on this line has been very heavy, and away beyond our expectation. The future tonnage on this line, when completed, will doubtless be enormous. Take, for instance, the timber. It is estimated that from one section of the country alone one million cars of lumber will have to be towed across the Upper lake for shipment on the railroad. To figure on the whole output of lumber it is almost an impossibility; it is too vast. This is a very important factor in the development of Klamath Falls, for it means that the Upper lake shores will be dotted with immense saw mill plants, the pay rolls of which Klamath Falls will get the full benefit. In addition to the foregoing, your wonderful Crater lake and the other scenic beauties which you have in this country will doubtless make this section a mecca for tourists, from which you will derive immense benefits. Taken altogether, is it strange that the railroad company should have such faith in your future?"

"I want to state, too, that the railroad company appreciates the kindly feeling and courteous treatment that this section has extended to us, and it is our desire to do everything in our power to warrant a continuation of it."

Mr. Barry was equally optimistic, and was warm in his praise of Klamath. He said:

"Klamath Falls is one of the best advertised towns on the coast, and we have daily inquiries regarding this section. This is my first visit here, but I am very much impressed with it, and it is my intention to return and visit Crater lake and look over the country. The tonnage and passenger traffic on this line is far greater than we ever thought it could be, and is a revelation to us."

BRIEF MENTION.

John Short and Burrell, his son, are in the city to-day.

W. B. Simpson, one of the Upper lake ranchers, was in the city today. William Weisen is in the city today attending the meeting of the Water Users' association.

Bert Hawkins from near Wilson's bridge, was in the city today, and returned home with a new wagon.

Mrs. Voss has received the appointment as postmistress at White Lake, and the site of the office has been removed to the Voss ranch.—Record.

Bert Spicer, who was up to the Carr ranch the first of the week, reports that the S. P. Co. are busy getting rights of way in the country north of Alturas.—Record.

Mrs. J. P. Lee, wife of the county assessor, and her nephew, J. E. Mitchell of Osceola, Ark., leave in the morning for Spring creek, where they will join the party that left this morning.

John Swasey, while riding a fractious horse in the O. K. stable yard, was thrown, the horse falling on him and then kicking him, causing some severe bruises. Mr. Swasey was removed to the hospital, where he is being attended by Dr. Merryman.

Peter Bour and family are in from the Gap today. Mr. Bour formerly lived in Josephine county, but on account of ill health there removed here last spring, and has entirely recovered. This fall it is his intention of setting out an orchard on his place, as he is firmly convinced that fruit can be produced in this county with as good results as any place.

(Additional Brief Mention on Page 4.)

COUNCIL MEETING

EXTENSION OF CITY LIMITS IS TEMPORARILY DELAYED.

NO ACTION ON BOARD TANGLE

Mayor Is Authorized to Secure Option on Block of Land to Be Used for City Purposes.

A special meeting of the city council was held last evening, where the principal subject under discussion was the extension of the city limits. It was discovered that a few minor errors had been made in the ordinance, necessitating the drafting of a new measure for submission to the council. Another ordinance will be prepared at once, and a special meeting of the council called to act thereon.

The council authorized the mayor to secure an option on a block to be used for city purposes.

No action was taken on the matter of the sewer bonds, further investigation making it necessary to postpone final disposition of the matter. An adjournment was taken subject to the call of the mayor, when all questions presented last evening will come up for further consideration.

Try our choice hams, bacon and ard once; thereafter you'll use no other. Monarch Mercantile Co. Phone 1051.

REAL ESTATE TRANSFERS

Elizabeth A. Bradley to same, 160 acres in tp 26 s, r 10 e, \$10.

For Sale—August Only A Summer Resort on Klamath Lake

That is Unsurpassed in America

This is a sporting proposition for men of wealth—it is not a farm.

Unequaled trout fishing June to November.

Beer hunting on the premises August 1 to November 1.

Duck shooting superior to any in the State over thousands of acres of wild celery and rice September 1 to February 1.

Grouse and pheasant shooting on the place October 15 to November 15.

Best starting place in county for a bear hunt.

Crater lake automobile road will run through the place for a mile and a quarter.

Navigable water to the property, unsurpassed drinking water and power to develop the property.

More bottom land and fine garden land than any place on the lake.

Thousands of pine and fir trees and thousands of quaking aspens.

More varieties of wild flowers and natural grasses and vetches than any place in the county.

If you develop this property as it can be developed there is no resort in the county that can compare with it.

No amount of talking will describe it; let us show you.

We have been offered more than twice what it cost, but have a price at which you may take it; below which we will keep it.

SECURE ROOM IN HIGH SCHOOL

Will Accommodate About Eighty-Six Pupils and Believe Improved Condition of Present Building.

EXTENSION OF CITY BOUNDS

OUTSIDE RESIDENTS ARE GETTING INTERESTED IN MOVE

OPPOSITION VERY STRONG

Residents of Hot Springs Addition Want to Know Certain Things From the City Council.

Among the residents of the additions outside the city limits considerable interest is being manifested over the proposition soon to be submitted for the extension of the city's boundaries to include their property. There are at this time very few supporters, the principal reasons advanced being that there is no advantage in accepting the invitation, and that if they did come in they would only have to pay additional taxes without any material benefits. As yet no statement has been issued by the mayor outlining the position of the city council in the premises.

Those most vitally interested in the matter are the residents of the Hot Springs addition. When they purchased the property from the Hot Springs company it was stipulated in their contract with that corporation that the price paid for the lots included the construction of sidewalks and sewers. The question that is interesting them is whether the extension of the limits would vitiate the provisions of that contract. When the conference was held between the council and A. H. Naftiger, ex-president of the Hot Springs company, certain agreements were made, but to what extent these will hold the city is what the residents of this addition want to find out.

In the Fairview addition the residents are principally interested in the construction of sidewalks. As it now is very few of the property owners have provided these necessities. During the winter months travel in this section of the city is attended with difficulty on account of the mud. The streets are also in a deplorable condition. If they were given assurances that these evils would be remedied it would have a strong influence on the action taken.

SERVICE AT THE CHURCHES.

Services will be held in the several churches of Klamath Falls Sunday as follows:

Baptist Church—10:00—Sunday school. Classes for all.

11:00—Morning service. Subject, "Clouds and Rainbows." The pastor will show in this sermon that on every dark cloud that comes across the pathway of life's pilgrimage it is spanned by a rainbow of promise, with the silver lining of God's love and blessings.

Preaching at Long Lake school house at 3 p. m.

Union service in the Methodist church in the evening.

Christian Church—The Christian or Disciple church will hold their regular service in the Methodist church on Lord's Day afternoon at 3 o'clock. A cordial invitation is extended to all who wish to attend this service.

FOR SALE—One 16-foot launch with 4-h.p. motor. Inquire of Ivan Daniels, or phone 541.
