### HOW GRAIN WILL SHRINK.

Farmers rarely gain by holding on to their grain after it is fit for the market, when the shrinkage is taken into account. Wheat from the time it is threshed will shrink two quarts to the bushel or six per cent. Hence, it follows that ninety-four cents a bushel for wheat when first threshed in August is as good, taking into account the shrinkage alone, as a dollar in the following February.

Corn shrinks much more from the time it is first husked. One hundred bushels of ears as they come from the field in November will be reduced to not far from eighty. So that forty cents a bushel for corn in the ear as it comes from the field is as good as fifty in March, shrinkage only being taken into account.

In the case of potatoes—taking those that rot and are otherwise lost—altogether with the shrinkage, there is but little doubt that between October and June the loss to the owner who holds them is not less than thirty-three per cent.

This estimate is taken on the basis of interest at seven per cent, and takes no account of loss by vermin.

### WHAT SALT WILL DO.

A little rubbed on the cups will take off tea stains. Put into white-wash it will make it stick better. As a tooth powder it will keep the teeth white and the gums hard and rosy. It is one of the best gargles for sore throat and a preventive of diphtheria if taken in time. Use salt and water to clean willow furniture, apply with a brush and rub dry. Salt and water held in the mouth after having a tooth pulled will stop the bleeding. Prints rinsed with it in the water will hold their color and look brighter. Two teaspoonful in half a pint of tepid water is an emetic always on hand, and is an antidote for poisoning from nitrate of silver. Neuralgia

of the feet and limbs can be cured by bathing night and morning with salt and water as hot as can be borne. When taken out, rub the feet briskly with a coarse towel. Salt and water is one of the best remedies for sore eyes, and if applied in time will scatter the inflammation. Silk handkerchiefs and ribbons should be washed in salt and water and ironed wet to obtain the best results. As a fertilizer salt is very valuable. Food would be insipid and tasteless without it. Hemorrhages of the lungs or stomach are promptly checked by small doses of salt.

### BUSINESS LAWS IN BRIEF.

It is a fraud to conceal a fraud. Ignorance of law excuses none. A note given by a minor is void. The acts of one partner binds all others. The law compels no one to do impossibilities. An agreement without consideration is void. Signatures made with lead pencil are good in law. A receipt for money paid is not legally conclusive. Agents are responsible to their principals for errors. Principals are responsible for the acts of their agents. Contracts for advertising in Sunday newspapers are invalid. It is not legally necessary to say on a note "for value received." If a note be lost or stolen it does not release the maker; he must pay. A note obtained by fraud or from a person in a state of intoxication cannot be collected. Each individual in a partnership is responsible for the whole amount of the debts of the firm. The indorser of a note is exempt from liability if not served with notice of its dishonor within twenty-four hours of its non-payment.
