

IMPROVE EAGLE RIDGE

IT FINEST RESORT ON
UPPER LAKE

BIG LOG HOSTELRY

Plunge, Tennis, Croquet,
and Basketball Courts.
Modern Conveniences.

Mrs. D. M. Griffith were
connected with the new re-
siding on the Eagle Ridge to-
day. Relative to the work
done and the plans for im-
provement, Mr. Griffith said:

"We are going to try and make
this one of the finest resorts
on the upper lake. Its central loca-
tion and beautiful surroundings war-
rant the statement that when all of
the improvements are completed Klamath
will have a resort at its doors
that will be a source of pride to its
citizens. We have commenced work
on the main building, which will be
two stories above ground, and built
of logs. There will be fifteen bed-
rooms, with a number of private
baths, and the interior finished in
native wood. In addition there will
be the general office rooms, parlors,
dining room, kitchen and other nec-
essary rooms for the convenient and
rapid handling of the business. Every-
thing conducive to the comfort
of the guests will be installed, and
when completed the hotel will be
second to none in every respect.

"We realize that the time has
come when steps must be taken to
improve the tourist travel that is
now being handled this way, and we
are anxious to be found in the rear.
The new improvements we propose
are: the springs, the waters of which
are constantly at a temperature of
50 degrees, will be improved by the
construction of a swimming tank.
The hot water will be piped to all
of the hot and bath rooms, thus af-
ford the guests an opportunity to
enjoy the benefits without leaving
their sleeping quarters. All along
the property are to be found large
cold water springs which we will de-
velop, carrying the water through
the grounds in such a manner as to
add to their picturesque appear-
ance. We shall terrace the hillside
and make beautiful lawns. Croquet
and tennis grounds shall be
improved and provision will also be
made for basketball and handball
play. On the water front we are
going to put in a stone wall and a
dock. All vegetation will be removed
and the entire surroundings shall be
made near like eastern resorts as
much as money will make it.

"Of course, all this work is going to
take time. We are rushing work
now, and hope to have it in
shape for next summer's busi-
ness. We shall also have all of the

other work done if it is possible to
do it."

With the carrying out of the plan
outlined by Mr. Griffith it can no
longer be said that the Upper lake is
without its beautiful resort. This
has been one of the drawbacks to
the more rapid development of this
beautiful section of the county.
Tourists could not return and an-
nounce that ample accommodations
could be had, and the result has been
that many who would have been here
have postponed their trip to a later
date. Next year, however, this will
all be changed, and with the pioneer
work done, others will soon follow in
the footsteps of the Griffiths.

READY TO RESPOND

SILVER LAKE PEOPLE ONLY ASK
BETTER ROADS

TRADE IS EASILY DIVERTED

Would Prove of Immense Benefit to
the Merchants of Klamath Falls
in Extending Business.

The people of the Silver Lake
country are becoming interested in
the proposition to improve the high-
ways between that section and Klamath
Falls. They are alive to the advan-
tages to be gained and if they are
met half way there will be a
ready response. If this trade can be
diverted to this city it will be of im-
mense value to the business men of
the city and every effort should be
put forth to induce these people to
come here. The following from Sil-
ver Lake Leader will prove of interest
to this city:

"We are informed that Klamath
county is very anxious for a wagon
road to be built from Klamath Falls
by the way of Lily to this place, and
that they will build the road to the
line between the two counties. If
Klamath county will do her part and
meet them. We have talked to many
of our people and they are all anx-
ious for a road. Every one with
whom we have talked that are fam-
iliar with the country over which the
road would go are unanimous in
saying that the Klamath county peo-
ple, when they build, should cross
the Sican river at the lower end,
then keep up on the west side. Let's
have the road.—Silver Lake Leader.

Mr. Gammon, the genial proprietor
of the Iris Theater, has signified his
intention to give matinee perfor-
mances at his playhouse during the
Week of Bargains beginning October
4th to assist in entertaining the peo-
ple when they are not spending mon-
ey with the enterprising merchants
behind this new move to bring trade
to the city. Going a step further,
Mr. Gammon has offered to give one
free matinee to work into whatever
program may be arranged for that
week if a carnival or fair is held.

BEAUTIFUL NEW DEPOT

SURPASSES IN MAGNIFICENCE
ALL EXPECTATIONS

FINEST ON THE MAIN LINE

Superior to Anything Between San
Francisco and Portland—Plans
and Specifications Here.

Great as have been the expecta-
tions of the citizens of Klamath Falls
that the California Northwestern
would erect a depot building that
would be more beautiful than any
between San Francisco and Portland,
their most optimistic dreams will be
more than realized by the magnifi-
cence of the structure that the
Southern Pacific has directed shall
be built in this city.

The plans and specifications have
arrived and those interested may see
them at the offices of the Klamath
Development company. The struc-
ture will cost \$15,000, but this sum
does not convey any idea of what
this city is going to get. Add to this
the cost of transportation of men
and materials and it will run the
amount well up above the \$20,000
mark.

Depot of Mission Design

The general design will be mis-
sion, though not entirely carried out
in detail, having been modified to
give it a distinctive beauty all its
own. The building will be 116 feet
long by 39 feet 9 inches wide. The
corners, casings, window and door
sills and all trimmings will be of
granite, the balance of the walls be-
ing rubble. On the south end will
be a baggage shelter 14x14. Ad-
joining will be the baggage room,
18x28 feet, with cement floor. The
office room will be 31x28 feet,
with concrete floor; general waiting
room, 26x18 feet, and women's
waiting room, 18x18 feet.

The waiting rooms are to be fin-
ished in natural wood with beamed
ceiling and ceramic tile floor. Enam-
el tiling will cover the walls for five
feet from the floor, the balance being
plaster, tinted and frescoed. Adjoin-
ing the waiting rooms are the toilets
for men and women and the office
force. These are to be finished in
marble and ceramic tile.

The roof is to be of red slate with
tile ridge. Around the building will
be many wrought-iron mission lan-
terns, and broad cement walks and
parked lawns will complete the sur-
roundings.

Few will ever realize that the real
cause for this generous consideration
for this city on the part of the rail-
road company had its inception from
the presentation of the petition from
the business men asking that a fine
depot be erected here. Chief Engi-
neer Hood has had a warm spot in
his heart for Klamath Falls. He has
appreciated the cordial manner in
which his company has been wel-
comed here, and when the request
was presented it was the final stroke
that won for the city the magnificent
structure that will welcome the
stranger to Klamath Falls.

Pledge of Our Future Greatness

The value of this magnificent de-
pot to this city can never be esti-
mated. There is not a person who
has ever traveled who has not
formed his opinions of a city by the
depot and its surroundings. It will
be notice to the hundreds of thou-
sands of people who will pass
through this city after the comple-
tion of the main line that the rail-
road company has faith in the future
of Klamath Falls, and that as a tes-
timony to that confidence they
erected a suitable monument. It
will mean that thousands who would
not otherwise do so will stop off,
with the resultant benefit to the en-
tire community.

Citizens Are Duly Grateful

It is no rash statement to make
that in remembering this city so
magnanimously the railroad com-
pany has made no mistake. Its citi-
zens appreciate it to the fullest ex-
tent and will not hesitate to show
that appreciation in a substantial
manner if the occasion should ever
arise. They realize that the future
of the city depends as much upon the
railroad company as upon their own

efforts, and they will not forget
what has been done for their city
when it has doffed its swaddling
clothes and entered into the class of
full-fledged municipalities.

MINING SUCCESS OF KLAMATH COUNTY BOY

Another Klamath county boy
seems to be making his mark on old
Mother Earth down in Nevada and
making her yield up some of her
precious gold. The following from
a Nevada exchange will be interest-
ing to the many friends of Lynn B.
Yaden, who will be glad to hear of
the success with which he is meet-
ing:

"MIDAS, Nev., August 11.—The
Geyman mill has just finished a mill
run for the Yaden Leasing company
on the Esmeralda No. 1 of 150 tons
of ore and the amalgamators claim
a saving of 90 per cent. The ore run
is a good grade of mill ore and will
net to the owners close to \$30.
Teams are hauling now from the
Hilly lease, and also the Poor Man
lease for the next run."

Midas is one of the coming camps
of Nevada, and there are those min-
ing experts who claim that it will
outlive any of the big camps of the
State. Great or small, the wish is
that Mr. Yaden will get his full
share and make a million.

FOREST FIRE AT SHAKE REPORTED UNDER CONTROL

J. F. Kimball, who has just re-
turned from the forest fire which has
been raging south and west of
Shake, reports that the fire in that
section is under control, and the men
he took out with him to fight fire
will return to-night. Mr. Kimball
states that the loss of timber to the
companies he represents will not be
material, and that the Southern Pa-
cific's holdings suffered the most, al-
though not to any great extent, as
the fire was changed from its course
toward the yellow pine belt.

He reports that the bridge near
Shake was burned, but that it is
now repaired so wagons may go over
it, but it hardly in condition for au-
tomobiles to pass over. It was re-
ported to Mr. Kimball that an au-
tomobile party had a close call near
this bridge, and several of the male
members got their whiskers
scorched. The report was not con-
firmed, however.

For Sale—August Only A Summer Resort on Klamath Lake

That is Unsurpassed in America

This is a sporting proposition
for men of wealth—it is not
a farm.

Unequaled trout fishing June
to November.

Deer hunting on the premises
August 1 to November 1.

Duck shooting superior to any
in the State over thousands
of acres of wild celery and
rice September 1 to Febru-
ary 1.

Grouse and pheasant shooting
on the place October 15 to
November 15.

Best starting place in county
for a bear hunt.

Crater lake automobile road
will run through the place
for a mile and a quarter.

Navigable water to the prop-
erty, unsurpassed drinking wa-
ter and power to develop the
property.

More bottom land and fine gar-
den land than any place on
the lake.

Thousands of pine and fir trees
and thousands of quaking
aspens.

More varieties of wild flowers
and natural grasses and
vetches than any place in the
county.

If you develop this property as
it can be developed there is
no resort in the county that
can compare with it.

No amount of talking will de-
scribe it; let us show you.

We have been offered more
than twice what it cost, but
have a price at which you
may take it; below which
we will keep it.

TO REMOVE LAND OFFICE

EVERY EFFORT WILL BE MADE
TO GET IT CHANGED

TO APPEAL TO BALLINGER

Much Time Lost and Great Expense
Incurred in the Transaction of
All Government Business.

One piece of business that is going
to claim the attention of the Cham-
ber of Commerce is that of having
the land office removed from Lake-
view to this city. When this matter
was first broached it was quietly in-
vestigated. This investigation has
been continued, and the farther it
goes the stronger becomes the belief
that it will be an easy matter to se-
cure an order from Secretary Ballin-
ger for its removal.

Will Show Ballinger

The Secretary will be here the first
of the month, and while here he will
have presented to him in a concrete
form the facts and figures favorable
to the change. The people of Lake-
view seem to think it is a good deal
of a joke, but they will wake up
some fine morning and see their
prize plum quietly moving out to-
wards Klamath Falls. As far as this
city and county is concerned it cares
little whether the office comes here
or not if provisions can be made for
the payment of the reclamation mon-
ey into the local reclamation office.
It seems somewhat peculiar that all
other business can be transacted by
the service with the exception of the
payment of the charges. It is on
this ground that the fight is to be
made, and when Mr. Ballinger sees
the justice of the affair he will do
one of two things: either move the
land office to this city or make pro-
visions for the payment of the re-
clamation charges into the local of-
fice.

Railroad Cuts Big Figure

Since the coming of the railroad
a different complexion has been
placed on land office affairs. It is
ridiculous to force people having
business with the government to
travel all the way to Lakeview and
back again. It costs the government
a great deal for the traveling ex-
penses of its employees, aside from
the great delay in business. Ballin-
ger's great hobby is to rush things
through, and when he sees that
weeks of time can be saved by the
transfer it is not likely that he will
long delay his decision in favor of
Klamath Falls.

THAT "ALASKA" OWL

In reply to the notice inserted in a
local newspaper of this city on the
14th inst. by Messrs. Donart & Son,
that the owl on exhibition at the Gun
Store was not an Alaska owl but a
barn owl, I never said it was anything
but a barn owl, and whoever inserted
the notice of the 13th made a mis-
take, I suppose. I have not seen the
paper that it was in, but I am sure I
had nothing to do with it. Messrs.
Donart & Son say further that the
Alaska owl is not found in these
parts. I don't know anything about
the Alaska owl by that name, but if
he has reference to the Snowy owl
(Nyctea Nyctea) that breeds in Alas-
ka, I wish to say it has been taken
in all of the western states, Oregon
included, and as far south as the Her-
muda Islands.

Mr. Donart & Son, who make bird
life a particular study, had better
study up a little before making such
a statement, which was unfeeling.
J. W. PREY.

A BABY CONTEST

A baby contest in which the ba-
bies must be wheeled in perambula-
tors by their proud but bashful
mothers while a committee of bach-
elors, with outward bravado but in-
ward trembling, pick the prettiest
and best, is satisfactory to neither
mothers nor bachelor judges.

Klamath Falls is to have a baby
contest in September which is the
latest and most modern way, and
will arouse the interest of all be-
cause of the fact that the judging
will be done by all.

The modern baby show has been

tested and approved by moving pic-
ture theaters all over the country,
and will be the first of the series of
novelties Mr. Houston will inaugu-
rate at his popular show house upon
his return next month. Every moth-
er is invited to submit a photo of her
baby at the opera house ticket office,
when it will go to a local photog-
rapher to be transferred onto a glass
slide. These slides will not bear the
child's name, but will be shown with
numbers only. On September 10th
and on successive nights for one
month the babies' pictures will be
thrown on the screen, life size, and
every one in the audience will have
a vote for his or her favorite.

Prizes for the winning babies will
be donated by a local jeweler, in
whose windows they will be dis-
played.

FIRST STOCK SHIPMENT

O. T. MCKENDREE PREPARES TO
SEND OUT 1,300 LAMBS

ANOTHER REVENUE PRODUCER

Will Ship 3,500 Lambs, This Being
the First Bunch of Stock to Be
Loaded in This City.

Arrangements have been made for
the first shipment of stock from this
city. All stock heretofore leaving
this section has gone out either
through Midland, Dorris, Macdoel or
Mt. Hebron, and the news that a
change is to be made to this city in
this instance is cheering. Ample ac-
commodations have been made for
shipping from this city, and it is not
unlikely that many other shipments
will follow this one.

First Lot of Large Contract

The first shipment will consist of
1,300 lambs, which is a portion of
the contract calling for 3,500 lambs
during the month of September. O.
T. McKendree of Lakeview is the
shipper, and he stated that all of the
lambs will be shipped from this city.

Shipping Point Draws Trade

This is simply only another straw
blowing our way to show what the
future has in store for this city. If
it is made a stock shipping point its
advantages as a distributing center
will be made all the stronger.
Through the channel of the stock-
men would come thousands of dol-
lars annually that would be spent in
other towns.

W. C. T. U. MEETING.

The W. C. T. U. will meet on Wed-
nesday afternoon at 3 o'clock at the
home of Mrs. Price. All the mem-
bers are urged to be present and all
others are welcome.

LANDS BIG CONTRACT

JACOBS' NEW BLOCK TO BE A
CEMENT STRUCTURE

WILL BE FIRST IN THE CITY

Hydraulic Stone and Brick Company
Will Furnish the Material for
the Big Building.

A contract was signed Saturday
between Contractor Cofer and the
Hydraulic Stone and Brick company
for the material for the walls of the
Jacobs block at the corner of Main
and Sixth streets. This structure is
to be 105 feet on Main street and
104 feet on Sixth street.

More Stories to Be Built Later

It is to be a one-story building,
the walls and foundation being con-
structed so as to admit of the addi-
tion of two more stories when busi-
ness will justify it. Four store
rooms are to face on Main street
and one on Sixth street, each having
a front of steel and plate-glass. The
structure will be modern in every
respect, and will be one of the hand-
somest buildings in the city.

First Cement Building in City

The contract with the Hydraulic
Stone and Brick company calls for
the material in the walls. Full rock
face will be used for the front and
unfinished for the rear walls. This
will be the first building in the city
made of this material, and it will be
watched with a great deal of in-
terest by prospective builders.

Material Passes Rigid Tests

The process for the manufacture
of this material is a patented one,
and this will be probably the first
structure in the State in which it is
used. The company was organized
this year, and for the past few
months experiments have been car-
ried on for the purpose of subject-
ing the blocks to a rigid test. The
results have justified the belief that
it will meet all the demands neces-
sary for a first-class fireproof build-
ing material.

Jars of money given away at the
Portland Store.

Captain J. J. Rahm has just re-
ceived his new power launch "Mar-
garita" from the Michigan Steel Boat
company. The launch is eighteen feet
long, four and a half feet beam, with
a six horse-power engine, canopy top,
and capable of carrying comfortably
fourteen passengers. Her speed is
twelve miles per hour. Besides the
launch, the captain has twelve row-
boats of different sizes which can be
secured at reasonable rates by apply-
ing at his new boathouse on the Up-
per lake. The Margarita will be
used for the passenger business in the
Upper lake and can be chartered at
reasonable rates upon application to
Captain Rahm.
