AMONG OUR COUNTY EXCHANGES

(Bonanza Bulletin.)

Another fire is recorded in this issue caused by a couple of street arabs or hoodlums, as the case may be. The youngsters have for the past two days been playing with very small Japanese lanterns, and quite a number have been burned on the sidewalks. This morning about 11 o'clock Dewey Nichols was passing the American hotel when he happened to look into a bedroom on the ground floor and going to Mrs. Hoagland told her that there was a fire in the corner room. All was excitement in a second, and someone, thinking quickly, brought a couple of pails of water and extinguished the flames. The top of a dresser was burned and the paper on the wall, and it was lucky the boy discovered it as he did for if it had gone a few minutes longer there would have been but a little of Bonanza left. The town owns a thousand-dollar chemical engine, but no one knew it at the time. It the town board would attend to their business in regard to the ordinances no such a thing would happen from these young hoodlums, as there are ordinances providing against shooting firecrackers and playing with fire, etc., on the business streets of the town. The town board knows that the town is flooded with hoodlums and saucy street arabs, but they would not insist upon the marshal locking them up for fear of offending a few mothers owning these youngsters. These same boys run the streets until 10 and 11 o'clock at night and raise Cain, and if anything is said to correct the wayward youths the mothers get their backs up and raise particular hell. If the town board would enforce their laws some half dozen of these untamed youths would be in the reform school inside of thirty days, and that is the place for them. Last Friday while the surveyors were at work in Langell valley they met with an accident which is unaccounted for, but the loss is there just the same. They had a team and spring wagon hired of John Shook and that morning drove to where their work commenced and, tying the team up to a tree, took their instruments and started out. On their return, after stopping work, they discovered that their wagon had burned up and also the hair of the horses' tails. They had left their coats in the wagon along with a lot of grade stakes, and the supposition is that there were matches in the coats and being in the hot sun had ignited. The fire completely destroyed the wagon and, burning the tongue off, let the horses get further away from the fire, thereby saving the ruination of a couple of good horses. Last Saturday night the store of Hamaker & Powne of Bly was broken into and about \$100 in goods and money were taken. The thieves made their entrance into the store through a back window in the office. They proceeded to help themselves to the small change in the money drawer, amounting to about \$8 in nickels and dimes and then took three gold watches and eight or nine silver watches. No trace of the burglars has been found as yet.
