

CALLED ON THE CARPET

OF THE REASONS WHY HALLINGER RETURNED

THE COAL LAND CASES IN IT

Things in the Cunningham case lead to the explanation. Follow All Documentary.

The Herald was not mistaken in its statement that Secretary Hallinger returned to Washington because of developments in the Pinchot fight is fully evidenced by recent disclosures from the East. Many sensational disclosures are imminent. It is believed, and if these materialize the reports for Hallinger's return to the post as Secretary of the Interior to report the Klamath and other projects appear to be very uncertain.

The charges made by L. R. Glavis, which Pinchot is using in his fight against the head of the Interior department, are of a graver character than the general public has supposed. The controversy has at last been brought into the hands of President Roosevelt, with the result that a careful and thorough investigation of the charges made by both sides will be instituted. There will be no alternative left to the president but to put Secretary Hallinger's head in the basket and to see that he is extricated entirely from the Cunningham Alaska land case, which, according to the following dispatch from Washington, will not be an easy thing for him to do:

Washington, Sept. 6.—Reports from Washington that certain elements at Spokane and Walla Walla connected with the celebrated Klamath coal land cases arising from the return of Secretary Hallinger and his assistants, assert that no dummy names were used in any of the Cunningham claim filings. The dispatch reveals that Henry H.

A CALLED MEETING

PRESIDENT DELZELL CALLS THE CHAMBER TOGETHER

WILL DECIDE FAIR QUESTION

Will the Business Men Get Together and Help in the Undertaking Plainly to Their Benefit?

W. A. Delzell, president of the Chamber of Commerce, will call a meeting of the directors of that body this evening at which the fate of the fair, so far as the Chamber is concerned, will be decided. If its decision is to go ahead and hold a fair a meeting of the business men will be called for tomorrow night.

Mr. Delzell was shown the slips circulated a few days ago, showing the sentiment of the business men as to holding a fair, and was agreeably surprised. In speaking of the matter he said:

Personally, I am decidedly in favor of holding a fair. The only question is, will the business men get together and contribute funds sufficient to get up a first-class exhibit? If the business men will get together and secure the necessary funds, the Chamber of Commerce, I am sure, will take hold of the management of the fair and do all in its power to make it a success and credit to this county. As to the matter of soliciting funds for the fair, that part of the program will be up to the business men. The Chamber of Commerce had under its control the management of the late carnival, and at that time the promise was given to the contributors that no more funds would be solicited by the Chamber this year. That promise will be made good.

The attitude of the Chamber of Commerce in declining to solicit funds for the fair should not be considered in a prejudicial light by the

AWAITING DECISION

WEYERHAUSER COMPANY HOLD BACK IMPROVEMENTS

ANXIOUS FOR A SETTLEMENT

Can Go Ahead As Soon As Courts Decide on Southern Pacific's Timber Properties.

George S. Long, western manager of the Weyerhaeuser Timber company, is in the city today. Mr. Long is here on business pertaining to his company. He was seen by a Herald representative and closely questioned regarding the prospects of Hill entering this section, with the result of the following statement:

"I can say positively that the Weyerhaeuser Timber company has no connections whatever with Mr. Hill, and knows nothing of his intentions as regards building a line into this country. Of course, we would very much like to see Mr. Hill enter this section, as would any other large concern interested here, for it would mean better facilities for handling the large tonnage which is available here from several sources."

When asked to confirm or deny the rumor afloat that the Klamath Lake railroad would be extended to the Upper lake and a sawmill plant erected there, he stated:

"When conditions warrant, undoubtedly the Klamath Lake railroad will be extended to our mill site, which as yet has not been determined upon. As to the establishment of a sawmill plant, this is about in the same condition as the extension of the railroad. As the matter now stands, the government has enjoined us from cutting any timber on lands which were formerly held by the Southern Pacific, and which we purchased. This represents an immense acreage, especially in the Pokemoga section. Just when this matter will be settled in the courts it is impossible to say, but naturally the suit will be pushed along by those interested as rapidly as possible. It is impracticable to start a large timber operation when the only available supply is from the isolated sections not formerly held by the Southern Pacific."

When asked if his company would begin operations at once here if the foregoing injunction is dissolved, Mr. Long said: "That I cannot say now. The company will very likely manufacture this pine timber themselves, instead of selling the logs to other manufacturers as they do now in Washington."

"I will say, however, that Klamath lake, in my opinion, will be one of the great timber centers of the West. Your city, located as it is, has a great future before it on account of being contiguous to the great industries which will be brought out by the lumber industry alone, to say nothing of the immense agricultural resources which surround this place."

MEETING OF CITY DADS

REGULAR ROUTINE BUSINESS IS TRANSACTED

ANKNEY DITCH IS DISCUSSED

Steps Will Be Taken to Abate Various Nuisances and Improve Health Conditions in the City.

The City Council met in regular session last night. Those present were Mayor Sanderson, Councilmen Janks, Castell, Wilkins, Willits, Recorder Leavitt, City Attorney Drake, Health Officer Dr. Hamilton and Marshal Carter.

The city salaries and other bills for August were allowed.

Building permits were granted to Jas. W. Price, J. V. Houston, H. F. Murdoch, E. T. Burdette, R. H. Dunbar, J. S. Voorhees, Mrs. L. M. Van Brimmer, C. F. Goodrich and L. Jacobs, also for the construction of a six-foot sidewalk on the north and east sides of block 15 was authorized.

Fines to the amount of \$195 was reported by Recorder Leavitt as being collected during the month of August.

Health Officer Hamilton presented a report declaring the outhouses of M. M. Bledsoe and James Mongold public nuisances. Marshal Carter will notify the parties under the ordinance. They are subject to a fine or imprisonment if the nuisance is not abated in twenty-four hours.

The matter of the Ankeny ditch nuisance was presented by the health officer to the council, and was a matter of considerable discussion. It was finally decided that Marshal Carter should notify the government officials to abate the nuisance in the Ankeny ditch within five days. If this is not done by the government within the specified time (which, of course, is impossible) some further official action will be taken.

In the meantime, we still have the ditch and the public nuisance.

SECTION FREE FROM FROSTS

WHILE OTHER PARTS ARE LOSING THEIR CROPS

LET THE MOSSBACKS HOWL

Klamath County Has Had None of the Troubles That Have Visited Other Sections.

Klamath county has been practically free from damaging frosts this year, which is quite in contrast with reports received from other places where serious damage has occurred, as will be seen from the following report received from Stockton, Cal.:

"Stockton, Cal., September 3.—For the second time some of the bean crop has been either entirely ruined or badly damaged by the heavy frosts of the last few days. James Ferrot, who today returned from an inspection of his crop on the Wright tract, stated that his beans, along with several other large growers, were killed outright, and it would not pay to harvest the small yield.

The first frost swept over some of the island bean acreage on the night of August 11th, and nipped the beans in many sections. Strange as it may seem, the beans on the adjoining land to where the crop was partially destroyed escaped with a slight burning of the top vines.

Most of the vines damaged at that time have recovered, and there will be a good yield, but the beans frost-bitten recently will not mature. The loss to some of the farmers will be quite heavy, but there is such a large acreage that the total yield will still be large. Harvesting has been commenced in some places."

If all the frost damage reports were published it would doubtless be found that Klamath county is no worse than any of them.

Blankets, blankets, blankets! All kinds of them, at the Portland Store.

That the illumination of New York city in connection with the Hudson-Fulton celebration has been planned on a worthy scale is shown by the announcement that it will include 1,500,000 additional incandescent lights, 10,000 arc lights, and two batteries of searchlights, the total capacity of which, independently of the city lights and private illumination, will be 26,260,000 candle-power. A dramatic feature will be the lighting of twenty immense signal fires upon mountain peaks along the Hudson from New York city to Newburg.

VAUDEVILLE AT OPERA HOUSE

"Patsy" Will Give an Entirely New Transformation Act Tonight

FASSENGGERS MAY BE GOING AROUND

"Uncle Sam," and including some wonderful new feats on the slack wire. The best recommendation he can offer is to refer you to those who have already seen his clever act.

A splendid dramatization of Dickens' famous novel "Oliver Twist."

"A Child's Love," in which the little daughter reconciles her mother and father, the latter infatuated with a beautiful actress.

An instructive series showing the army of Spain, a country which is again fast becoming the world-power she once was.

A beautiful series showing the roaring rapids and falls of Tanfossen, Sweden.

"His Lucky Day." A burglar breaks into his room and in turn the tailor, shoemaker and others enter and collect their bills.

"A Skylight Theater Seat." Two old ladies, viewing a theatrical performance through the skylight, get excited and—come and see for yourself. It is well worth the price of admission.

It was reported yesterday that forty-eight passengers were aboard the narrow gauge on route for Lakeview. When the train arrived it was discovered that there were only five passengers aboard for the northern town. It has been reported for some time that a large number of passengers were to be through here during the last of August and the first of September. It is now believed by many that the excessive rate charged by the N. C. O. is keeping the passengers from coming. It is believed that many who intended to come this way have gone around and are coming in by the way of Klamath Falls. The N. C. O. has given reduced rates, but they were so late in doing so, and the fare is still so high, that in conformity with the old-time policy of that road, their greed is again causing them to lose money.—Modoc Republican.

HILL'S SURVEYORS WORKING

Will Probably Reach Port Klamath Country Within the Coming Month.

Jim Hill's surveyors are now working around Crescent, Oregon, and coming in this direction. This information was gleaned from a letter received by Professor J. G. Swan from Joseph L. Ringoe, a son-in-law of Mr. Graves of Crescent, Ore. It is also reported that Hill's men have found a good, easy grade over the divide, and that they will reach the Ft. Klamath country within the next month. Every movement of this surveying party is being carefully observed by the Southern Pacific company, but their officials are very reticent in regard to the matter.
