### GETS WORK AND WORKS

When Everything Else is Fixed, Jump on the Printer Man.

Just to show how rough it can come, we publish the following: Exportation of wood pulp may be prohibited throughout the Dominion and a sharp advance in the price of print paper is expected throughout the United States. Paper manufacturers and Canadians owning the right to cut timber on crown lands have called on Sir Lorimer Gouin, premier, and asked that the government prohibit the export of wood pulp to the United States.

### DON'T PROSPECT FOR GOLD

But Make a Search for Pitchblende If You Want a Good Stake.

Prospectors of the Northwest who are looking for gold and silver would do well to keep their eyes peeled for "pitchblende," according to A. W. Miller, curator of the Oregon Academy of Sciences. This ore is what radium is made of, and is likely to be found and thrown away unless the prospector can recognize it. "The Colorado School of Mines wants all prospectors to be on the lookout for pitchblende," Colonel Miller says, "and when they find a black, rather glassy ore whose elements they are not posted in, send a specimen to me in Portland and I will have it analyzed and if it proves to be what is wanted I will inform them." "Pitchblende is found in Colorado and in North Carolina, but in quan-

ties too minute for use. We have to import all the pitchblende now being used in the manufacture of radium, and the cost is enormous. The miner who finds a ledge of pitchblende is therefore running the risk of getting rich, and need not hunt any longer for gold or silver."

The Oregon Academy of Sciences is a recent organization, incorporated under the laws of the State, and has taken over the Portland Free Museum for the purpose of classifying the ores now on exhibition in the city hall.

Alcohol is obtained from peat by treating the fibre with sulphuric acid and fermenting with a special yeast.

## THE REPUBLICAN

*The Best Weekly in the Best Town  
in the Best County in the Best State*

ALL THE NEWS

\$2.00 per year

IN ADVANCE

HAS NO EQUAL

What would you say if some man living in Klamath Falls made it his business to drive out to your place, no matter what part of the county you are living in, and spent several hours telling you all the news? And what else would you think if he said he would be glad to come out the following week and do the same thing again, and promised to come every week in the year? Wouldn't you inquire as to his mental condition? Well, I guess you would want to know what business he was engaged in that he had so much spare time for disseminating news, or had some ultimate object in cultivating your acquaintance.

**We'll Bring the News.**

Well, here's the point: The editor of the Weekly Republican has a better proposition to make you than the man who peddles news from house to house. It is not worth your while to ask what our business is; it's to peddle news, and peddle it in the best manner and shape possible. It is an impossibility to propose to make a personal visit to do this news-telling act. We simply concentrate our time and save buggy wear and horse feed (your horse feed) by staying right in Klamath Falls and gathering every bit of news that's going and printing it in The Republican. We are not a nephew of Uncle Sam, and consequently we have to pay the postage to send the paper to you, but even then that's easier than to ply the gad over that old gray mare to get out to your place and hand you the paper personally.

Oh, yes; you may as well know, too, that we have an axe to grind by coming out to see you every week in the year. Mother says father came to see her twice a week for four years before she found out what he was coming for, but The Republican will make you understand in less time than that. You will get to know all the news of the county, and lots of things besides—things that go to make you as snappy and up-to-date as any other man in the township, or county, either; you won't get wise to things that occurred three months ago—you'll know them the week they happen. If you don't it's your own fault. Tie a string on your little finger when you start to the Falls next time and subscribe for The Weekly Republican to come and tell you the news every week in the year.

**Watch the Ads, Too.**

Read the ads—all of them. Look them over each week as carefully as you do the news matter. It costs the merchants good hard-earned money to put those ads in the paper, and they mean them to be read. If you miss getting the full worth of your subscription money it's because you fail to read The Republican ads. You know where to trade when you come to the city; or at least you can't blame it all onto your wife if you make bad bargains.

## Helping the Town . . .

By banking your money in a bank is your own common-sense. It increases the community's power to do business. If substantial farmers want to borrow money there is more to loan them. If you bank your money away from home it is loaned to other farmers, merchants and manufacturers. Help your home people. Money hidden at home helps no one. Placed in a bank it is put to work in ways that help all.

## A Savings Account . . .

There is no forfeiture clause in the passbook, and it is under the owner's control at all times. It will tide him over sickness; it will care for his family when he is gone; it will see him through old age, and keep him when he dies. It is a simple business proposition. Begin early, and keep it up, and, like money in the desert, it will supply him as he journeys.

Now is the time to open an account with the
