GUMPTION ON THE FARM

(From October Farm Journal)
If you hoe your own row with diligence you will have little leisure to note how your neighbor is hoeing his.
Beginning to think about your wood pile? That's right. Cold nights make us creep up about the stove.
How can any man sleep well at night when he has scolded and whipped his horses all day.
Enough dry wood and chips to last a week ahead is riches; fire out and the last stick gone is poverty.
The patrons along a rural route are apt to expect too much from the carrier. It would be a great help to the farmer to apply to the government for a copy of the postal laws in reference to the regulation of rural carriers.
Are you planning to build a new house this fall? Don't make it too large. Many houses are so large that the women folk are kept scrubbing a good share of the time. Large enough for all practical purposes, but no larger should be the rule.
In an address on the subject of corn, Professor Deal remarked that the topmost ear was the best for seed. Of two fields, one planted with seed taken at random and the other selected in the field, the latter yielded as much again as the former.
If rye is sowed this fall as a green manure for potatoes next season I believe it would be better to plow it under next spring and not wait till it gets tall. Then the rye will rot better before planting time and you will get more good from it.

RESOLUTION OF SYMPATHY

Adopted by Crater Aerie, No. 1616, F. O. E., Klamath Falls, Ore., in memory of Mrs. Dan Malloy of Lakeview, Ore.:
Whereas, the angel of death has entered the family of our brother, Otto Heidrich, W. S., and removed the beloved sister, mother and wife from the bereaved brother's sister, mother, husband and children.
Resolved, that by her untimely death we realize that Brother Heidrich has lost a loved sister, the mother of a beloved daughter, the husband of a devoted wife, and the children a mother whose place can never be filled, we, as an Aerie, extend our heartfelt sympathy to our brother and to the grief-stricken husband and family in their time of sorrow, and while they mourn the loss of their loved one, our earnest prayer goes up to our Heavenly Father who does all things well and whose gentle, guiding hand we pray will always remain with the motherless children, guiding them safely through the long journey of life.
Resolved, that a copy of these resolutions be sent the bereaved brothers and family and a copy be spread upon the records of our Aerie.
"A precious one from them has gone A voice they loved is stilled, A place is vacant in the home Which never can be filled."

Better have patches on your pants than a lot of unpaid bills and threatening creditors.

A representative of an American photographic supplies company, after studying the climatic conditions of Brazil, invented a chemical combination which, added to the regular developer, counteracts the bad effects which the tropical climate has on photographic papers, films, and plates.

A New York man has patented something new in the lightning rod line, a system of conductors that pass over all the high points of a building, terminating in the ground on both sides, so that lightning will be led to earth, no matter where it strikes.

The climate of Curacao is so dry that goat manure, much of which is produced, cannot be used profitably on the farms, so it is carted from five to twenty miles to the harbor and shipped to Barbadoes, where it finds a ready sale.

A Spanish scientist has succeeded in deadening the echoes which ruin the acoustic properties of large halls by covering the walls which reflect the sound with two thicknesses of cloth, separated by an air space.

Helping the Town . . .

By banking your money in a bank in your own community you increase the community's power to do business. If substantial farmers want to borrow money there is more to loan them. If you bank your money away from home it is loaned to other farmers, merchants and manufacturers. Help your home people. Money hidden at home helps no one. Placed in a bank it is put to work in ways that help all.

The First National Bank of Klamath Falls

In a good bank to put your money in—safe and reliable.

A Savings Account . . .

In a rainy day fund, a life insurance policy, a sick benefit, a funeral benefit, and an old age pension. There is no forfeiture when in the pastbook, and it is under the owner's control at all times. It will tide him over sickness; it will care for his family when he must go; it will see him through old age, and pay him when he dies. It is a simple business proposition. Invest early, and keep it up, and the money in the account, it will multiply him as he journeys.

Now is the time to open an account with the
