

PINCHOT ROW IS NOW OVER

PRESIDENT TAFT DIPLOMATICALLY UPHOLDS BOTH MEN

CONSERVATION WITHIN LAW

Reflection on the Chief Forester Was Intended in Letter to Ballinger—Values Pinchot

According to a Salt Lake dispatch as a result of several long conferences the Chief Forester Gifford Pinchot and President Taft caused to be issued a statement in which it is declared that at any time during the Ballinger-Pinchot controversy has the president intended to reflect upon either of them, and in which Mr. Taft takes a more forward stand than ever in favor of the Roosevelt policies for conservation of natural resources. The president indicates that what he has done in the way of reclamation is not to be done within the law, but he announces his intention of applying to congress for such confirmatory and enabling legislation as will carry the Roosevelt policies on the greatest possible basis.

Pinchot Gives Out Taft Letter

Mr. Pinchot, before leaving Salt Lake for Washington, also issued a statement in which he makes public the substance of President Taft's letter to the chief forester at the time the letter to Secretary Ballinger dictated. The president said he believed Mr. Pinchot would not find reason in the Ballinger letter for resigning. "I shall not resign," declares Mr. Pinchot, and he adds that he is going to continue to serve the government on the same lines he has pursued in the past, concluding with the statement that he believes in equality of opportunity under the Roosevelt policies, and is ready to stand for them as long as he has the strength to stand for any of them. Pinchot's statement was shown

to the president before it was given out. The president's statement was as follows:

President Values Pinchot

In view of published items that the letter of the president to Secretary Ballinger was to be considered in some way a reflection on Pinchot, the president today authorized the publication of the following:

"That at the time he wrote the letter to Secretary Ballinger he also wrote a letter to Mr. Pinchot, asking him to believe that the conclusions stated therein were not intended in any way to reflect on him; that the president deemed Mr. Pinchot's continuance in the public service of the utmost value; that he expected to continue the policies as to the conservation of resources, including the reclamation of arid lands and preservation of our forests and the proper restrictions in respect to the use of coal lands and water power sites, as well as the improvement of our water ways, and to ask congress for such confirmatory and enabling legislation as would put those policies on the firmest basis; and that he would deem it a great loss if, in respect to the matters in which Mr. Pinchot had been concerned, the administration should be denied the benefit of his service."

WHITE AND DEZELL RETURN

W. A. Dezell and wife and G. W. White and wife returned to the city Sunday evening. While absent they visited the fair at Seattle and also Bellingham, Wash., where Mr. Dezell has a sister.

Mr. Dezell, in speaking of the crops on the outside, stated:

"Klamath county has got it over all of them, as far as I could see, when it comes to crops. I saw land between Seattle and Bellingham which is not a whit better than ours, and upon inquiring as to the value of it it was told it was selling for \$500 an acre."

Lost—Between the Stilts dry goods store and the Presbyterian church, a pair of eye-glasses. Finder please return to the Stilts Dry Goods company.

MISTAKEN FOR COYOTE

H. W. LABOURN KILLED NEAR LAKEVIEW BY A HUNTER

WAS RESTING UNDER A BUSH

Was a Resident of This City and Was on His Way to Lakeview in Search of Employment

The sheriff's office received word over the phone last night from Lakeview to the effect that a man by the name of H. W. Labourn, formerly of this city, had been shot near that place by accident. It is reported that this gentleman laid down alongside of the road to rest, and a hunter in passing took him for a coyote in the brush and shot him. He has a son living here, and his wife is at present in Los Angeles.

The son, who is living at Mrs. Beate's on the west side of the river, is not yet in possession of the details of the accident, and the details thus far received are very meager.

HOPE THEY DON'T GO BACK

H. M. Macgregor, traveling passenger agent of the Union Pacific Railroad company, is in the city. Mr. Macgregor accompanied from San Francisco the delegation of Bohemian colonists who are now examining the Lakeside tract at Merrill. Mr. Macgregor states that there will be quite a movement westward among the Bohemian colonists this year. Sixty-three of these colonists will leave Chicago on the 11th prox., bound for this section, and later on there will be eighty or ninety more start. Mr. Macgregor, who is acquainted with the habits of these people, more or less, states in regard to them: "They are a very thrifty, honest class of people, and first-class farmers. Most of these colonists have more or less capital. They have sold their lands in the East, and are now looking for locations where they can reinvest their money and get more land than they have had heretofore. They come from all sections of the United States, but are operating under one main colonization company. The group that will leave Chicago on the 11th come mostly from Illinois, and twenty-five of the colonists now here came from Oklahoma." Mr. Macgregor will remain here until the return of the colonists from Merrill, in an endeavor to secure their return passage for his line. The car they arrived in is being held here for them.

BUILDING THE NATRON LINE

Right of Way Granted Through Lebanon for Road to This City.

A dispatch from Lebanon, Ore., contains the following news of interest to the people of the Klamath country:

"The city council at an adjourned meeting last night granted the Oregon and California Railroad company a right of way and franchise to all the streets necessary for it to make the run through the city to connect with the Crabtree end of the Woodburn-Natron line of the road. The rights of way have been secured for the entire cut-off from this city to Crabtree, and the bridge engineers are now in Lebanon to commence the work next Monday on a steel bridge over the Santiam at this city.

"The engineers have found excellent footings for the bridge. On one side of the river the bedrock is at the top of the ground on a rock bank, and on the other it is only fifteen feet to bedrock. The bridge men are highly satisfied with the condition for a bridge site, and believe that so soon

ble will be given the structure by the high waters of the Santiam.

"Twohy Bros. of the Deschutes valley fame, have been awarded the contract for the grading of the road from this city to Crabtree, and will have a force of men at work within the next week. Men and teams are already being engaged in this vicinity for the work. The grading of the roadbed will begin from the Crabtree end of the road, so that the road can be used for getting the material on the ground. The bridge work will be taken in from the Lebanon end, and the line of road and grade made from the present end to the river for conveying the bridge steel to the site. This will require the immediate construction of about a half mile of track through the city to the river. It is expected that the grading will be completed from Crabtree to the river here by the time the bridge is completed.

"Accommodations have already been secured in this city for the bridge crew and engineers, and the grading gang will find camps along the route of the work, with provisions taken in from both ends of the road. Lebanon will be the chief market place."

Mr. H. P. Hoey, construction engineer of the Southern Pacific, arrived in this city Sunday evening, after having taken a trip of inspection overland from here to Hazel Dell, which is the present northern terminus of the Natron branch. Mr. Hoey reports that the work on the northern end of this line is progressing very rapidly, and that practically the entire distance of 35 miles is covered now by sub-contractors under the Utah Construction company. There are between 600 and 700 men at work, and many more are coming in. In order to hasten the work steam shovels are being taken down, loaded on wagons and hauled out on the line for a distance of ten or fifteen miles. Mr. Hoey expects that the work of construction on this 35 miles will be completed within a year. The Utah Construction company, which has this contract on the northern end of the Natron branch, is composed of men of vast experience in this line of work. They had the contract for constructing the Western Pacific from Utah into Oroville, Cal., most of which was sub-let by them. The sub-contractors on the Western Pacific followed this company into Oregon, with their men, which makes an efficient working force, with the good results before mentioned.

WINS THE \$200.

K. Sugarman of the Portland Store received a telegram last evening from Portland advising him that he had won the \$200 contested for by him and three stores in Portland. The conditions of the contest were that each of the four stores would deposit \$50, the aggregate sum to go to the one selling the greatest amount of merchandise between the hours of 6:30 and 9:30 last Saturday night. The telegram announcing Mr. Sugarman's success stated that he had won by \$43.65.

To the casual observer this might seem to be of little importance, but to the person who takes notice of events that go to indicate the conditions of the section in which he lives the winning of this prize by Mr. Sugarman shows that Klamath Falls is right in the front rank as a business community. It proves that the drawing power of printers' ink is as strong in Klamath Falls as it is in Portland, and that there is no such thing as 'dull times' if there is life enough in the merchant to go after the business. Mr. Sugarman got the business because he went after it and backed up his advertising with real values. The Herald is glad of his success for more reasons than one, particularly the one that demonstrates that "it pays to advertise."

AT THE OPERA HOUSE

Only three more nights remain in which votes may be cast in the baby contest. The winner will be decided in these last few days, and those who have a special favorite should make it a point to be present and vote for their chosen baby. No. 24 still retains the lead, with No. 3 and No. 29 following in the order named.

A story of the Civil War, "Mine at Last," telling of the love of a pretty girl and a gallant Union officer, will be the first film on the program tonight.

An amusing farce, "Weary Bones Seeks Rest and Gets It," makes the most morose laugh.

A thrilling drama telling of a farmer's daughter and her adventures in a strange city is shown in "A Country Girl's Peril." Then a very interesting biograph film, "The Message," which is sure to entertain the most critical.

New music and "Baby Marion" in character specialty, "Take me out to the ball game."

If you want something really fine get a link of that imported Salome sausage at the Meserich Mercantile Co. Phone 1661.

RUSHING WORK ON NATRON END

UTAH CONSTRUCTION COMPANY HAS 600 MEN EMPLOYED

WORKING ON ENTIRE LINE

Engineer Hoey of the Opinion That Work on the 35 Miles Will Be Completed Within a Year

Mr. H. P. Hoey, construction engineer of the Southern Pacific, arrived in this city Sunday evening, after having taken a trip of inspection overland from here to Hazel Dell, which is the present northern terminus of the Natron branch. Mr. Hoey reports that the work on the northern end of this line is progressing very rapidly, and that practically the entire distance of 35 miles is covered now by sub-contractors under the Utah Construction company. There are between 600 and 700 men at work, and many more are coming in. In order to hasten the work steam shovels are being taken down, loaded on wagons and hauled out on the line for a distance of ten or fifteen miles. Mr. Hoey expects that the work of construction on this 35 miles will be completed within a year. The Utah Construction company, which has this contract on the northern end of the Natron branch, is composed of men of vast experience in this line of work. They had the contract for constructing the Western Pacific from Utah into Oroville, Cal., most of which was sub-let by them. The sub-contractors on the Western Pacific followed this company into Oregon, with their men, which makes an efficient working force, with the good results before mentioned.

In speaking of the progress being made on this end of the line, Mr. Hoey stated: "The work on this end of the line is being delayed somewhat on account of securing right of way through the reservation and other government matters. As soon as these things are straightened out we will go right ahead. The steel for the bridge over the canal is now arriving, and as soon as that structure is completed we will be in better shape to push this work, for we will have direct connection with the Upper lake with the temporary trestle which is now being used over the spillway in the Hot Springs addition."

Mr. Hoey is laid up at the present time with an attack of rheumatism.

NEW CHRISTIAN CHURCH

On last Thursday was commenced the erection of a temporary church building by the Christian people or Disciples of Christ of this city. The building will be so constructed that it may be used for a church until such time as they may build a permanent structure. The temporary building will be 40x40, and is arranged especially to accommodate the public during a series of evangelistic meetings to be held in October. Rev. J. B. Holmes, the famous evangelist, has been engaged. Special music and special evangelistic sermons will be relied upon to bring the Gospel to the people.

FAREWELL MUSICALS

A farewell musicale was given last evening at the Baldwin by Mrs. E. P. Morgan, who expects to leave this city and return to California. Mrs. Morgan has been a resident here for about three years, and often has been heard in public concerts. She has a host of friends who will sincerely regret her departure, for she is possessed of a charming personality that

has made her one of the popular matrons of the city. The program last evening was most entertaining, and was thoroughly enjoyed by those who had the good fortune to be present.

Following is the program:

- Vocal solo—Mrs. Childers
- Piano solo—"Last Hope"—Gottschalk
- Mrs. H. D. Mills
- Vocal duet—"Beautiful Moonlight"
- Mrs. W.O. Huson and Mrs. E.P. Morgan
- Violin solo—"Ave Maria"—Gounod
- Mrs. Margaret Briggs
- Vocal solo—"Staccato Polka"—Mulder
- Mrs. Morgan
- Either and violin duet—Mrs. Briggs and Mr. Oldt
- Recitation—Miss Grace Nickerson
- Vocal duet—"Love Divine" (Daughter of Jairus).
- Mrs. Guy Childers and Mrs. Morgan
- Vocal solo—"Waiting"—Millard
- Mrs. Morgan
- Violin obligato—Mrs. Briggs
- Suwannee River

CHAMPION AL. W. PAPE

To Give Free Lecture to Ladies Only At the Hot Springs Bath.

On Wednesday, September 29th, from 3 o'clock to 4, Al. W. Pape, American champion carman and retired amateur champion swimmer, will give a free lecture to ladies only at the Hot Springs baths.

Mr. Pape has won seventy-three championship trophies in rowing, swimming, running, etc., and is classed as one of America's foremost athletes, having competed in and won the national championship in rowing at Philadelphia, 1902, Lake Quigam, Worcester, Mass., 1903, St. Louis fair, Mid-Winter fair and the Portland fair.

Mr. Pape is a friend of Mayor Sanderson, and has agreed to give this lecture on swimming, showing the different strokes, the position of the body in the water, floating, diving, swimming under water, etc.

This will be a great opportunity for the ladies of Klamath Falls to learn from Mr. Pape's experience of this wonderful art.

Mr. Pape leaves Klamath Falls Thursday morning for San Francisco. He is the representative of the Pacific Paint company of that city.

E. Carpenter and wife left Saturday morning for the Grohs ranch on a visit. Mr. Carpenter is traveling auditor for the Wells-Fargo company, and as is his custom every year, is taking his vacation in this county. He is a brother-in-law of Dr. Wm. Martin.

TO FIGHT DEMON RUM

OLD JOHN BARLEYCORN TO GET HIS KNOCK-OUT IN 1910

STATE-WIDE PROHIBITION

Big Gathering of Local Optionists Next Month, at Which Plans for Campaign Are to Be Made

Details of the campaign for state-wide prohibition, which will be waged in Oregon next year by the Anti-Saloon league, will be arranged at the annual meeting of that organization in Portland, Tuesday, October 12.

Among the important questions to be decided at that meeting is the proposed publication of a daily newspaper under the auspices of the league in its fight on the rumshops. In addition to the election of officers, a new board of trustees and an executive committee will also be named.

"Not a day has passed since we first announced our intention of carrying Oregon for prohibition at the 1910 election that we have not received substantial encouragement from different sections of the state," said J. R. Knodell, superintendent of the Anti-Saloon league. "In our efforts to drive the saloons out of the state it has been decided to propose a constitutional amendment providing for state prohibition. From the encouragement we have received we are more than confident that we will be successful in our fight."

"Victory for the temperance forces will be won in large measure by the liquor men themselves. They always have opposed all legislation looking to the regulation of the liquor traffic and today these same forces are doing everything in their power to discount the local option law as it is being enforced in a majority of the counties of the state. Liquor Dealers Accused.

"We have positive proof that large dealers in intoxicants in Multnomah county have for some time been shipping quantities of liquor into local option territory for the single purpose of making it appear that there is just as much drunkenness in the dry counties under local option as there was under the old order of things. We are also in possession of information to the effect that these dealers are not only supplying the liquor, but in many instances have sent agents into counties where local option prevails for the purpose of assisting in its defeat."

Let Us Fill Your Prescriptions

When a man says, let me fix your watch or let me paint your house, you've got to believe him capable of doing a good job before you have him do it. That's reasonable.

When we ask you to let us put up your prescriptions it is natural that you should be told how capable we are of doing it. Now that every prescription we handle is filled to the letter. Now we test every article in our store before placing it in stock and that none but a thoroughly qualified pharmacist is allowed to handle your prescription in any way.

We have established our ability to fill your prescriptions easily in having been located here for five years and still growing and more every year.

Let us fill yours—
