FOURTH YEAR, No. 003

KLAMATH FALLS, OREGON, WEDNESDAY, OCTOBER 27, 1909.

PRICE 5 CENTS

INDUSTRIAL ENTERPRISES

HIGH WASH AND DOOR FACTORY SOON TO BE ERRECTED

NEAR THE OLD COUNTY ROAD

Rumor Also Says That an Immense Warehouse Will Be Built Here to Store Wheat

The industrial development of Klamath Falls has been receiving the attention of several capitalists during the past two weeks, and while every effort has been made to keep the matter quiet it has leaked out that before many more weeks pass by there will be located in this city a mammoth sash and door factory and a big warehouse. Who the men are that are back of these enterprises it has been impossible to learn but the negotiations have progressed far enough to warrant the statement that both enterprises will be a reality before long.

The sash and door factory is the outcome of the prospective development in the near future of the timber interests in this county. It will be one of the largest on the coast, and be as modern as money can make it. Its location is still in the dark, but rumor has it that it will be close to the old county road, and be served by a spur from the Southern Pacific.

The erection of a large warehouse will not be so much of a surprise, as it is the natural outcome of the great development of the farming section this year. Few realized that there

was such an immense acreage placed in cultivation this year until after the crops were harvested. It was then seen that the wheat crop alone reached over a million bushels, and in order to care for it warehouse facilities were absolutely necessary.

About six weeks ago Sacramento people were in the market for Klamath county wheat, and the price offered was a cent and a half. As soon as they dropped out the price of wheat fell ten cents a hundred, but immediately raised when the agents of the Sacramento interests re-entered the market. It is a lack of warehouses that has kept other buyers out of the county, and this fact reaching the ears of capitalists soon brought them here for the purpose of caring for the demand.

Scores of Indians arrive every day to buy their fall and winter supplies, and they are good customers—ask the store keepers—always there with the ready cash when they happen to see anything they want.

EDLER'S MACHINE AT WORK

Watering Troughs to Be Placed Beside County Road.

At Round Prairie, four miles west of Keno Springs, on the county road, J. D. Edler's machine is boring for artesian water. This work is being watched with interest by all the ranchers from the reservation to Wilson alley creek and from the Sprague river to Bonanza. It is Mr. Edler's intention to place troughs beside the county road for the convenience of those who pass.

Thirty-five thousand head of sheep are summering there, and it is now necessary to drive them to Sprague river, some twenty miles, to water every two or three days, whereas if they could find water the cattle, horses and sheep, which would range there could find water, too.

O. G. Baldwin is in charge of the boring. They are at present down about 200 feet. With their present facilities they can bore 1,200 feet, but if they fail to find water at that depth they will go 1,200 feet deeper. The drill alone weighs 2,100 pounds, and a forty horsepower engine is doing the work, so one can imagine the power and strength of the machine.

It is absolutely necessary, if this country is to grow as it should, that those who live here should work together for the good of all. Mr. Edler, who ranks as the third largest sheep owner on the coast, has shown that he is willing to do his part. Vast benefits, of course, he will derive from this work, but those who run stock in that neighborhood will also be benefited, as they know themselves.

PLAIN SEWING WANTED

The Presbyterian Ladies' Aid society is prepared to do all kinds of plain sewing. Comforts tied or quilted. Mrs. Harry Caden, Mrs. Geo. T. Pratt, Committee.

R. A. Atherton, who had his finger mashed Monday, is doing nicely.

John Britt is now employed as a clerk at the K. K. K. Store.

Chas. Lewis is now able to walk around, and expects to be out of doors soon.

A new suit for the recovery of money was filed in the county clerk's office today. E. E. Fitch vs. Daniel Van Brimmer. Thos. Drake, attorney for plaintiff.

E. B. Henry, civil engineer, goes to Port Klamath in the morning to complete his surveying contract of lands on the reservation.

PREPARING STATEMENT

MAYOR SANDERSON AT WORK ON ADDITION DOCUMENT

MAY HAVE ANOTHER CITY

Hot Springs Addition May Incorporate in Order to Get Rid of the Stock Nuisance

Mayor Sanderson is engaged in preparing the statement that he will issue on the matter of the extension of the city limits, and will have it ready for publication in a few days. In it he is going to lay before the people living in the adjoining additions just what the city proposes to do in return for the benefits to be derived from the extension of the municipal boundaries. He is going over the ordinances and also the correspondence that has been had with the Hot Springs company, and every detail of the issue under discussion will be gone into exhaustively.

The mayor is anxious to see the city enlarged during his administration, and will do all within his power to meet the demands of the residents of the additions. He recognizes that they are entitled to certain concessions, and it is for the purpose of enlightening them as to how far the city can go that the statement is being prepared.

The residents of the Hot Springs addition are particularly anxious to see something done that will rid them of the stock nuisance. If the vote is in favor of coming into the city is against such a move, then it is not unlikely that the property embraced in that addition may be incorporated into a city. If such is done, then it will be in a position to regulate the matter of stock, street lights and other municipal problems in a manner that will prove satisfactory to those interested. This step, however, will be taken only as a last resort.

Now is the time to buy your winter togs at reduced prices. The Toggery sale.

We quote from Everybody's, who clipped the following for the benefit of those who doubt the power of the press: "Owing to the overcrowded condition of our columns, a number of births and deaths were unavoidably postponed this week."

The Baker City Herald is making a fight for good mountain water and the Salem Capital Journal wants to know who says editors want hard drinks?

Some idea of what the railroad has meant to Klamath Falls is gained when one stops to consider the number of ranchers and farmers from Paisley and Silver Lake, who are buying their supplies here now instead of, as formerly from Shaniko and then hauling them through Madras, Bond, Rosland, about 200 miles. Now that we have one railroad and another headed this way, it is impossible to estimate the rapid growth in population and development of natural resources that may be expected in the next few years. Surely, we live in a good land at the right time.

It seems that California had to choose an Oregon girl to represent the state as the Queen of Fortola. Like Alexander, we are reaching out for other worlds to conquer.

The Little Fellow—What is a dry town?

He With the Large Experience—One where they don't use much water.

WESTERN UNION HERE FIRST OF DECEMBER

District Superintendent May Here to Make Arrangement for Entrance

A. H. May of San Francisco, superintendent of the first district, Pacific coast division of the Western Union Telegraph company, arrived in the city last evening. He is here for the purpose of opening negotiations for the entrance of the Western Union into this city. He held a conference with Mayor Sanderson and some members of the council today, and made formal request for permission for the placing of poles on the streets of the city. Probably at the next meeting of the council an ordinance will be introduced granting the permission desired.

"We hope to be in this city by the first of December," said Mr. May. "Our men are now placing poles between Weed and Gram Lake, and are being closely followed by the wire men. It has not been fully decided just what we will do about an office here nor where it will be located, these matters being for future determination. We will, however, have an office uptown and will probably have two men employed here. The service we propose inaugurating will be the very best at our disposal, and we feel that this city will have no cause to complain about the treatment it will receive from the Western Union."

Mr. May expects to leave in the morning for San Francisco, but will return again in about three weeks, when final arrangements will be made for the opening of the office.

Defias Itemizer—Last week a man came into this office and wanted us to jack up a brother editor because he had said something about the aforesaid man which he didn't like. That kind of business makes us hot—this continual trying to get an editor to pull your sheenstus out of the fire or say something about someone else—that you are afraid to say yourself. We are not doing that kind of business. We have troubles enough of our own, without assuming other people's—there are worries enough in a print shop to drive a man to drink. If you do not like what the other fellow says, go to him about it. Do not come to us. If you do not like what we say, go to him, too.

Bit of Advice From Missouri Along the Same Line—Don't go into a newspaper office and ask the editor to roast somebody. You don't know how it looks or you wouldn't do it. Here's a parallel case: You step up to a friend and say: "Bill, I wish you'd go over there and give that fellow a good cussing for me. I'm a little afraid to do it myself."—Lamar Democrat.

George Buffum, who has been in town visiting for the past few days, left this morning for Keno Springs.

Everybody is getting an auto of some type, and even the editor is consumed with a raging fever for a small wagon.—Lakeview Examiner.

STOP THIEF!

Notice is hereby given that the Herald will prosecute to the full limit of the law anyone caught stealing copies of the Herald from subscribers. During the past week many complaints have come to this office, and steps have been taken to catch those guilty of the theft. If there is anyone who cannot afford to pay for the paper and will so advise this office, a copy will be furnished free.

PLANNING FOR NEW SCHOOL

MEETING OF DIRECTORS WILL SOON BE HELD

BONDS ARE NOT YET SOLD

Contract Will Be Let This Winter, So as to Let Contractor Prepare for Work in Dull Season

Plans for the new school that is to be erected on the West Side are now under consideration, and a meeting of the school board will be held during the next few days for the purpose of outlining a program governing the action to be taken. Nothing has been done relative to the disposal of the bonds that were voted for this purpose, and this will be the first thing that will receive the attention of the directors.

No attempt is to be made to erect the school this year, but plans will be prepared and specifications submitted during the winter in order to let the successful contractor prepare for the erection of the building just as soon as possible after the winter is over.

It is the intention of the board to have a structure that will be a source of pride to the city and the subject of admiration of new comers. The site selected is one of the most slightly in the city, and can be easily viewed from the railroad. This will be an important matter when this is a main line city, for it will secure the attention of thousands of travelers passing through. Since the election of Mr. Goeller no meeting of the board has been held, and not until the members get together officially will anything of a definite character be agreed on.

SOCIAL

The Ladies' Aid of the Presbyterian church will give a social Thursday evening, October 28th, at the home of Mr. and Mrs. C. C. Hogue, on Sixth street. Every member and friend of the church and congregation is invited to be present and enjoy a social evening. A musical program has been arranged and refreshments will be served. No charge.

NNW PICTURES AT THE IRIS

"New Mexico, the Land of Sunshine."

"The Little Drummer of 1792" is a touching drama.

"The Cobbler and the Millionaire" is one of the high-class pictures always seen at the Iris, and "The Message," beautiful scenery, faithfully rendered by good photography and ideal setting for this Biograph picture, which tells the story of a woman who almost fell and was only saved by the interposition of her little child. Few dry eyes are seen as the woman listens to her child instead of her lover, who would lead her astray.

"A Simple Home Dinner, Far From the Madding Crowd" will conclude the program.

The Iris theater has bought a new piano from Gillette, the furniture man.

K. OF P. NOTICE

Stated convention at 7:30 Thursday night. Conferring rank of Knight. A large attendance is desired.

AT THE OPERA HOUSE

A well-known young lady, residing in Klamath Falls, will make her initial amateur performance in the serpentine dance tonight. The beauty of the dance will be heightened by several wonderful electrical effects.

"Thelma's Heart," a tale of ancient

Greece, is a beautiful hand-colored film alone worth the price of admission. It tells in beautiful pictures of the love of a man and a maid, which withstands the stress and strife of all the years.

Did you ever try to cure a cold in the chest with "A Mustard Plaster"? If you have you will appreciate the agonized efforts of one young man as he attempts to lessen the feverish heat caused by one of those old-fashioned remedies.

"Much Ado About Nothing," when wife dear finds another woman's picture in her husband's overcoat pocket. "The Violin Maker of Cremona" is a motion picture classic. Natural and sincere are the actors, the story is absorbingly interesting, telling that ever-new tale of the love of a man and a maid.

BRIEF MENTION.

Only six days more of the great sale at The Toggery.

You should try some of Heins's bulk sweet and sour pickles at the Monarch Mercantile company.

H. L. Chandler and his daughter, Elma, drove in from Lakeview last night, and left this morning on the train for Medford, where Miss Elma is to enter the Catholic school.

The lowest price ever known, at The Toggery sale.

D. M. Griffith of Eagle Ridge and his brother, W. A. Griffith of Bonanza, Va., are in town. They had not seen each other for nearly thirty years until the visit of W. A. Griffith here.

Lucien Applegate is in town from his ranch at Swan Lake. "Every year," he says, "I believe more in the glorious prospects of this country, and expect to see large dairies, creameries and cheese factories here within the next few years."

Carl Grubb, a nephew of Mrs. Lucien Applegate, has left for his home at Hornbrook, Cal. He is riding his saddle horse over. From there he will probably go to Imperial Valley, Cal., where his cousin, Elmer Applegate, has charge of the experimental farm, 175 acres.

The county clerk and his deputies have issued 17 hunting licenses and one fishing license in the past two days to sportsmen from different parts of the county.

Mrs. J. F. Taylor left this morning for San Francisco, where she will visit friends. Before returning home she will stop in Northern California for a few weeks.

BONDS BOTHER CITY FATHERS

COUNCIL MAY DECIDE TO RE-ADVISE VERTINE FOR BIDS

MIGHT GET BETTER PRICE

The Trimming of the Office of Morris & Co. Causes Council to Consider New Move

Mayor Sanderson and the city council are still puzzling over the sewer bond question. When the representative of Morris & Co. of Portland came here he was instructed to trim their original offer about \$600. This change of front did not suit the city fathers, and the advisability of re-advertising the bonds was then discussed. No action was taken, the entire matter having been submitted to City Attorney Drake for his opinion, and when this is rendered the council will decide what to do.

The capitalists on the outside are as ignorant as a colored gentleman in Africa as to the size and development of this city, and this was evidenced by the surprise manifested by Mr. Gilmore, the representative of Morris & Co. It is safe to say that if the bonds are re-advertised that there will be more than two bidders, and the mayor and council will not be surprised if they received a better bid than either of the two submitted in answer to the previous advertisement.

The council feels that since they were held up so long by Kenn & Co., as to prevent the commencement of work on the system this year, there is no need for any great speed at this time, and they have decided that when the bonds are again sold the sale will stick, and the city will get the money. All of this can be worked out in sufficient time to admit of advertising for bids for the system and the awarding of the contract so as to permit of work commencing when the season opens next spring.

BIG STRIKE IN THE BOHEMIA DISTRICT

One of the richest strikes ever made in Western Oregon was made in the North Fairview mine, Bohemia district, a few days ago. The ore is fabulously rich, and the ledge is 300 feet wide. About two feet of the rich stuff is free milling ore, and the rich stuff is a stringer running along the hanging wall. The find was made on the surface, only 200 feet below the main tunnel. Bohemia will get to be a great camp.

DUTCHESS TROUSERS
10 Cents a Button
\$1.00 a Rip

DUTCHESS TROUSERS
are easy in any position. Liberal use of cloth in hips and seat makes them comfortable as well as stylish, and they are cut to fit, shrink to shape and made to stay.
