IMPORTANT MEETING

CITY DADS WILL HAVE REGULAR MEETING TONIGHT

BE AN INTERESTING SESSION

May Consider Question of Sewer Bonds, Ankeny Canal, Extension of City Limits, Etc.

The regular meeting of the city council will be held this evening and indications are that many matters of vital importance will claim the attention of the members.

The question of what is to be done with the sewer bonds will undoubtedly be considered, as the mayor is particularly anxious to have this matter settled permanently and at as early a date as possible. As it now stands, the city holds the offer of Morris & Co. which is \$600 less than their first bid.

They feel that if the bonds were sold at a higher premium price, they ought to be worth it again, and it is doubtful if they will accept the offer. This will result in virtually rejecting all of the bids and necessitating re-advertising.

The light and water question ought to come in for the attention of the council, for it has been resting now for a couple of meetings and that is longer than that infant has been allowed to sleep for some time. Whether the new ordinance regulating the rates to be charged for service will be introduced or not remains to be seen.

It had been his habit to get up about eleven o'clock and open the restaurant and so it was quite easy for him to get away on the morning train and have no one miss him until about noon. This he did. Sheriff Barnes phoned to hold him, but too late; he had already passed Weed, and was well on his way.

Just now the grocers and storekeepers are busy finding the answer to that old riddle, "Who's what?"

ARRESTED FOR DRUNKENNESS

George Cook, a tourist guide from Klamath Hot Springs, was brought before Police Judge Leavitt this morning charged with being drunk. He was arrested yesterday evening shortly after coming into the city. It seems that Cook was cold after his long ride, and walked as if he had been imbibing too freely. Night Watchman Townsend suspected him of being intoxicated. He proceeded to arrest Cook, who, not recognizing the policeman as an officer, made a slight resistance.

Cook demanded a jury trial this morning and the case was put off until ten o'clock tomorrow morning.

Cook feels that he was unjustly attacked, and is determined to fight the matter to a finish. He says he was beat over the head without provocation in addition to being arrested on a charge of which he is not guilty. H. M. Manning is attorney for the defendant, and the trial in the morning promises to be an interesting one.

seen. It has been in course of preparation for some time, and should be in shape for submission for the consideration of the council.

It is at this meeting that the written report of the committee on health and sanitation on the Ankeny canal should be submitted to the council, and the city will then be in a position to tell Uncle Sam what it desires done with this particular nuisance.

Then, there is the matter of the extension of the city limits, street improvements and several other matters that have been receiving more or less attention for the past several months. These will no doubt be up for discussion this evening. The program is an interesting one, and ought to make the meeting this evening one of more than ordinary importance to the citizens.

ROY BUTLER LEAVES HELP UNPAID AND HENT DUE

And Decides It Is Good Policy to Leave While His Shoes Are in Good Condition.

Sunday morning no little excitement was caused when Roy Butler turned up missing. Butler has been conducting an oyster and tamale parlor in the Central cafe, and when he found that he was losing, decided to leave his bills and the country after he had collected all the money he could. He not only neglected to pay the rent due, but failed to pay his hired help, and so there are a number of persons rather anxious to meet him again and settle their accounts.

Butler drifted in here about a month ago and arranged with J. V. Houston for the rent of the Central cafe, and as he had previously tended bar for Mr. Houston, he had little trouble. Over in Lakeview, Butler had tried the restaurant business, first behind Whorton's saloon, and afterward on the street he put up a stand which he named the "Blue House." As neither of the ventures were successful, he decided to try this city, and though he succeeded himself, there are others rather sorry he ever started in.

He had been his habit to get up about eleven o'clock and open the restaurant and so it was quite easy for him to get away on the morning train and have no one miss him until about noon. This he did. Sheriff Barnes phoned to hold him, but too late; he had already passed Weed, and was well on his way.

NEW PICTURES AT THE IRIS

"Winning a Princess." The king or Cordonia promises to give the hand of his daughter to whoever will kill the evil spirit, a horrible monster haunting the mountains adjacent to his country. Two men declare themselves as aspirants to the honor, one a warrior bold and the other a poet, the latter the favorite of the princess. The poet befriends a sorcerer, and is rewarded with a magic arrow, with which he can kill the beast.

"Miss Simpson's Attractiveness." Miss Simpson has a nervous contraction of the face that makes her smile at every man she meets. Aside from being very annoying to the lady, it causes serious complications, giving rise to a great deal of merriment.

"A Royal Outcast" is a splendid drama from the Vitagraph company. "Liberty for an Hour," and "The Judge's Whiskers" are two more good pictures to add interest to the program. Views and an illustrated song.

NEW PICTURES AT THE OPERA HOUSE

Those who are familiar with that classic drama, "East Lynne," will enjoy immensely the film "Led Astray," which is East Lynne converted into a silent drama.

"The Dramatist's Dream" is rarely shattered when he learns the play he thought would make him wealthy has been rejected.

"Saved From Conviction" by the merest chance after a set of false circumstantial evidence has been woven around him, is the lot of more than one innocent person.

"The Evil That Men Do" affirms wrecks not only their own lives, but the lives of their most casual acquaintances. A strong film shows the power of our individual influence on our friends.

The meetings of the Christian Science church will continue this week. Interest increases and Rev. Holmes continues to preach interesting and forceful sermons. On Lord's Day 75 attended the Bible school, in spite of the inclement weather. At the close of the morning service pledges were taken for the running expenses of the church for the coming year. In ten minutes this had been provided for.

Lord's Day evening Rev. Holmes did not preach the sermon on "Christian Baptism," as he had announced. It will be given Wednesday evening of this week. Illustrations by the stereopticon will be used to explain the scriptures. Everyone is invited to these services.

Mrs. Emeline Gouldin Pankhurst, a militant suffragette from London, is in New York and is denouncing English prison authorities who are forcibly feeding the fool women who are trying to starve themselves in jail—probably believing this insane act will make them martyrs, and that their deaths will be but the signal for the glorious resurrection of woman's suffrage. Says Mrs. Pankhurst: "Forcible feeding is horrible and inhuman, and is done to rob the victim of her dignity and make her efforts in behalf of the cause ridiculous. It is also very injurious." But, Mrs. Pankhurst, isn't starvation injurious?—Sacramento Bee.

Good roads are good investments. All sums expended intelligently in the counties of Oregon on the roads will increase land and other values more than the cost of the roads; and there will be comfort and convenience, ease of movement and immense saving in horse-drawn, harness and teaming, besides.—Oregonian.

TEACHERS' INSTITUTE

ANNUAL MEETING OF TEACHERS CONVENES TODAY

IS VERY LARGELY ATTENDED

Proceedings of the First Session of the Teachers' State Superintendent Present.

The annual session of the Teachers' Institute of Klamath Falls met this morning in the Eighth grade room of the public school for the three days' session.

There were present the state superintendent, J. H. Ackerman, Prof. J. R. Alderman of the U. of O., and Prof. H. R. Reesler of O. A. C., besides most of the teachers of the county and city, and some friends from the town and county at large.

Superintendent Swan called the session to order at 9 o'clock and after a short invocation by Rev. Geo. H. Foose, and two songs entered tentatively by the institute, an organization was perfected.

A short address by Superintendent Swan was followed by a pleasing address of welcome from Rev. Mr. Foose of Grace M. E. Church, given in his usual vein of quiet humor and wholesome philosophy.

Mr. Ackerman gave a good practical talk on school sanitation, arguing many simple improvements in public schools. In the course of the address he paid a compliment to the completeness of equipment in the Eighth grade room of the Klamath Falls public school. Mr. Ackerman touched upon cleanliness, tidiness, suitable decoration, tempering of light and ventilation.

He emphasized the thought that the school should be an adjunct of the home, and at least equal to it in cleanliness and moral tone.

After a short recess, Prof. Alderman gave a splendid uplift to the teachers in his address on "Craft Ethics," or the standards maintained by the teaching craft. The code included: (1) Social service. (2) Sympathy. (3) Sincerity. (4) Faith in pupil and self. (5) "We do not knock." He says "We must convince the public that our work is the work of an expert."

The session closed with an address by Prof. Reesler on "The New Teacher." He says the new teacher is coming, and has come. Four points were emphasized: (1) The teacher is coming to be recognized at his true worth in the community. (2) He is to be paid an adequate salary. (3) The new teacher is a specialist in his grade. (4) The new teacher is a trained teacher.

London, Eng.—Mrs. Chapin, a leader of the suffragettes, caused an early morning thrill at the Bormon-dealy-by-election when she smashed a bottle of carbolic acid on a ballot-box. Her intention was to burn the ballots in the box as a protest against the exclusion of women. What she accomplished was the burning of several election officials and the assurance of her arrest. Miss Christobel Pankhurst, in an interview later, deplored the injuring of the officials, but vehemently asserted that it was the government that drove women to such acts.

New York.—All information regarding the legal separation which Mrs. John Jacob Astor is reported to be getting from her husband is being carefully withheld from the public, though it was stated that Referee C. H. Young would soon be able to submit his report to the court. In the case of alimony, if granted, Colonel Astor will make a division of his property for the benefit of Mrs. Astor. So far as can be learned, Mrs. Astor has given no testimony before the referee.
