

The Evening Herald.

KLAMATH FALLS, OREGON, SATURDAY, NOVEMBER 20, 1909.

PRICE 5 CENTS

HERMAN CASE FIRST ON LIST

HENRY RETURNS TO TAKE UP LAND FRAUD TRIALS

WILL FINISH ALL THE CASES

Henry J. Herman's trial will be finished with keen interest in this district.

Henry J. Herman arrived in Portland last evening, whether he has come to take up the work of "closing out" the land fraud cases. The first case that will claim his attention will be that of Blinger Hermann, he having stated before he left San Francisco that he would endeavor to have it set for trial at the earliest date possible.

Speculation is already rife as to what effect Mr. Hermann's acquittal will have on the political affairs of this congressional district. Many of his friends have already expressed themselves that if he is freed from the charges preferred against him—and none of them doubt but that he will be acquitted—he will be a candidate for re-election to Congress. This matter has often been mentioned to Mr. Hermann, but he has always disclaimed it without any definite answer. His friends contend that inasmuch as he was practically eliminated from politics on what they charge are false grounds, it would be no more than fair to him that he be vindicated by returning him to Congress.

Inasmuch as the time is not far distant when the matter of his guilt or innocence will be definitely disposed of, his trial will be watched with considerable interest throughout this congressional district. Few men have ever held the affection of their constituents as has Blinger Hermann. He had the happy faculty of remembering names and faces, and the manner in which he attended to the wants of his district and the individual constituents won for him a host of friends that are not easily shaken in their confidence in his integrity. Should he decide to be a candidate he would certainly make it very interesting for his opponent.

Squash, cabbage and vegetables at the Monarch Mercantile company.

UCL M. BUSSEY

Word was received here at noon today announcing the death of Ucl M. Bussey, which occurred at Pokenama this morning. Mr. Bussey was stricken with pneumonia last week and his death has been expected for several days. He was teacher of the Pokenama school and recognized as one of the coming educators of the county. He was an indefatigable worker and possessed of qualifications that particularly adapted him for his chosen profession. The deceased is survived by his parents and several brothers and sisters. No arrangements have been made for the funeral, and none will be made until instructions are received from his parents, who reside at Lorella.

A breakwater which, when completed, will be some 10,000 feet in length, is now in course of construction at Hilo, in the island of Hawaii, to protect shipping from the heavy seas that sweep from the northeast. At present some 400 feet have been completed, and under the existing contract it is estimated that by the middle of next year a length of some 2,000 feet will be in position. The material used for construction is a basalt rock resembling heavy granite, which is quarried some twenty-five miles away and transported to the works under contract with the Hilo Railway company. According to the specifications, from a depth of three feet below the water-line to the top, bowlders of not less than eight tons in weight are to be used. The contractors are confident that the rock in question, which weighs 165 pounds to the cubic foot, without the use of cement, will resist any action of the waves.

While speaking of the proposed slaughter house to be erected in this city, a business man said: "It will be a great thing for the farmer. Here they will find a ready market for their hogs and other produce. It will tend to keep the cattle in this country and as they will have to be fed, the farmers will sell their hay right here and always find a buyer ready."

Thanksgiving is approaching and you should make a point of calling at the Monarch Mercantile company before making your purchases for the big dinner on that festive occasion. Remember they have everything and anything you may want.

CITY NEWS

Miss Beebe of Merrill is visiting in the city.

Riley Haskins of Merrill is stopping at the American.

C. Taylor of Bly is in the city, stopping at the Livermore.

O. B. Gates went down to Macdoel on business this morning.

J. H. Edson returned to Bonanza on the stage this morning.

C. S. Patten has moved his paint shop into the Fitch building.

J. H. Lyon and wife of Trail are in the city transacting business.

Earl Beeson will leave in the morning for the Rogue River valley.

Joe Snoderley and W. P. Whitney of Merrill are visiting in the city.

Chas. Buick of Silver Lake is in the city getting supplies for the winter.

A. D. Harpold of Bonanza is in the city attending the trial of the Shook case.

The L. T. L. will meet at the lecture room of the M. E. church Sunday at 3 o'clock.

Mrs. Henry Wendt and daughter, Owens, left for their home at Lakeview on the stage.

You can't beat the Monarch coffee you will get at the Monarch Mercantile company for 25 cents.

W. O. Smith, Frank Sargent and Jack Harryman took a trip down the lower lake Friday afternoon.

All the testimony is now in in the case of Shook vs. Taylor, which is being tried before the circuit court.

An inquisitive editor has asked if the secrets of the secret service will be exposed with all this investigating.

C. C. Underwood, who was called to Olympia by the sudden death of his father, is expected home this evening.

Jack Cunningham and J. W. Chapman are rapidly completing the residence on the Hannan ranch south of the city.

Jack Connolly of Wampus returned Friday evening from Lorella and will leave in the morning for his home.

L. L. Lockhart, J. C. Hill and several others went out on the lake in a launch this afternoon to try and get some ducks or geese.

Mr. and Mrs. L. H. Blehn and family leave Tuesday for Scappoose on a visit to Mr. Blehn's sister. They expect to be absent a month.

Frank Rolfe left this morning for Eugene, where he will visit until Wednesday, when he will go on to Albany to spend Thanksgiving.

Henry Rabbes of the Home Realty company, who has been over to the Rogue River valley on a business trip, is expected home this evening.

A marriage license was issued today from the county clerk's office to J. W. C. (Alphabet) Tyrel and Alice Louise Wise, both residents of this city.

An exchange remarks that possibly Roosevelt is coming home because he has become convinced that there are more wild beasts at home than over in Africa.

The holiday season is approaching, and this is the time that you should take thought of your neighbor and do all in your power to make his a happy lot.

T. H. Wilkerson and his daughter, Mrs. Tina Wyl, of Lorella came into the city Friday to be with Miss Freda Wilkerson, his daughter, who is quite ill at the hospital.

The reports from Clear Lake are to the effect that most of the laborers have left and that the few there will probably complete the work remaining in the next ten days.

Tomorrow (Sunday) night there will be new picture shows at the Opera House and the Baldwin orchestra will play several concert selections between the films.

\$40,000 FOR CLEAR LAKE

THIS AMOUNT IS ASKED FOR BY SUPERINTENDENT ARANT

MOSTLY FOR THE HIGHWAYS

Steps Should Be Taken to Secure Active Interest of Congressional Delegation.

W. F. Arant, superintendent of Crater Lake national park, has forwarded his report for the year to the Secretary of the Interior. The principal point of interest is the amount of money Mr. Arant asks for next year. He has made application for \$40,000, and if his request is granted he will be able to make great strides next year in the matter of road work and other necessary improvements. In discussing his plans, Mr. Arant said: "If Congress appropriates the amount of money I have asked for it will be sufficient to make a beginning on the system of scenic highways that I have planned for the vicinity of Crater Lake. The present roads will be greatly improved and work commenced on the road that will eventually surround the lake. It is admitted that when this highway is completed it will open up for the tourist one of the grandest views the eye of man has ever beheld. The expense connected with its construction is not going to be very great, and I have every reason to hope that Congress will grant all of the funds asked for for this piece of work."

"We have repaired the damage done to the buildings by last year's snow, and I am confident that the roofs will withstand any weight that they may be called upon to bear in the future. When I left there there was snow to a depth of six feet, and I would not be surprised if last year's record of twenty-five feet was equalled."

No time should be lost by the people of this and Jackson county in bringing to bear on Congress such influence as may be necessary to land all of the \$40,000 asked for. There will no doubt be a big fight made for the securing of the appropriation for the building of the Crater Lake highway, provided the decision of the state supreme court is favorable to such a proposition. In connection with this, the appropriating of the money asked for by Mr. Arant should also be urged. The time is ripe for bringing to the attention of Congress the needs of Crater Lake, and this fact should be effectively impressed upon the congressional delegation. The treatment accorded Southern Oregon by the state's representatives would seem to indicate that someone was forgetting something that it might be wise for them to remember, and the best time to do this is at the coming session of congress.

Judge G. T. Baldwin left this morning to attend the meeting of the grand lodge of the American Order of United Workmen at Portland. W. O. Smith and Alex. Martin Jr., delegates, will follow the Judge in the morning.

It's getting warmer; you may need a fan. They are something new, and make a very nice present. There may be a series of dances this winter, and then your lady will surely need a fan.

At McHattan's.

Don't wear out your back, broom and carpets when you can get the work done so quickly, thoroughly and cheaply by Meagold's vacuum cleaner.

SERVICES AT THE CHURCHES

Services will be held in the several churches of Klamath Falls Sunday as follows:

Church of Sacred Heart—Mass daily at 7:30. Sundays, at 10:30 a. m.

Christian Science Church—Christian Science services will be held in the parlor of the Baldwin building Sunday morning at 11 o'clock. All are cordially invited.

The lesson for this meeting will be "Soul and Body."

Grace M. E. Church—10:00—Sunday school. Dr. W. A. Leonard, superintendent.

11:00—Morning service. Theme, "Why Observe Holy Communion?" This sermon is one of a series that appeals especially to men.

7:30—Evening service "Hunting For a Man."

6:30—The Epworth League begins promptly and Miss Elsie Orem leads. Communion will be observed by this church next Sunday morning.

Baptist Church—9:30—Conference of Sunday school officers and teachers.

10:00—Sunday school. Classes for all. J. M. Platts, superintendent.

11:00—Sermon by the pastor; subject, "Our Safety."

3:00—A model children's meeting led by Rev. C. H. McKee. Object lesson, "Jane and the Pumpkin Seed." Children from three to ninety-three are cordially invited.

6:30—Young people's meeting.

7:30—Sermon, "What Will You Do With Jesus?" Mr. E. L. Raser will sing. Roy Stratton will play the violin.

Free Methodist Church—10:00—Bible school.

11:00—Morning worship.

6:30—Christian Endeavor prayer meeting. All young people of the city are invited.

7:30—Evening worship. Everyone is invited to attend all of the services of the church.

GEO. T. PRATT, Pastor.

First Christian Church—10:00—Bible school, followed by the regular communion services.

7:30—Christian Endeavor. Everyone is cordially invited to these services.

DANCE AT THE OPERA HOUSE

Between the films tonight the Baldwin orchestra will play several concert selections and after the show there will be a dance. Several of the pictures tonight are exceptionally fine, especially "Doomed," a stirring story of real life wherein Mephisto, in the guise of the pleasant stranger, makes havoc of the lives of a young squire and his bride. This film is beautifully hand-colored. "The Lost Tie," like the lost collar-button, causes no end of worry to hubby until his wife comes to the rescue. "In the Hands of the Enemy" is a charming romance of the Franco-Prussian war. "The Actor's Mother," a pleasing and touching drama, and "Free Champagne," an uproarious comedy, complete the program.

Our stock of lumber is now complete. We have everything necessary to build a house including rustic two-lap siding, ceiling, pine and No. 1 vertical grain fir flooring. Will have in a few days slash grain fir finishing lumber and cheaper grade of vertical grain fir flooring.

A TALE OF PIONEER DAYS

Dave Shook, one of the first of the old-timers to come to this country, told an amusing story of Captain Jack, the old Indian chief, who so long baffled the United States soldiers when they came to take this country from the red man. Shook was being shown the chair in which Captain Jack sat while on trial for his life.

"I saw Captain Jack hung," he said. "A preacher came out to try and convert the old warrior and get him to confess in Christ. The missionary told what a glorious country heaven was—peace forever and everybody happy. Captain Jack listened for a while, then said: 'I'll tell you what; I'll just give you twenty ponies if you'll go there in my place. You say it's such a lovely country.' It is not on record, however, that the preacher accepted the offer."

Evidently carbon filament lamps are still receiving considerable attention in England. Two patents have recently been issued on the subject, one aiming to regenerate the filament, and the other to prevent the blackening of the glass bulb. In the first case the bulb is opened, and after being cleaned hydrocarbon is introduced. Then on heating the lamp the hydrocarbon is decomposed and the carbon is deposited on the filament. In the second case the inventor believes that the blackening of the glass may be obviated by removing the mercury vapor which enters therein while the bulb is being evacuated. Therefore he proposes to coat the stem which holds the filament with silver, so as to absorb the mercury vapor.

Anything and everything that is available and is of value as a display of the varied products of this county should be sent in to C. T. Oliver's seed store, where they will be packed and put in order for the coming exhibit at the Corn Show at Omaha. Grains, grasses, tubers and other vegetables, fruits, specimens of rocks and soils, grist and lumber mill and box factory products, mounted birds and animals, historical and Indian relics, all these are wanted, and the kindness of those lending them to the committee will be greatly appreciated.

W. A. Delsell of the First National bank left this morning on a visit to Winfield in Southern Kansas, where his mother is in poor health. He expects to return in about two weeks. While Mr. Delsell is away Leslie Rogers of the Klamath County bank will fill his position as cashier.

RECLAMATION SERVICE HELP

HOPES TO SEND RELIEF MAP OF IRRIGATION WORK

DISPLAY WILL BE GOOD ONE

Car for Omaha Corn Show Will Hold Relics of County and Other Interesting Exhibits.

The reclamation service will aid in sending the exhibit from Klamath county to the Corn Show at Omaha. It is their intention, if possible, to get the relief map of the Klamath project from Washington, D. C., and place that on exhibit for the Easterners to view and gain some idea of the immense amount of work that is being done in this county by the government toward reclaiming the arid desert lands and building irrigation ditches through the valley.

During the past season alone water was supplied to more than 31,000 acres and was available for about 10,000 more if the landowners and settlers had made application for their water. One condition, however, which accounts in some measure for the vast acreage under the ditch on which the water is not being used is the fact that a good part of this land is in the hands of speculators who are not farmers, but have bought the land as an investment awaiting a rise in price. When the government puts the law requiring the payment of the water tax in force, most of these speculators will, in all probability, sell the land to farmers, and so it will be cultivated as is the other already owned by the ranchers and homesteaders in the valleys.

As has been already stated in a previous issue of The Herald, about half a million dollars is available for the reclamation work next year, and this large amount of money in the hands of so competent an engineer as Mr. Patch may be expected to accomplish wonders toward the completion of the ditches and the reservoir at Clear Lake, and next season will possibly see another 30,000 acres of valley land under irrigation.

On the afternoon of Thanksgiving day the Cardinals will play the First High School basketball team at Houston's opera house. The line-up of the two teams will be published later.
