KLAMATH FALLS, OREGON, WEDNESDAY, DECEMBER 15, 1909.

PRICE 5 CENTS

TO DECIDE ON THE SEWER

ANNUAL SESSION OF CITY COUNCIL IS TO BE HELD

KLAMATH OR MAIN STREET

Council About Ready to Determine on Location for the Main Sewer for the City

The city council will hold a special meeting this evening to take up a number of ordinances which have been introduced and also to settle on the location of the main line of the proposed sewer. There is some difference of opinion on the part of members of the council whether the main pipe should be laid on Klamath or Main streets.

It is conceded that if the sewage is run into the lake that Klamath avenue would be the better location for the main, as it would cover more territory. On the other hand it is argued that if the main sewer is laid on this street the grade would be too low to connect with a septic tank in case it was decided to do so or the city was forced to do so at some future time. The members of the council met yesterday afternoon with City Engineer Zanzwail and went over the surveys of the street grades, and undoubtedly are satisfied as to which is the best plan.

Councilman Castel, of the First ward, is in favor of getting the advice of an additional sewer expert from Portland before definite action is taken. He claims he is in favor of getting as much advice on the matter as possible, and then there will be no chance of making a mistake. The only objection to this seems to be the delay it would cause.

Why buy gasoline lights from traveling agents when you can buy them cheaper at home from a reliable firm. Let us quote you prices. Baldwin Motor and Supply Co. Phone 951.

NEW MACHINERY FOR SAW MILL

Upper Lake Mill Increases Capacity. Has Five-Year Contract.

FORT KLAMATH, Dec. 15.—(Special)—John F. Loosley, sawyer for Utter & Burns, returned from the city Monday evening, having purchased machinery for the saw mill, consisting of an engine, boiler, etc., all much heavier machinery than is now in use in the mill.

When installed the horse power will be increased to 100, and the mill will require but five more additional men to operate it. The capacity of the mill will be between 30,000 and 35,000 feet per day. A car containing the machinery will arrive at Klamath Falls about Thursday of this week. The company has a five-year contract with the government, and on account of the increase in the market for lumber it was impossible to meet the demand made upon the mill with its present equipment.

Utter & Burns are located in a fine belt of sugar and yellow pine. They will in all probability make extensive shipments of their first grade lumber, having only a ten-mile haul to the boat landing.

EASTERN STAR OFFICERS

The Eastern Star elected officers as follows at their meeting last evening: Minnie E. Ward, worthy matron; Cora Sanderson, associate matron; Wm. Martin, worthy patron; May Ankeny, conductress; Mrs. Brennan, associate conductress; Lulu Straw, secretary; Mrs. Alford, treasurer. The new trustees are Mrs. Willis, Mrs. Murdock, Mrs. Reames.

MASONRY ELECT OFFICERS

The following officers were elected at the annual election of the A. F. & A. M. held Monday evening: A. L. Leavitt, worshipful master; Wm. Martin, senior warden; George Noland, junior warden; E. R. Reames, treasurer; Roy G. Walker, secretary.

A. F. & A. M.

Special communication Friday evening, December 17th, for conferring the M. M. degree. By order of the W. M. O. B. GATES, Sec'y.

DEVELOP PIT RIVER PROJECT

MT. SHASTA POWER COMPANY FILES ARTICLES

A MILLION-DOLLAR COMPANY

H. V. Gates One of the Incorporators and Directors of the New Company

Articles of incorporation have been filed at San Francisco and Redding, Cal., of the Shasta Power Company. The company is organized to develop electric power on Pit river in Shasta county, and is capitalized at \$1,000,000. The company has been formed to take over and combine the interests of a number of owners of water rights on Pit river. Those most largely interested in the project are John Coffee Hays of Visalia, William A. Cooper and R. C. Johnson of San Francisco, and H. V. Gates of Hillsboro.

It is proposed to construct dams and erect machinery for the generation of electricity. Probably \$2,000,000 will be expended in developing the rights taken over by the company. The directors besides Hays, Cooper, Johnson and Gates are Jesse A. Lillenthal, Albert Raymond and Archibald J. Treat.

WHAT MAKES "TIRED LAND"

What makes the land tired? Farmer Jones is worried. His fields are not nearly so productive as they used to be. His corn does not yield so many bushels to the acre, and even the potatoes show lessened crops.

This sort of thing tells on the bank account. Farmer Jones judges, from all he can learn, that the soil is becoming exhausted—in other words that so much of the plant food it originally contained has been taken out of it by off-repeated cropping that it is in a measure used up. To resupply it with plant food he buys and contributes to the land quantities of expensive fertilizers. They fail to produce the hoped-for result, and then the unhappy farmer comes to the melancholy conclusion that his acres are "worn out"—that is to say, rendered incapable for the future of yielding profitable returns.

Such "worn out" lands comprise a large part of the State of Virginia. They cover extensive areas in New England and elsewhere in the East. So hopeless are they considered for agriculture that they can often be purchased for a mere song. Abandoned farms—forsaken merely because they are no longer productive—may be found scattered all over these sections of the country.

And yet there is nothing really the matter with these farms—at all events nothing that ought to be very difficult to remedy. Their soil is just as good, and capable of as abundant a fruitfulness, as it ever was—save for the fact that through lack of proper use and treatment chemical substances of a poisonous nature have accumulated in it. It is these substances that render the land unproductive.

The discovery of these "soil toxins" as they are called, represents one of the newest and most important additions to scientific knowledge in relation to agriculture. It has already gone far enough to enable the experts of the government bureau of soils to point to certain definite chemical compounds, represented by actual samples contained in little bottles, as the toxins in question. These substances—not all of which have been isolated as yet, however—are known positively and beyond question to be the poisons that cause "soil fatigue."—Technical World Magazine.

WORKMEN ELECT

The following officers were elected for the ensuing term by A. O. U. W. Lodge last evening: Harry Goeller, M. W.; F. Elm Baldwin, foreman; J. E. Swanson, overseer; Edmund Gowen, guide; J. W. Stemann, recorder; Alex. Martin Jr., treasurer; George T. Baldwin, receiver.

The Klamath Shoe store has a sale on for December 15th, for one day only.

SPECIAL OFFER GIVES CONTESTANTS GOOD CHANCE

By Extra Effort the Vote May Be Rapidly Increased.

The double vote offer for new subscribers is meeting with favor and the candidates are already reporting a large number of new ones. This will be the last special offer of any kind to be made during this contest, and the candidates have signified their intention of putting forth every effort to secure a large number before it closes. As there seems to be some confusion as to the meaning of the term "new subscriber" we offer the following explanation: Anyone who at the time of making a payment is not receiving the paper will be considered new. People who have been taking the Herald but have discontinued at some previous time by subscribing now will be considered new. All persons who have been added to the list since the contest opened will be considered new until the close. By making another payment your favorite will receive the additional votes. Candidates are not limited as to the number of subscriptions during this offer. Parties wishing may leave their subscriptions in the office and the votes will be cast for their choice.

In making a canvas for new subscribers candidates should not overlook the old ones. Next Monday the regular vote schedule will be in force, and will be strictly adhered to until the close.

On your first visit a great many of your friends gave you a three-months' subscription and asked you to call at some future date and they would re-subscribe. Don't overlook any of them. You will get more votes on the second payment than you did on the first. If on your first trip they gave you a three-months' subscription you received 300 votes; if on your next call they give you an additional three months it will entitle you to 600 votes, totaling 900 votes for the six months. Or if they paid you for a year you would receive 3,000 votes less the three hundred already counted, or 1,700 votes for a \$3.75 payment.

Remember, you have only a few days in which to see the people who have promised to help you. Start in today; if you wait for the last few days you are bound to overlook some of them.

The candidates and how they stand today:

Helen Harris	45,000
Flora Masten	41,000
Golda Barnes	33,000

ARE YOU PAYING RENT? \$100 down and \$10 per month will buy you a new cozy two-room cottage, furnished complete if you wish, large closet and pantry, electric lights, city water, sidewalk, lot 50x130. In "Hot Springs Addition." Three and four room houses on equally attractive terms. See the owner, Nelson Rounsevell, at Gillette Plaza, evenings, or at the houses every day.

WHO OWNS THE WATER RIGHTS

MAYOR SANDERSON ANXIOUS TO SECURE NAMES

CITY SHOULD HAVE CONTROL

Ditch Could Be Filled and Rights of Way Reverted to the Former Owners.

Mayor Sanderson is anxious to secure a correct list of the present owners of the water rights along the old Ankeny canal, as arrangements are now under way with the reclamation service whereby the city is to take over the canal from the Leavitt place south. The arrangements call for a pipe line to be put in and the ditch filled. In this case the land now owned as a right of way is to be transferred to the original owners or the abutting property. It is very necessary that the present owners of the water rights be known, so that the arrangements with the government can be completed early in the year.

The following list has been secured but it is not known if it is correct or not, and the request is made that all owners of water rights hand their names to Police Judge Leavitt at once, so that action in the matter will not be delayed.

Following is a list of those who are supposed to own water rights: C. D. Wilson, A. L. Leavitt, R. A. Alford, E. R. Reams, J. W. Stemann, J. G. Pierce, Charles Roberts, George T. Baldwin, Mrs. Margaret McMillan, the Brick Store (Van Syckle), Fred Noel, C. H. Withrow, H. M. Bristol, John Uerlings, Mrs. E. E. Hedrick, Roy Hamaker, Alex. Martin Jr., G. W. White, County Court House, Mrs. E. S. Healey, Dr. F. M. White, J. C. Mongold, L. F. Willits, Roy Walker, J. D. Fountain, Mrs. E. E. Wise, Fred Mang, F. T. Sanderson, W. T. Shive, S. T. Summers, Mrs. E. V. Cogswell, Mrs. E. E. Van Brimmer, J. M. Evans, Mrs. J. V. Brandenburg, Mrs. S. Taylor, Oscar North, J. W. Bryant, J. H. Farrar, C. R. DeLap.

FORT KLAMATH NEWS

FORT KLAMATH, Dec. 15.—(Special)—The Long Lake Lumber company is hauling baled hay from here to their camp near Pelican bay.

Richard Breitenstein and Mr. Richardson arrived Monday for hay from the Pelton & Sisemore ranch. Timothy hay is \$15 per ton.

On account of the lake being frozen over people on the West Side are becoming short of supplies, and are "up against it" for the mail.

Mercury 4 above at Shattuck's this morning, and the dogs and coyotes run on and sport on the crusted snow.

Loosley and Ryan Sisemore, Jas. Knott, Chas. Zumborn and Jas. O'Grady were on a successful fishing and hunting trip at the head of Wood river today.

Willie Norris is not improving a bit from his two-weeks' spell of sickness. Dr. White may be called tomorrow if he does not improve.

Mr. Spink is now taking advantage of the good sleighing, and is hauling his hay from the McCoy ranch to the Agency.

Wheeler is bob-sleighing his barn full of hay from the Richard Melharran ranch.

The Adams' dredger is near the Weed bridge. Intends to cut a canal west from the bridge to Seven Mile.

SUPPLEMENT OREGON DIGEST

Arthur S. Benson, son of H. L. Benson, and deputy clerk of the Supreme Court at Salem, and Miss Ella May King, clerk to Associate Justice McBride, are collaborating on a digest which is to be supplementary to Montague's Oregon digest. As Montague's digest includes only 43 volumes of the Oregon reports it is fast becoming out of date.

The new digest will be cheaply bound, and is intended to serve a temporary purpose only, and until a new and revised digest can be compiled. The supplementary digest will contain the decisions of the Oregon Supreme Court contained in the Oregon reports from the 43d to the 53d volumes, inclusive. The latter volume will soon be off the press.

AT THE OPERA HOUSE

Castle and Montgomery will appear tonight in an intense dramatic sketch, "Sowing and Reaping," taken from the great English play, "Sporting Life." Castle and Montgomery produced this interesting sketch for two seasons on the Orpheum circuit. The pictures—"Modern Algeria," "The New Footman," "The Unexpected Guest," "Fantine, or a Mother's Love."

All styles, all designs and all qualities of wallpaper and linoleum, window shades and rugs at Bamber & Peairs, exclusive painters and paper-hangers. Phone 954.

Christmas is coming—clean house and have it done by Mongold's vacuum cleaner. It saves backache, carpets, patience, and does the work right.

MODOC COUNTY FILES PROTEST

WANTS RIGHTS IN CLEAR LAKE MATTER PROTECTED

SUPERVISORS TAKE ACTION

May Not Be Enough Water in Lake to Supply Both California and Oregon Land

The board of supervisors of Modoc county will at once take up with Congressman Englebright of California the matter of protecting the rights of Modoc county to the waters of Clear Lake.

At a special meeting of the board recently held E. C. Bonner appeared and asked that Modoc county protect her rights in the body of water known as Clear lake, which is situated in the county, and which water supply is to be used to irrigate land in the Klamath project in Oregon.

It is claimed that there is a vast stretch of land in Modoc county which could be irrigated from the waters of the lake, and the supervisors believe Modoc should have her rights in the matter.

Supervising Engineer Patch of the Klamath project is out of the city today, and it is not known what the conditions are from the standpoint of the reclamation service, but it is known that the government engineers have been in that section recently investigating the matter. No decision has yet been reached, and it is believed to be a question whether there will be sufficient water in Clear lake to irrigate the lands in Oregon and this section of California.

TWO CASES OF PAPER FOR OREGON'S NEW CODE

It will require two cartloads of paper to print Oregon's new code. The code will consist of two volumes, and there will be printed 5,000 sets, or a total of 10,000 volumes, a respectably large library. State Printer Dunaway estimates that the printing will take 70,000 pounds of book paper.

The first volume has already been compiled, and the copy is being placed in the hands of the printer rapidly. William F. Lord, James B. Montague, James Godfrey and William F. Lord Jr. compose the commission created by the last legislature for compiling a new code. It will be ready for distribution in November, 1910.

The testimony in the case of Pointers vs. the Klamath Falls Land and Transportation company was finished this afternoon, and at 4 o'clock the arguments of the attorneys began. It is expected that the case will be given to the jury this evening.
