DAIRY DEVELOPMENTS

Almost everybody has been killing beavers lately.

Frosty nights and bright sunny days last week.

John A. Jones went to the Falls last week on business.

A. L. Michael went to Klamath Falls Wednesday last.

This is splendid weather—for getting in the winter's wood.

The skating on the Shook meadow, B. M. Hall says, is first-class.

Mrs. A. L. Michael of Dairy was visitor with her sister, Mrs. Dan Driscoll at Bonanza, for several days last week.

The youngsters—including Prof. Hall and "Brown" Michael—have been enjoying themselves skating these frosty mornings.

Marion Bennett and his wife have sold their 280 place to Jasper Bennett at \$16 an acre, and expect to remove to the Willamette valley, in the hope of benefiting Mrs. Bennett's health.

On Tuesday evening last the astronomer of Dairy's academy announced the discovery of Haley's comet, as it rose above the horizon, its tail blazing far above the body of the star, which appeared to be of the third magnitude.

The public is assured that an excellent program has been prepared for the Christmas entertainment at the Dairy school house Christmas eve, Friday evening next. The committee having the matter in charge assure me that they have done their very best.

A largely attended farewell dancing party was given to Mr. and Mrs. A. L. Michael at their Dairy residence Friday evening last. There was good music and dancing galore, the amusement lasting till the "wee sma' hours" beyond the twal." The early departure of the host and hostess on their southern visit was the occasion of this social remembrance.

Rabbit hunting is becoming a popular sport in the valley. Having been left alone for several years, the Jacks have become quite numerous. It is generally supposed that coyotes kill many of them, but somehow the bunnies grow in number far more rapidly than do the coyotes. It requires a team of gentle horses, a wagon, a driver and two or three men with shotguns to do the business for bunny.

A package of keepsakes and presents from friends in Germany was received by one of our German-American citizens last week, the weight of which would have prohibited it from being sent by mail from one part of the United States to another, and the charge per pound was only one-half the American rate. Which seems strange, but is due to the fact that a "parcels post" service has been established between the two countries, while we have no such arrangement in this country. Our postal laws lack a good deal of being up to date—owing to the fact that we elect politicians instead of statesmen to congress—men who regard "party solidarity" as of greater importance than the country's good.
