Miss Holt of Baltimore is a Livermore guest.

H. M. Card and wife returned from several days at Crater lake Saturday, and left Sunday morning for their home in Portland.

F. A. and Fred Corkhill of Berkeley have returned from Crater lake, where they spent several days viewing the scenery at that famous resort.

O. T. McKendree, formerly of Lakeview but now of Oakland, went to Lakeview this morning to look after his extensive interests in that part of the state.

The Lakeview stage has changed its time of leaving from the evening to the morning. The change was made at the request of the Lakeview people, who will get their mail twelve hours earlier by the change in time.

Chief of Police Townsend appeared in his full new uniform yesterday, and he certainly looked every inch an officer. The only thing he lacks is a regulation police club, and that will doubtless soon be provided by the city.

Mrs. H. Crosby of Centerville, Cal., Mrs. R. J. Smith and daughter and Mrs. H. P. Hoey and children went to Mr. Hoey's ranch at Lake Odell Saturday, where they will enjoy the delightful scenery in that part of the county.

Mr. and Mrs. S. O. Johnson, Mrs. S. S. Johnson and Mrs. James Dobbins left for a trip to Bend yesterday morning. They went on the boat to Agency landing and from there took an automobile for the remainder of the journey.

W. A. Watson and Ed McDonald have returned from a fishing trip to the Cayan country. They say that they did not get any good fishing until they struck Anna creek, about four miles above Fort Klamath, although they had a fine time on the trip.

A. G. Duhme arrived in the city Saturday from his sawmill near Lakeview. Mr. Duhme is the representative of the W. P. Devereux company, which has extensive timber holdings along the east side of the Upper lake. While here he inspected the holdings of the company.

F. S. Stratton of San Francisco and F. H. Page of Portland have returned from several days' fishing at the Upper lake resorts, and have gone to their homes. They have spent their vacations here for the past seven years, and think that this region is the finest in the land to enjoy an outing in.

W. L. Welch came down from Dairy yesterday, and is stopping at the Lakeside Inn. He says that the rain last week laid the dust in his part of the country, but there was not enough rain to do any material good. The grain needs water badly, and the hay crop will also be a little short. A rain now would do a great deal of good to the farmers in that vicinity.

Mrs. Hattie Wilson has returned from Ashland, where she has been attending the Chautauqua assembly. She says there was a very interesting session and that the "dry" movement is attracting a great deal of attention and interest. She will make a report of the doings of the session at the W. C. T. U. meeting tomorrow afternoon at the home of Mrs. B. S. Grigsby.

Morris O'Connell, Dan O'Connell, Floyd McMillan, Donald Worden, Harry Galarneau and Harden Carter secured a hack and went to Spencer creek Sunday. They left here about 7 o'clock and returned at 11:30 at night. They were not there long enough to fish very much, but managed to catch a few trout, but on the way back they killed a big rattlesnake with ten rattles near Keno.

Dr. William Martin returned from Oakland Saturday evening, where he had been for several days. He says that his father, Alex Martin Sr., is much improved in health and that he is expected that he will be able to take a trip to his old home here before winter sets in. Mr. Martin's many friends are more than pleased to learn of the improvement in his condition and will be glad to welcome him on his arrival in Klamath Falls.

After the Lecture
The lecture was over, and the gentleman who did the talking strained his ears as he followed the audience out of the hall to gather in, so far as he could, what sort of an impression he had made. As he drew near to the doorway two old gentlemen who were making their way out just ahead of him rendered a verdict.

"Well, Banksie," said one of them, "what do you think of it?"
"I've heard worse," said Banksie.

"Did you think it was at all illuminating?" asked the other.
"In an old-fashioned way, yes," replied the venerable Banksie.

"I don't quite catch your point," said the questioner.

"Why, it was illuminating, but it struck me as having more gas than electricity about it," explained the critic.—Judge's Library.

GOOD SCORES MADE AT TRAP SHOOT

Bell Takes the Silver Cup This Time With a Score of 57 Out of a Possible 60

The shoot of the Crater Gun club on their grounds on Fifth street yesterday afternoon was an interesting one to every person who was present. Mr. Bell made the highest score and thereby won the silver cup for this meet.

The shooters and their scores were:

	First	Sec.
Bell	57	25
Ankeny	18	19
Hoey	14	14
Roberts	20	14
Parker	18	17
Jacobson	17	22
Oberchain	15	17
Gregory	12	12

Peterson and Erickson then took a trial at the blinerocks and each fired twenty-five shots. Mr. Peterson said that he didn't know anything about trap shooting, but he managed to break sixteen out of the twenty-five, while Mr. Erickson broke five.

In the doubles, out of twenty shots, the scores were:

Hoey	7
Ankeny	8
Jacobson	12
Mr. Erickson and Mr. Peters again tried their hands and out ten shots fired at double birds M Peterson broke seven, while M Erickson failed to score.	

Mr. Lund broke eight birds out of the ten shots he fired.

The shoots of the club have been interesting once, both for the members and the spectators, and if the persons interested in this sport will only get together they can have one of the strongest clubs in the state.

EASTERNERS INVEST IN OREGON ORCHARDS

ROSEBURG, Ore., July 25.—One enterprise has been developing quietly in the Umpqua valley during the last year which means a great deal to that section. It is the Overland Fruit and Development company, which is planting one of the largest and finest orchards in the valley simply as a fruit raising proposition. The company has the distinction of not having a foot of land for sale and of never having advertised its stock in any paper.

These orchards are situated at the head of Garden valley, a few miles northwest of Roseburg, and show a cultivation equal to the best. Visitors may drive through scores of acres in which not a weed is to be seen and not a tree is out of alignment.

The company was organized in Boston in 1909, with a capital stock of \$80,000. The president is Donald McAllister of the Boston chamber of commerce, and the treasurer and general manager is Charles A. Brand, who for eight years was managing editor of the Pilgrim Press of Boston.

The stockholders of the company are quite largely professional men, most of whom cannot come west to raise fruit, but are sending their money west and are going into business by proxy.

Babies are very cunning, particularly at the age when they bite off the woodwork and lick off the wall paper.

Gust Peterson and A. M. Erickson, the railroad contractors, were here yesterday and took part in the Crater Gun club shoot.

Mrs. Ethel Widdoes and two children are home from Ashland, where they attended the Chautauqua assembly.

BABIES' ALMANAC

Babies want the moon, but after they grow up they are content with wishing for the earth with a fence around it.

Babies can grow in almost anything, but thrive best in a hot and dusty railroad coach five minutes past the time that you had seriously considered a little nap. The fact that there is a crying need of more babies will never be brought home in a passenger coach.

A baby is subject to many diseases. One of the most serious of these is called boohooohooritis, which is the result of an unfortunate combination of a misplaced pin and a fool nurse.

In nautical terms, the baby's squall might be called a spanking breeze.
