**SENATE IS NOT  
IN BIG HURRY**

**RECIPROCTY IS THE ONLY  
MEASURE CONSIDERED UP TO  
THE PRESENT TIME—A LONG  
FIGHT IS PREDICTED.**

WASHINGTON, May 3.—Three weeks of the extraordinary session of Congress having passed with a record of rapid-fire legislation by the House, the Senate is finally organized but in no haste to consider that part of the Democratic programme already disposed of by the lower branch. Canadian reciprocity is the only matter being considered by the Senate, and that probably will not come before it for several weeks. The finance committee, to which it was referred, will grant hearings on the bill.

How long committee deliberation will continue is problematical but the prospect is for a lengthy discussion. Chairman Penrose of the committee is in favor of the bill, but the majority is opposed to it. The prevailing opinion is that it will be reported without recommendation. There is no prospect of the Senate considering the House bill providing for popular election of Senators, protection of publicity of campaign contributions, or reapportionment until the reciprocity issue has been decided.

In the House the Democrats are keeping up a rapid "progressive" pace and most of the week will be devoted to the farmers' free list bill. The Democratic leaders are anxious to hasten the free list bill so that the ways and means committee may be free to devote its time to the revision of the textile schedules. While this work is progressing it is probable the House will act upon the report of the territories committee on statehood for Arizona and New Mexico.

**CIVIL ENGINEER TO  
ADDRESS STUDENTS**

Special to The Herald.  
**CORVALLIS, May 3.**—Last night Robert J. Dieck of Portland addressed the students of the Oregon Agricultural College, describing the many difficult feats of civil engineering he assisted in performing during his term of office as city engineer of Manila, P. I., under Taft, when he was secretary of the war department. Mr. Dieck is a member of the American Society of Civil Engineers, a graduate of the University of Pennsylvania in the class of 1896, and has traveled much in Europe, studying engineering problems, before his six years in the Philippines.

**NOTES ON CONGRESS**

Representative Rucker (dem., Mo.) believes in patronizing home industry, and smokes nothing but the "Missouri meerschaum"—a well colored corn-cob pipe.  
Representative Dwight (rep., N. Y.), who used to be whip for the old majority, has all his butter sent to Washington from Tompkins county—a part of his district.  
Speaker Clark has a new way of opening the house proceedings. Heretofore the presiding officer always said: "The chaplain will offer prayer." Clark invariably says: "The chaplain will lead in prayer."  
Rep. Prouty (rep., Iowa), the progressive who succeeded Representative John A. T. Hull, coined a new word in his recent speech on reciprocity. He got embarrassed and pronounced "toedstool" "towedstool," and couldn't get away from this pronunciation through the whole of his speech. He referred to "towedstool" eight times.  
The navy department is planning for next month a series of tests with a gyroscope, to determine its value in maintaining the stability of a warship in rough seas. The torpedo boat destroyer Worden is to be used in the tests, which will be held off the Virginia capes.  
Remember the date, May 5th, Friday evening, at Houston's opera house—Band concert.

**HELEN MACKELLAR (With the Melrose Company)**

**TWO CITIES MAY UNITE  
TO SECURE GOOD WATER**

**MARSHFIELD, May 3.**—The city councils of North Bend and Marshfield will soon hold a joint meeting for the purpose of discussing plans for municipal water works to supply both cities. There has been much agitation lately as to the status of the water from the present supply. Mayor Simpson of North Bend has received from a Portland engineer plans for water works which will give an adequate supply for both cities, and these plans will be submitted to the joint meeting.

**REFLECTIONS OF A BACHE-  
LOR GIBB**  
(By Helen Rowland)

From the sort of wives that most men select you would fancy that love was not so much a matter of softening of the heart as of softening of the brain.  
A woman's love is supposed to be made of cast iron, warranted to stand the strain long after her faith has been shattered.  
Marriage is a marathon, and the one who takes the lead at the altar will usually keep it all the way to the grave.  
It's not our big faults, but little failings, that get on one another's nerves after marriage. A drop of water is a little thing, but hundreds of martyrs were killed by letting water drop in the same spot on their foreheads until they went quite mad.  
Love doesn't come in bottles; it's like a well—the more you draw on it the more freely and plentifully it flows.  
Oh, yes; most men are "brutes," and most women are "fools," perhaps, but unfortunately, that's just what makes them attractive to one another.  
It is a waste of time to read advice on the art of fascinating a man, because any woman who knows anything about it is too busy practicing to stop to theorize.  
Matrimony is like a saw—when one flies up in the air the other always comes down from the heights with a sickening thud.  
Modern love affairs, like modern strawberry shortcake, are getting to be mostly a matter of "dough."

**Amateur Night**  
Friday nights will be amateur night at Sparks theater. On account of the band concert on Friday, May 5th, the first amateur night will be held on Thursday, May 4th, and on every following Friday night. 25-6t

**SALE OF TIMBER**  
Portland, Ore., April 18, 1911.  
Sealed bids, marked outside "Bid, Timber Sale Application, April 1, 1911, Crater," and addressed to the District Forester, Forest Service, Portland, Oregon, will be received up to and including the 18th day of May, 1911, for all the merchantable dead

timber, standing or down, and all the live timber marked for cutting by the forest officer located on an area to be definitely designated by the forest officer before cutting, begins, including about 1,417 acres on the watershed of Seven Mile Creek, in part of NE 1/4, N 1/4 of SE 1/4, W 1/4 of SW 1/4, and W 1/4 of SW 1/4 of Sec. 1; part of the S 1/4 of N 1/4, and the S 1/4 of Sec. 2; N 1/4, part of N 1/4 of SW 1/4, part of NW 1/4 of SE 1/4, NE 1/4 of SE 1/4, part of SW 1/4 of SE 1/4 and part of SE 1/4 of SE 1/4 of Sec. 11; W 1/4 of NE 1/4 of NW 1/4, NW 1/4 of SE 1/4 of NW 1/4, W 1/4 of NW 1/4, NE 1/4 of NW 1/4 of SW 1/4, and W 1/4 of W 1/4 of SW 1/4 of Sec. 12; SW 1/4 of NW 1/4 of Sec. 13, and part of E 1/4 of E 1/4 of Sec. 14, T. 33 N., R. 6 E., W. M., within the Crater National Forest, Oregon, estimated to be 12,925,000 feet B. M. of live and 3,000 feet B. M. of dead Western yellow pine, 2,102,000 feet B. M. of live white fir, 495,000 feet B. M. of live Douglas fir, and 237,000 feet B. M. of live sugar pine, saw timber, log scale, more or less. No bid of less than \$2.25 per thousand feet B. M. for live and dead Western yellow pine and sugar pine, \$2.25 per thousand feet B. M. for Douglas fir and \$1.25 per thousand feet B. M. for white fir will be considered, and a deposit of \$2,000, payable to the order of the First National bank of Portland, Oregon, must be sent to that bank for each bid submitted to the District Forester. Timber upon valid claims is exempted from sale. The right to reject any and all bids is reserved. For further information and regulations governing sales address Forest Supervisor, Medford, Oregon.
