

Buck Nix Makes Uncomplimentary Remarks About the Lord Mayor's Carriage - By Sidney Smith

R. C. SPINK, The Jeweler

Agent for Crescent and Jas. Boss Filled Cases

THE MEANING OF "GOLD FILLED"
 By far the greater number of men and women who buy gold watches choose a gold-filled case. Gold-filled means two layers of solid gold stiffened with a layer of metal alloy between. It makes a sterner case than a gold one, and costs less.
 If the two plates of gold are heavy enough they will wear for many years. But, you see, the temptation to irresponsible manufacturers is to roll the gold layers to a mere film and increase the base metal.
 What is worse, the makers of shoddy filled cases can stamp it "Guaranteed 20 or 25 years," and there is no law to prevent him.
 Remember, when you buy a watch to inquire about the case. Remember, also, that the guarantee stamp is no safeguard.
 Fortunately there is a way you can protect yourself—a way you can be sure of the value. Demand a filled case made by the people who make the finest gold-filled cases in the world. That means a "Crescent" filled case or a "Jas. Boss" filled case, both made by the Keystone people, who produce the Keystone solid gold cases. These cases are backed by 50 years of service.

The Wise Young Couple

Will have a savings bank book from the very start. Every deposit they make is a provision against the rainy day that comes to all at some time or another. The First Trust and Savings bank opens joint accounts by which either husband or wife can withdraw money when needed. Better open one today and have something to fall back on when trouble comes.

Your Boy
 Ask your doctor how often he prescribes an alcoholic stimulant for children. He will probably say, "Very, very rarely." Ask him how often he prescribes a tonic for them. He will probably answer, "Very, very frequently." Ayer's Sarsaparilla is a strong tonic, entirely free from alcohol.

EVEN CONGRESSMEN ARE HIT BY THE H. C. L.

This high cost of living problem has penetrated the halls of congress, and when it comes to the solving of problems of domestic economy Congressman J. Hampton Moore of Philadelphia has the frugal housewife all to the good, says a Washington correspondent to the Houston Post. But Moore has overlooked the beef and the sugar and has joined the Jim Hill decriers of extravagance.
 Congressman Moore has completed a list of luxuries apparently deemed essential in this era of rapid living which comes short of being a joke. His statistics show that these luxuries consumed in a single year would complete a chain of canals from Boston to Key West; that the jewelry sold represents more than twice the cost of building the Panama canal, and that the nickels annually spent for the pink and brown sizzling soda water are sufficient to complete the inland water way system for which all South Texas is so ardently pining.
 According to Moore, the boys and girls of the country, as well as the adult masticators of chiclet spent \$25,000,000 last year on chewing gum.
 The candy bill last year in the United States reached the astonishing aggregate of \$70,000,000.
 The soda water bill in this country, where it flourishes as in no other in the world war, shall we say cool—the sum of \$320,000,000.

A FEW POINTS ON THE MOTION PICTURE GAME

Speaking of motion pictures, the charge for admission is seldom more than 10 cents. To offset this, however, from the managers point of view, he has no exorbitant headliners' salaries to pay, no orchestra, no seat coupons to print, and only one or two others to hire, says a writer in Munsey's Magazine.
 There are, moreover, no disputes to settle with the performers about the locations of dressing rooms or positions on the bill, and no regular treasurer need be engaged. In his place, the moving picture impresario needs only a neat looking girl cashier, posted in a glass cage as close to the sidewalk as the law will permit—in order, I suppose, to get a patron's money before he has time to change his mind before going inside. For there is no denying that the film habit distinctly lacks "class."
 Managers go into the game because the risk is almost nil, and thousands of people patronize it simply because they haven't the price to pay for flesh and blood entertainment. In fact, cheapness is rampant all along the line of the kinetoscope, even to the pay that writers of the scenarios draw. Although it is much more difficult to devise a good wordless play than one in which dialogue can be used, the authors receive for the most part only \$10 to \$25 per piece.
