

# And Now Jeff Is All Wised Up on the Law of Neutrality :: :: By "Bud" Fisher

## The Wise Young Couple

Will have a savings bank book from the very start. Every deposit they make is a provision against the rainy day that comes to all at some time or another. The First Trust and Savings bank opens joint accounts by which either husband or wife can withdraw money when needed. Better open one today and have something to fall back on when trouble comes.

**First Trust and Savings Bank**  
KLAMATH FALLS, ORE.

### AT THE CHURCHES

Services at the various churches of the city for tomorrow, will be as follows:

**Church of the Sacred Heart—**  
First mass, with short instruction, at 8:30 a. m.  
Second mass at 10:30 a. m., with sermon on the Gospel of the Sunday.  
Sunday school at 9:30 a. m.  
All are cordially invited to attend.  
Rev. John J. Cunningham, S. J., pastor. Corner Worden avenue and Donald street, First Fairview addition.

**Christian Church—**  
Owing to stormy weather last Sunday evening C. H. Hilton postponed his sermon on "Believing a Lie," and will give this sermon tomorrow evening, bringing out the idea if a man believes a lie, and is thus misled, will it make any difference. In the morning he has for his subject, "Give Ye Them to Eat."

**Bible School at 10 a. m.**  
Y. P. S. C. E. at 7 p. m.  
Special music by the choir.  
The public cordially invited.

**Christian Science—**  
Services at the parlors of the Dover Cafe.  
Sunday school at 10:30.  
Services at 11 o'clock a. m., theme, "Mortals and Immortals."  
Wednesday evening services begin at 8 o'clock. All invited.

**Grace Methodist Episcopal—**  
Sunday school at 10 a. m., Dr. W. A. Leonard superintendent.  
Services at 11 a. m. and 8 p. m.  
Geo. H. Fosse, pastor.  
General class at 12:10. H. D. Harris, leader.  
Epworth League at 6:30 p. m. Roy Nelson, president.

**Special announcement—** Morning theme, "A Drink at the Old Well."  
Evening theme, "A Tribute to Mother." The evening services are held especially in honor of "Mother's Day." The Grand Army, the Woman's Relief Corps and others will attend in a body. The white carnation will be worn.  
The newly organized male quartet, consisting of Messrs. W. A. Cranbourne, Pugh, H. E. Richardson, Frank M. Upp and W. H. Shaw will sing both morning and evening.  
A cordial welcome. Obliging ushers. Good music.

## UNITED STATES GEOLOGICAL SURVEY ISSUES BULLETIN ON CRATER LAKE

(Continued from Page 1)

never to be effaced from memory. As a pioneer in the field, the United States geological survey has made a careful topographical survey of the Crater Lake national park. Pearson Chapman, government topographer, spent two field seasons in the park, and surveyed every peak, slope and valley, and the resulting map, with 50-foot contour lines, is being engraved, and will be issued by the survey about June 4th.

From this topographic map one gets an idea of the remarkable tragedy which must have occurred in the dim past, when a mountain probably rivaling Mount Shasta in height disappeared into the bowels of the earth. The surface of Crater Lake is 6,177 feet above sea level; the lake is nearly six miles in diameter, and is surrounded by a rim of ragged rock rising from 1,000 to 2,000 feet above it. The lake is in many places nearly 2,000 feet deep, and its surface is broken only by Wizard Island, the result of the final gasp of the dying volcanic forces.

Wizard Island, a single cone which is nearly 1,000 feet above the lake, is built of young and recent lava flows, having a height of 100 feet above the water's surface.

At one time it was a question whether this ancient mountain, which has been restored in fancy and named Mount Mazama, did not explode and blow away in ashes and scoria, like Krakatoa or Pelee, but this theory has been overturned by geologists, who find unmistakable evidence that the mountain sank back into the earth. The surrounding country, according to J. S. Diller, a geologist of the United States geological survey, indicates unquestionably that at some time during the tertiary period, when many of the high peaks of the Cascade range were flaming beacons, great streams of molten rock issued from Mount Mazama, accompanied by thunderous explosions and ejections of pumice, which today covers the land's surface for miles.

The later of these eruptions occurred, it is believed, during the glacial period, the great streams of ice and lava alternating and causing stupendous conflicts between the two elements, filling the air with steam clouds and flooding the lower plains. Later came the final convulsions which demolished the upper mile of Mount Mazama.

When Crater Lake really comes into its own, people will row across its beautiful blue, bronze and purple waters, glance up at the towering cliffs, and realize that they are in the very interior of one of the world's greatest extinct volcanoes in the world. The collapse of Mount Mazama is stated to have been the crowning event in the history of the Cascade region.

Situated in the midst of an otherwise waterless region, this lake furnishes the underground water supplies for many streams radiating from it in almost every direction. Most of the approaches to the lake lead through splendid forests, valley meadows and natural pastures.

The highest point in the Crater Lake national park, as shown on the survey's map, is Scott Peak, 8,941 feet in elevation. This was simply a minor peak on the southeast side of Mount Mazama. From it the view, according to Mr. Chapman, is incomparably fine. On the opposite rim of the lake, apparently but a pistol shot distant, so clear is the air, stand out The Watchman and Glacier Peak. To the south lie the Great Klamath Lake, and far to the south Mount Shasta loses its snow-capped crown in

the skies. At a still further distance towers Mount Hood.

In the government survey the park was surrounded by 130 iron boundary posts, and concrete piers have been erected at the four corners and the two entrances, one on the south and the other on the west.

The map of Crater Lake national park will be issued in two editions, the regulation map and the pocket edition, folded and bound in covers. These maps may be obtained from the director of the United States geological survey at Washington after June 1st.

## UNIVERSITY SUMMER COURSES ANNOUNCED

UNIVERSITY OF OREGON, Eugene, May 13.—The courses of instruction, designed especially for the public and high school teachers of the state, to be given in the summer session of the university, have been announced in a recent bulletin of the summer school. Special attention is given to Methodology and to both Administration and Supervision of Rural, City and High Schools. Outside of the university faculty, which will give the customary courses, special lecturers have been secured, among them: J. S. Diller, geologist of the United States geological survey, and J. G. Collicott, city superintendent of the Tacoma schools, J. T. Gary, superintendent of the Clackamas county schools, George R. McMinn of the University of California, Ruby Shearer of Portland and J. Percy Wells, county superintendent of the Jackson county schools. These instructors will give the work above referred to in Methodology, Supervision and Administration. The summer session opens June 24th, and lasts for six weeks.

The annual reception given by the members of the Junior Class to the graduating class at the Klamath County High School was given Thursday night in the high school building, and was one of the most enjoyable gatherings of the school year. The room in which the reception was given was tastefully decorated by the Juniors with high school pennants and festoons of green, while rugs covered the floor.

A number of interesting games were played and several prizes were awarded. During the course of the evening delicious refreshments were served. Those attending were Mr. and Mrs. W. E. Faught, Prof. C. A. Howard, Prof. George Wirtz, Miss Ellen Conroy, Miss Addie Corwall and Prof. Eddy of the faculty, Miss Myrta Carter, Miss Tena Clement, Miss Nina Rouvch, Miss Orpha Schelback, Miss Roxa Shive, Miss Edith Rutonic, Miss Jessie Telford, Jack Edwards, Wilbur Telford, Horace Cox, Virgil De Lap, John Siemens and Clarence Motchenbacher of the Senior class, and Miss Octavia Arnett, Miss Pearl Bolvis, Miss Elsie Orem, Miss Marjorie McClure, Miss Florence Short, Miss Oslo Van Riper, Miss Vera Houston, Miss Lillian Van Riper, Clyde Partin, Fred Dunbar, Will Wood, Ord Arnold and Allen White of the junior class.

**ANNOUNCEMENT**  
The Toggery company having purchased the interest of Mr. McLean in the Pantatorium, the business will be moved to the present site of the Toggery, and will be continued under the efficient management of Perceval Sholl.  
The Toggery will collect all bills owing to the Pantatorium and pay all outstanding liabilities.

**WHAT IS DEATH**  
WHY IS DEATH  
WILL DEATH EVER CEASE

More than ninety thousand men, women and children fall prey to the grim monster every twenty-four hours. Man stands helpless; he cannot stop the breaking of tender ties, the snapping of heart strings, the cold hand of death. BUT WHY DOES NOT GOD STOP IT?
